*The Louvre* James Gardner, 2020-05-05 The centuries long history of the Louvre from humble fortress to Royal palace to the world's greatest art museum with photos and building maps Some ten million people from all over the world flock to the Louvre each year to enjoy its incomparable art collection Yet few of them are aware of the remarkable history of the site and buildings themselves a fascinating story that historian James Gardner elegantly chronicles in this authoritative history More than seven thousand years ago men and women camped on a spot called le Louvre for reasons unknown Centuries later King Philippe Auguste of France constructed a fortress there just outside the walls of a nascent Paris Intended to protect the capital against English soldiers stationed in Normandy the fortress became a royal residence under Charles V two centuries later and then the monarchy's principal residence under the great Renaissance king Francois I In 1682 when Louis XIV moved his court to Versailles the Louvre languished until the French Revolution when during the Reign of Terror in 1793 it first opened its doors to display the nation's treasures Ever since through the Napoleonic era the Commune two World Wars to the present the Louvre has been a witness to French history and expanded to become home to a legendary art collection that includes the Mona Lisa and Venus de Milo Includes sixteen pages of full color photos illustrating the history of the Louvre a full color map detailing its evolution from fortress to museum and black and white images throughout the narrative

*Great Museums of Europe* Antonio Paolucci, 2002 These eight emblematic museums all show their roots in the 18th century European idea of an institution representing the complete development of human culture in a microcosm Each of the eight chapters here recounts the history of an individual museum by traveling through its entire history on a path to the collections masterpieces presented as an easy to follow path of spectacular photographs and captions Diverse as their present day collections may be the purest form of the museum can be seen at the core of each institution starting with the Vatican Museums on to the Russian Imperial Collections in the citadel of the Hermitage in Saint Petersburg in the Hapsburg Collections assembled in the Kunsthistorisches Museum of Vienna The Bourbon Collections now in Museo del Prado in Madrid The Napoleonic dream of the Universal Museum leads to the present day structure of the Louvre in Paris as well as its counterpart the British Museum in London founded to accommodate the marble sculptures from the Parthenon that Lord Elgin brought back from Athens And finally the ambition to create a citadel of culture a new Acropolis of universal knowledge is fully present in the Prussian museum system built on the Museumsinsel in Berlin and on a smaller scale in the Rijksmuseum of Amsterdam *Great Museums of Europe* recaptures a grand impulse of Western civilization that our great achievements in art are a story that can and must be preserved in a comprehensive way so that it is told forever **Louvre** Bruno de Cessole, 1998 From Mona Lisa's smile to Napoleon's plundered treasures and I M Pei's controversial glass pyramid this book presents the world's greatest museum not as the sum of its masterpieces but as a living changing institution that throws a high beam on the artistic political and social history of the Western World 650 full color photos **Treasure**

**Building the Louvre** Guillaume Fonkenell, 2017-06 This is the history of a palace of a museum and of France the Louvre in the heart of Paris has always been at the heart of French politics Perhaps no other building has a history so intimately woven into that of a city and a nation In the thirteenth century the Louvre castle with its powerful keep was already the symbol of a powerful monarchy As it slowly lost its defensive role the austere fortress was transformed into a lavish residence Meanwhile the construction of the nearby Tuileries Palace during the Renaissance gave rise to a plan to connect the two palaces known as the Grand Design This new vision of grandeur would continue to haunt successive reigns from Louis XIV to Napoleon I It was not until Napoleon III that the Grand Design was finally brought to fruition which only lasted a few years until the Tuileries Palace was burned down during the uprising known as the Paris Commune Today the palace of the Louvre inevitably associated with its glass Pyramid is still continuing to evolve in order to fulfil and expand its role of museum Although the Louvre is now one of the world's most highly visited museums people too often overlook the history of the palace in which it is housed And yet great architects have worked on the building for over eight hundred years in an ongoing quest for perfection unmatched anywhere in Europe over such a duration Author Guillaume Fonkenell has selected ten key periods from this vast creative saga describing each one through spectacular 3D renderings of reconstructed views Designed to be useful and accessible to all the book provides an overview of the history of the Louvre down through the centuries
