Love And Politics In Outer Space:

Love and Politics in Outer Space Harvey Stein, 1986 **Politics and the Order of Love** Eric Gregory, 2008-08-15

Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love s relation to justice is prominent **Politics and the Order of Love** will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

The Radicality of Love Srećko Horvat, 2016-01-11 What would happen if we could stroll through the revolutionary history of the 20th century and without any fear of the possible responses ask the main protagonists from Lenin to Che Guevara from Alexandra Kollontai to Ulrike Meinhof seemingly na ve questions about love Although all important political and social changes of the 20th century included heated debates on the role of love it seems that in the 21st century of new technologies of the self Grindr Tinder online dating etc we are faced with a hyperinflation of sex not love By going back to the sexual revolution of the October Revolution and its subsequent repression to Che s dilemma between love and revolutionary commitment and to the period of 68 from communes to terrorism and its commodification in late capitalism the Croatian philosopher Srećko Horvat gives a possible answer to the question of why it is that the most radical revolutionaries like Lenin or Che were scared of the radicality of love What is so radical about a seemingly conservative notion of love and why is it anything but conservative This short book is a modest contribution to the current upheavals around the world from Tahrir to Taksim from Occupy Wall Street to Hong Kong from Athens to Sarajevo in which the question of love is curiously surprisingly absent

Astropolitik Everett C. Dolman, 2005-07-15 This volume identifies and evaluates the relationship between outer space geography and geographic position astrogeography and the evolution of current and future military space strategy In doing so it explores five primary propositions [Can Philosophy Love?](#) Cindy Zeiher, Todd McGowan, 2017-12-20 This volume considers formalisations of love in the 21st century Engaging heavily with the Slovenian School of Philosophy the book contends that the one line of thought that exposes the role that love plays in all knowledge is psychoanalysis emphasising the importance of love in these unsettled times **The Space between Us** Ryan D. Enos, 2017-10-02 *The Space between Us* brings the connection between geography psychology and politics to life By going

into the neighborhoods of real cities Enos shows how our perceptions of racial ethnic and religious groups are intuitively shaped by where these groups live and interact daily Through the lens of numerous examples across the globe and drawing on a compelling combination of research techniques including field and laboratory experiments big data analysis and small scale interactions this timely book provides a new understanding of how geography shapes politics and how members of groups think about each other Enos analysis is punctuated with personal accounts from the field His rigorous research unfolds in accessible writing that will appeal to specialists and non specialists alike illuminating the profound effects of social geography on how we relate to think about and politically interact across groups in the fabric of our daily lives **To Seek**

Politics and the Concept of the Political James Wiley,2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer displace or moralize politics James Wiley s book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber Carl Schmitt Paul Ricoeur Hannah Arendt Sheldon Wolin Claude Lefort and Ernesto Laclau and Chantal Mouffe These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors They represent state centered republic centered and society centered conceptions of politics as well as realist authoritarian idealist republican populist and radical democratic traditions of political thought This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory Politics and the Concept of the Political will be a useful resource to general audiences as well as to specialists in political theory **Adriana**

Cavarero Elisabetta R. Bertolino,2017-12-04 Critical legal scholars have made us aware that law is made up not only of rules but also of language But who speaks the language of law And can one lawfully speak in one s voice For the Italian philosopher Adriana Cavarero to answer these questions we must not separate who is speaking from the very act of speaking moreover we must recuperate the material singularity and relationality of the mouth that speaks Drawing on Cavarero s work this book focuses on the potentiality of the voice for resisting law s sovereign structures For Cavarero it is the voice that expresses one s living and unrepeatable singularity in a way that cannot be subsumed by the universalities and standards of law The voice is essentially a material and singular passage of air and vibration that necessarily reveals one s uniqueness in

relationality Speaking discloses this uniqueness and so one's vulnerability It therefore leads to possibilities of resistance that here bring a fresh approach to longstanding legal theoretical concerns with singularity ethics and justice

Media and Environment Libby Lester, 2010-12-13 Drawing on a range of international examples Libby Lester invites readers to develop a nuanced understanding of changing media practices and dynamics by connecting local national and global environmental issues journalistic practices and news sources public relations and protests and the symbolic and strategic circulation of meanings in the public sphere

Global Modernities Mike Featherstone, Scott Lash, Roland Robertson, 1995-06-05 *Global Modernities* is a sustained commentary on the international character of the most microcosmic practices It demonstrates how the global increasingly informs the regional so deconstructing ideas like the nation state and national sovereignty The spatialization of social theory hybridization and bio politics are among the critical issues discussed

Love and Space in Contemporary African Diasporic Women's Writing Jennifer Leetsch, 2021-07-16 This book sets out to investigate how contemporary African diasporic women writers respond to the imbalances pressures and crises of twenty first century globalization by querying the boundaries between two separate conceptual domains love and space The study breaks new ground by systematically bringing together critical love studies with research into the cultures of migration diaspora and refuge Examining a notable tendency among current black feminist writers poets and performers to insist on the affective dimension of world making the book ponders strategies of reconfiguring postcolonial discourses Indeed the analyses of literary works and intermedia performances by Chimamanda Adichie Zadie Smith Helen Oyeyemi Shailja Patel and Warsan Shire reveal an urge of moving beyond a familiar insistence on processes of alienation or rupture and towards a new reparative emphasis on connection and intimacy to imagine possible inhabitable worlds

