Louis-Sébastien Mercier in Germany; His Vogue and Influence in the Eighteenth Century, by W. W. Pusey William Webb Pusey, *Enlightened Metropolis* Alexander M. Martin, 2013-03-28 Imperial Russia is was said had two capital cities because it had two identities St Petersburg was Russia s window to Europe whereas Moscow preserved the nation s proud historical traditions Enlightened Metropolis challenges this myth by exploring how the tsarist regime actually tried to turn Moscow into a bridgehead of Europe in the heartland of Russia Moscow in the eighteenth century was widely scorned as backward and Asiatic The tsars thought it a benighted place that endangered their state s internal security and their effort to make Russia European Beginning with Catherine the Great they sought to construct a new Moscow with European buildings and institutions a Westernized middle estate and a new cultural image as an enlightened metropolis Drawing on the methodologies of urban social institutional cultural and intellectual history Enlightened Metropolis asks How was the urban environment buildings institutions streets smells transformed in the nine decades from Catherine s accession to the death of Nicholas I How were the lives of the inhabitants changed Did a middle estate come into being How similar was Moscow s modernization to that of Western cities and how was it affected by the disastrous occupation by Napoleon Lastly how were Moscow and its people imagined by writers artists and social commentators in Russia and the West from the Enlightenment to the mid nineteenth century **Utopianism for a Dying Planet** Gregory Claeys, 2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone won t save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today s thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C 2.7F will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which

combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet s destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it

Louis-Sébastien Mercier in Germany, His Vogue and Influence in the Eighteenth Century. William Webb Pusey III. Submitted... for the Degree of Doctor of Philosophy, in the Faculty of Philosophy, Columbia University William Webb Pusey III.,1939 Origins of Futuristic Fiction Paul K. Alkon,2010-08-01 For nearly two thousand years the future was a realm reserved for prophets poets astrologers and practitioners of deliberative rhetoric Then in 1659 the French writer Jacques Guttin published his romance Epigone which carried the subtitle the history of the future century Unlike the stories of space travel that were popular at the time or the tales of travel to distant earthly lands which had long been a familiar literary genre Guttin s romance described human societies displaced by time as well as by space and heroes not of his own day but of a future age Paul Alkon s Origins of Futuristic Fiction examines the earliest works of prose fiction set in future time the forgotten writings of the seventeenth eighteenth and nineteenth centuries that are the precursors of such well known masterpieces of the form as H G Wells s The Time Machine Aldous Huxley s Brave New World and George Orwell s 1984 The first secular story to break the imaginative barrier against tales of the future Epigone marked the emergence of a form unknown to classical medieval or renaissance literature Guttin s courageous displacement of narrative into future time was followed by writers such as Samuel Madden Louis Sebastien Mercier Cousin de Granville Mary Shelley and Emile Souvestre who wrote books with such titles as Memoirs of the Twentieth Century The Year 2440 The Last Man and The World As It Will Be Most extraordinary though may be Felix Bodin s great metafictional Le roman de l avenir the novel of the future Both a narrative of the future and a poetics of the new genre this book identified in the previous isolated works set in future time a situation rarely encountered in literary history in which the possibility for a new form clearly existed without yet being altogether achieved In the introduction to his uncompleted novel Bodin presented his vision of the futuristic novel as a literature of realism morality and fantasy His remarkably astute attempt to define the aesthetics of a major transformation in the relation between literature and time still stands as the basis for the poetics of futuristic fiction Tracing the early literary history of what became a major form of modern fiction Origins of Futuristic Fiction examines the key works of the earliest writers of the genre not for what they betray of past expectations but for what they reveal about the formal problems that needed to be resolved before tales of the future could achieve their full power in the works of later novelists
