Design, 1930&1965 Living In a Modern Way Wendy Kaplan, 2011 The first comprehensive examination of California's mid century modern design generously illustrated In 1951 designer Greta Magnusson Grossman observed that California design was not a superimposed style but an answer to present conditions It has developed out of our own preferences for living in a modern way California design influenced the material culture of the entire country in everything from architecture to fashion

This generously illustrated book which accompanies a major exhibition at the Los Angeles County Museum of Art is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European migrants as Richard Neutra, Rudolph Schindler and Kem Weber; it finds other specific design influences and innovations in solid color, commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure and the conversion of wartime technologies to peacetime use exemplified by Charles and Ray Eames's plywood and fiberglass furniture. The heart of California Design is the modern California home famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel Green and Architectural Pottery, as well as other previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors; lighting that was both task and ambient; bookshelves that served as room dividers; and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles and fashion, and ten incisive essays that trace the rise of the California design aesthetic of wartime technologies to peacetime use exemplified by Charles and Ray Eames's plywood and fiberglass furniture. from start to finish Gripping suspenseful cinematic This is narrative nonfiction at its best Lindsey Fitzharris bestselling author of *The Butchering Art* Astonishingly well written painstakingly researched and set in the evocative locations of earthquake ravaged San Francisco and the Monterey Peninsula the true story of two women a wife and a poet who learn the high price of sexual and artistic freedom in a vivid depiction of the debauchery of the late Gilded Age Nora May French and Carrie Sterling arrive at Carmel by the Sea at the turn of the twentieth century with dramatically different ambitions Nora a stunning brilliant impulsive writer in her early twenties seeks artistic recognition and Bohemian refuge among the most celebrated counterculturalists of the era Carrie long suffering wife of real estate developer George Sterling wants the opposite a semblance of the stability she thought her advantageous marriage would offer threatened now that her philandering husband has taken to writing poetry After her second abortion Nora finds herself in a desperate situation but is rescued by an invitation to stay with the Sterlings To Carrie s dismay George and the arrestingly beautiful poetess fall instantly into an affair The ensuing love triangle which ultimately ends with the deaths of all three is more than just a wild love story and a fascinating forgotten chapter It questions why Nora May in her day a revered poet whose nationally reported suicide gruesomely inspired youths across the country to take their own lives with her verses in their pockets no less has been rendered obscure by literary history It depicts America at a turning point as the Gilded Age groans in its death throes and young people particularly women look toward a brighter more egalitarian future In an unfortunately familiar development this vision proves to be a mirage But women s rage at the scam redefines American progressivism forever For readers of Nathalia Holt Denise Kiernan and Sonia Purnell this shocking history with a feminist bite is not to be missed

Service and Style Jan Whitaker, 2007-04-01 Downtown department stores were once the heart and soul of America's pulsing Broadways and Main Streets With names such as City of Paris Penn Traffic The Maze Maison Blanche or The Popular they suggested spheres far beyond mundane shopping Nicknames reflected the affection customers felt for their favorites whether Woodie's Wanny's Stek's O T's Herp's or Bam's The history of downtown department stores is as fascinating as their names and as diverse as their merchandise Their stories encompass many themes the rise of decorative design new career paths for women the growth of consumerism and the technological ingenuity of escalators and pneumatic tubes Just as the big stores made up their own small universes their stories are microcosmic narratives of American culture and society The big stores were much more than mere businesses They were local institutions where shoppers could listen to concerts see fashion shows and art exhibits learn golf or bridge pay electric bills and plan vacations all while their children played in the store's nursery under the eye of a uniformed nursemaid From Boston to San Diego and Miami to Seattle department stores symbolized a city's spirit wealth and progressiveness Situated at busy intersections they occupied the largest and finest downtown buildings and their massive corner clocks became popular meeting places Their locations became the epicenters of commerce the high point from which downtown property taxes were calculated Spanning the late 19th century well into the 20th their peak development mirrors the growth of cities and of industrial America when both were robust and flourishing The time may be gone when children accompany their mothers downtown for a day of shopping and lunch in the tea room when monogrammed trucks deliver purchases for free the very same day and when the personality of a city or town can be read in its big stores But they are far from forgotten and they still have power to influence how we shop today Service and Style recreates the days of downtown department stores in their prime from the 1890s through the 1960s Exploring in detail the wide range of merchandise they sold particularly style goods such as clothing and home furnishings it examines how they displayed promoted and sometimes produced goods It reveals how the stores grew why they declined and how they responded to and shaped the society around them
