National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike *National Dreams* is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves *National Dreams* is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in *National Dreams* are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop

The Lorimer Legacy Anne Melville, 2011-09-28 Volume Two of the dramatic saga of the Lorimer Family A Legacy may be of great value and still bring bad luck Although Margaret Lorimer has made her own way as a doctor she does not at all approve of the ambitions of her beautiful young ward Alexa Being an opera singer is considered a disreputable career for a young lady But Alexa has inherited a superb voice from her Italian mother and is determined to have her way even if it means travelling abroad And she has also inherited a legacy from the father she never knew a legacy which will bring her no happiness *The Lorimer Legacy* is the unputdownable second volume in the Lorimer series which chronicles the lives and fortunes of this vibrant family from the 1870s to the 1940s

Eastern Métis Michel Bouchard, Sébastien Malette, Siomonn Pulla, 2021-03 Pushed to the historical and social margins for too long Eastern Métis reviews the record of these sidelined communities and the effort to reclaim their past This book is the first ever scholarly endeavor to trace the emergence and consolidation of Métis identities from the Atlantic Coast to Ontario and beyond

Err Shane Rhodes, 2011 Sex booze war and wordplay collide loquaciously in *Err* the latest collection from innovative and accomplished poet Shane Rhodes Equally amusing and stunning with his joyful manipulation of language and his stark portrayals of disease and oppression Rhodes tackles everything from AIDS to martinis with style wit and clarity

The book is divided into four themed sections each of which focuses on a different sphere of life and creativity. *Spirits* amends the current scarcity of drinking poems with humorous effervescent musings whereas *Bodies* looks at the ravages of sex disease and death. *The Cloud Chamber* traces the breakdown of language and sound into poems that interrogate letters phonemes and jargon while *Dark Matter* investigates new ways of writing and thinking about poetry. A master of alliteration allusion rhyme and rhythm Rhodes shakes up a verbal cocktail of vibrant musicality that appeals to the imagination and remains in the memory. This distinctive collection makes for delightful unusual and engaging reading.

In the Bubble John Thackara, 2006-02-17 How to design a world in which we rely less on stuff and more on people. We're filling up the world with technology and devices but we've lost sight of an important question: What is this stuff for? What value does it add to our lives? So asks author John Thackara in his new book *In the Bubble: Designing for a Complex World*. These are tough questions for the pushers of technology to answer. Our economic system is centered on technology so it would be no small matter if tech ceased to be an end in itself in our daily lives. Technology is not going to go away but the time to discuss the end it will serve is before we deploy it, not after. We need to ask what purpose will be served by the broadband communications, smart materials, wearable computing and connected appliances that we're unleashing upon the world. We need to ask what impact all this stuff will have on our daily lives. Who will look after it and how? *In the Bubble* is about a world based less on stuff and more on people. Thackara describes a transformation that is taking place now, not in a remote science fiction future. It's not about, as he puts it, the schlock of the new, but about radical innovation already emerging in daily life. We are regaining respect for what people can do that technology can't. *In the Bubble* describes services designed to help people carry out daily activities in new ways. Many of these services involve technology ranging from body implants to wide-bodied jets. But objects and systems play a supporting role in a people-centered world. The design focus is on services, not things. And new principles, above all lightness, inform the way these services are designed and used. At the heart of *In the Bubble* is a belief informed by a wealth of real-world examples that ethics and responsibility can inform design decisions without impeding social and technical innovation.

Sounding the Cape Denis Martin, 2013 For several centuries Cape Town has accommodated a great variety of musical genres which have usually been associated with specific population groups living in and around the city. Musical styles and genres produced in Cape Town have therefore been assigned an identity which is first and foremost social. This volume tries to question the relationship established between musical styles and genres and social in this case pseudo-racial identities. In *Sounding the Cape* Denis Constant Martin recomposes and examines through the theoretical prism of creolisation the history of music in Cape Town, deploying analytical tools borrowed from the most recent studies of identity configurations. He demonstrates that musical creation in the Mother City and in South Africa has always been nurtured by contacts, exchanges and innovations, whatever the efforts made by racist powers to separate and divide people according to their origin. Musicians interviewed at the dawn of the 21st century confirm that mixture and blending characterise all Cape

Town's musics They also emphasise the importance of a rhythmic pattern particular to Cape Town the ghoema beat whose origins are obviously mixed The study of music demonstrates that the history of Cape Town and of South Africa as a whole undeniably fostered creole societies Yet twenty years after the collapse of apartheid these societies are still divided along lines that combine economic factors and racial categorisations Martin concludes that were music given a greater importance in educational and cultural policies it could contribute to fighting these divisions and promote the notion of a nation that in spite of the violence of racism and apartheid has managed to invent a unique common culture **Living on the Land**
