Sutton, 2018-05-07 When we think of constitutional law we invariably think of the United States Supreme Court and the federal court system Yet much of our constitutional law is not made at the federal level In 51 Imperfect Solutions U S Court of Appeals Judge Jeffrey S Sutton argues that American Constitutional Law should account for the role of the state courts and state constitutions together with the federal courts and the federal constitution in protecting individual liberties The book tells four stories that arise in four different areas of constitutional law equal protection criminal procedure privacy and free speech and free exercise of religion Traditional accounts of these bedrock debates about the relationship of the individual to the state focus on decisions of the United States Supreme Court But these explanations tell just part of the story The book corrects this omission by looking at each issue and some others as well through the lens of many constitutions not one constitution of many courts not one court and of all American judges not federal or state judges Taken together the stories reveal a remarkably complex nuanced ever changing federalist system one that ought to make lawyers and litigants pause before reflexively assuming that the United States Supreme Court alone has all of the answers to the most vexing constitutional questions If there is a central conviction of the book it s that an underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty In trying to correct this imbalance the book also offers several ideas for reform **2021 Louisiana Legal Ethics** Dane S Ciolino, 2021-01-27 Thousands of

The Judge as Political Theorist David Robertson, 2010-07-01 The Judge as Political Theorist examines opinions by constitutional courts in liberal democracies to better understand the logic and nature of constitutional review David Robertson argues that the constitutional judge's role is nothing like that of the legislator or chief executive or even the ordinary judge Rather constitutional judges spell out to society the implications on the ground of the moral and practical commitments embodied in the nation's constitution Constitutional review in other words is a form of applied political theory Robertson takes an in depth look at constitutional decision making in Germany France the Czech Republic Poland Hungary Canada and South Africa with comparisons throughout to the United States where constitutional review originated He also tackles perhaps the most vexing problem in

constitutional law today how and when to limit the rights of citizens in order to govern As traditional institutions of moral authority have lost power constitutional judges have stepped into the breach radically altering traditional understandings of what courts can and should do Robertson demonstrates how constitutions are more than mere founding documents laying down the law of the land but increasingly have become statements of the values and principles a society seeks to embody Constitutional judges in turn see it as their mission to transform those values into political practice and push for state and society to live up to their ideals State Antitrust Practice and Statutes (fourth): Alabama through Iowa ,2009
