(Peter) Kerr,1987-01-01 Uses maps to illustrate the development of Canada from the last ice sheet to the end of the eighteenth century **The Capture of Louisbourg, 1758** Hugh Boscawen,2013-08-15 Louisbourg France s impressive fortress on Cape Breton Island s foggy Atlantic coast dominated access to the St Lawrence and colonial New France for forty years in the mid eighteenth century In 1755 Great Britain and France stumbled into the French and Indian War part of what to Europe became the Seven Years War only for British forces to suffer successive defeats In 1758 Britain and France as well as Indian nations caught in the rivalry fought for high stakes the future of colonial America Hugh Boscawen describes how Britain s war minister William Pitt launched four fleets in a coordinated campaign to prevent France from reinforcing Louisbourg As the author shows the Royal Navy outfought its opponents before General Jeffery Amherst and Brigadier James Wolfe successfully led 14 000 British regulars including American born redcoats rangers and carpenters in a hard fought assault landing Together they besieged the fortress which surrendered after forty nine days The victory marked a turning point in British fortunes and precipitated the end of French rule in North America Boscawen an experienced soldier and sailor and a direct descendant of Admiral the Hon Edward Boscawen who commanded the Royal Navy fleet at Louisbourg examines the pivotal 1758 Louisbourg campaign from both the British and French perspectives Drawing on myriad primary sources including previously unpublished correspondence Boscawen also answers the question What did the soldiers and sailors who fought there do all day The result is the most comprehensive history of this strategically important campaign ever written *Architecture and Town Planning in Colonial North America* James D. Kornwolf,Georgiana Wallis Kornwolf,2002 Incorporating more than 3 000 illustrations

Kornwolf's work conveys the full range of the colonial encounter with the continent's geography from the high forms of architecture through formal landscape design and town planning. From these pages emerge the fine arts of environmental design, an understanding of the political and economic events that helped to determine settlement in North America, an appreciation of the various architectural and landscape forms that the settlers created, and an awareness of the diversity of the continent's geography and its peoples. Considering the humblest buildings along with the mansions of the wealthy and powerful public buildings, forts, and churches, Kornwolf captures the true dynamism and diversity of colonial communities, their rivalries and frictions, their outlooks and attitudes as they extended their hold on the land.

**Religion in Life at Louisbourg, 1713-1758** A. Johnston, 1984-08-01. A. B. Johnston establishes the secular and religious contexts of life in Louisbourg and then traces the mixed fortunes of the three religious groups that served the French stronghold of Louisbourg during the eighteenth century. These were the Recollets of Brittany who acted as parish priests and chaplains, the Brothers of Charity of Saint John of God who operated the King's Hospital, and the Sisters of the Congregation of Notre Dame who conducted the local school for girls. Drawing on the extensive material in the Archives of the Fortress of Louisbourg, he notes the groups' remarkable persistence in the face of personnel shortages, financial burdens, and conflicts with secular authorities and rival religious bodies. Not the least of their problems was the profound parsimony of the Louisbourgeois who declined to build a parish church or pay a compulsory tithe. Yet despite this independent stance, religion was at the centre of family and community life in Louisbourg, as the author demonstrates in a chapter devoted to the faith, morality, and popular beliefs of the town's inhabitants. The colourful military history of Louisbourg has been the subject of numerous books and articles, and the economy of *He Royale* has received close attention in recent years. This first comprehensive study of the religious aspects of life in this outpost of France's overseas empire contributes substantially to the social as well as the religious history of New France.

**Reconstructing Historic Landmarks** Wayde Brown, 2018-09-03. Historic reconstructions have been a consistent part of the historic preservation and heritage conservation movements in the United States and Canada. Indeed, reconstruction has been the primary tool at the most influential historic sites, for example, the Governor's Palace and the Capitol at Colonial Williamsburg, USA, and in Canada, the Fortress of Louisbourg. Dozens of other reconstructions have appeared during the past century in North America, undertaken by individuals, communities, states, and provinces, and by national agencies responsible for cultural heritage. Despite this prevalence, historic reconstructions have received little scholarly attention, and the question of what motivated the proponents of these projects remains largely unexamined. This book explores that question through detailed studies of ten historic reconstructions located throughout Canada and the United States, ranging from 1908 to 2011. Drawing upon diverse archival sources and site investigations, the proponents of each site are given voice to address their need to remake these landmarks, be it to sustain, to challenge, or even subvert a historical narrative, or with reference to contemporary heritage studies to reclaim these spaces. Reconstructing

Historic Landmarks provides a fascinating insight into these shifting concepts of history in North America and will be of considerable interest both to students and scholars of historic preservation and indeed to heritage professionals involved in reconstructions themselves

Fashioning Acadians Hilary Doda, 2023-10-24 What people wore in the distant past is often challenging to determine owing to the disintegration of natural textiles and materials over time Yet when new findings from archaeological excavations are compared with documentation about early Acadia a fascinating picture of the society's early fashions is revealed Fashioning Acadians is a history of clothesmaking and dress in Acadia from 1650 to 1750 Through the analysis of four Acadian settlements in what is now Nova Scotia Hilary Doda uncovers the regional fashions and trends that had begun to emerge prior to the violence of the deportations of 1755 Men's and women's wardrobes are described from head to toe from headdresses and hairstyles down to stockings and shoes along with accessories such as buttons buckles and jewellery While Acadians retained many aspects of the fashion systems of France New France and New England a distinctive Acadian identity can be seen to take shape as their dress evolved and was influenced by other regional styles Exploring the possibilities of a new methodology for identifying lost or decayed garments Doda argues that surviving notions sewing tools and accessories the small finds of archaeological sites are important sources of information not only about domestic life but about manufacturing processes dress and textile cultures and the influence of intersecting fashion systems in colonial spaces Fashioning Acadians expands our understanding of Acadian lives and their connections to both the Atlantic world of goods and the landscapes of Nova Scotia

At the Ocean's Edge Margaret Conrad, 2020-07-09 At the Ocean's Edge offers a vibrant account of Nova Scotia's colonial history situating it in an early and dramatic chapter in the expansion of Europe Between 1450 and 1850 various processes sometimes violent often judicial rarely conclusive transferred power first from Indigenous societies to the French and British empires and then to European settlers and their descendants who claimed the land as their own This book not only brings Nova Scotia's struggles into sharp focus but also unpacks the intellectual and social values that took root in the region By the time that Nova Scotia became a province of the Dominion of Canada in 1867 its multicultural peoples including Mi'kmaq Acadian African and British had come to a grudging unequal and often contested accommodation among themselves Written in accessible and spirited prose the narrative follows larger trends through the experiences of colourful individuals who grappled with expulsion genocide and war to establish the institutions relationships and values that still shape Nova Scotia's identity

Betsinger, Sharon N. DeWitte, 2020-11-05 Urbanization has long been a focus of bioarchaeological research but what is missing from the literature is an exploration of the geographic and temporal range of human biological demographic and sociocultural responses to this major shift in settlement pattern Urbanization is characterized by increased population size and density and is frequently assumed to produce negative biological effects However the relationship between urbanization and human health requires careful examination given the heterogeneity that exists within and between urban contexts Studies of contemporary urbanization have found both positive and negative outcomes which likely have parallels in past human societies This volume is unique as there is no current bioarchaeological book addressing urbanization despite various studies of urbanization having been conducted Collectively this volume provides a more holistic understanding of the relationships between urbanization and various aspects of human population health The insight gained from this volume will provide not only a better understanding of urbanization in our past but it will also have potential implications for those studying urbanization in contemporary communities     **The Tourist-Historic City** G.J.