Affluence and Freedom Pierre Charbonnier, 2021-06-22 In this pathbreaking book Pierre Charbonnier opens up a new intellectual terrain an environmental history of political ideas His aim is not to locate the seeds of ecological thought in the history of political ideas as others have done but rather to show that all political ideas whether or not they endorse ecological ideals are informed by a certain conception of our relationship to the Earth and to our environment The fundamental political categories of modernity were founded on the idea that we could improve on nature that we could exert a decisive victory over its excesses and claim unlimited access to earthly resources In this way modern thinkers imagined a political society of free individuals equal and prosperous alongside the development of industry geared towards progress and liberated from the Earth's shackles Yet this pact between democracy and growth has now been called into question by climate change and the environmental crisis It is therefore our duty today to rethink political emancipation bearing in mind that this can no longer draw on the prospect of infinite growth promised by industrial capitalism Ecology must draw on the power harnessed by nineteenth century socialism to respond to the massive impact of industrialization but it must also rethink the imperative to offer protection to society by taking account of the solidarity of social groups and their conditions in a world transformed by climate change This timely

and original work of social and political theory will be of interest to a wide readership in politics sociology environmental studies and the social sciences and humanities generally *Politics of Security* Michael Dillon,2002-01-31 In this critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger *Politics of Security* establishes the relationship between Heidegger's radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis *Politics of Security* will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger

The Space of Religion Yoshiko Ashiwa,David L. Wank,2023-08-29 The Nanputuo Temple in the southeastern Chinese city of Xiamen has been a cherished site for the worship of the bodhisattva Guanyin for centuries It was a center of modernizing Buddhism in the early twentieth century and a flagship for the revival of Buddhism after state suppression during the Cultural Revolution *The Space of Religion* takes readers inside the Nanputuo Temple in order to explore the practice of Buddhism in modern China and the complex relationship between Buddhism and the Chinese state Based on three decades of ethnographic research Yoshiko Ashiwa and David L Wank tell the story of Nanputuo against the backdrop of a dramatic stretch of Chinese history They vividly depict episodes such as renovating the halls reestablishing ties with overseas Chinese donors conflicts with local government revival of ritual life reopening of its Buddhist academy and the passion of the Guanyin birthday festival To understand Nanputuo Buddhist communities and other temples in Xiamen Ashiwa and Wank develop the concept of religion as a space constituted by physical semiotic and institutional dimensions They also show how the Chinese state and Buddhism have each adapted to the other as the temple has adjusted to government policy while the state has deployed Buddhism in its promotion of Chinese culture This interdisciplinary book is both a theoretically generative analysis of religious spaces and an empirically rich account of the recovery of Buddhism in China after the Mao era *The Political Novel* Morris Edmund Speare,1923 *The Goldilocks God* Guy Collins,2022-08-22 *The Goldilocks God* explores the fertile middle ground between toxic Christianity and militant atheism Illuminating ancient Christian practice with cutting edge philosophy and theology Guy Collins reveals the lifelong habits that are just right for encountering the mystery of God

Tepoztlán and the Transformation of the Mexican State JoAnn Martin, 2022-09-13 During the 1980s and 90s Mexico weathered an economic crisis witnessed electoral upheaval and saw the dismantling of state subsidies to farmers and the privatization of nationally owned industries This book considers how popular movements found fresh footing in this new political economic landscape as villagers in Tepoztlán fought to keep communal lands out of the hands of outsiders the state and increasingly global capitalists Examining social movement politics from the margins rather than the center JoAnn Martin revisits the famous Redfield Lewis debate on Tepoztlán to argue that the gossip seen by Oscar Lewis as undermining community coherence is really a form of political practice During more than fifteen years of research she observed the metamorphosis of a movement founded as a revolutionary popular struggle into what she terms a politics of loose connections in which temporary alliances flexible identities and shifting rhetoric are adapted to the demands of the moment Martin examines contemporary land struggles with an emphasis on the Comit para la Defensa de Tierra and its attempts to weave together strands of an invented tradition contemporary agrarian reform law and revolutionary ideology She shows how Tepoztecan politics borrows discourses from the Mexican state she then tells how this process shaped local politics in the midst of the contested 1988 national presidential election when local actors elaborated a discourse of democracy as a technique for disciplining gossip and in 1991 when Tepozteicans began to draw on the support of international environmental NGOs Throughout her analysis Martin explores how Tepoztecan politics unfolds in the climate of mistrust first nurtured by the role of the state in local politics and later by the demands of working with U S and Western European environmentalists Martin shows that the politics of loose connections is above all else a style of political participation that has proved adaptive in the contemporary political landscape and that understandings of politics have been dogged by a conception of connections that may well be obsolete in the contemporary world Her study is a balanced re evaluation of Tepoztlán that reveals how politics succeeds through loose connections a strategy that may be instructive for others seeking to survive in either local or global coalitions
