## **Love Human And Divine The Heart Of Christian Ethics:**

**Love, Human and Divine** Edward Collins Vacek, 1994-04-01 Although the two great commandments to love God and to love our neighbors as ourselves are central to Christianity few theologians or spiritual writers have undertaken an extensive account of the meaning and forms of these loves Most accounts in fact make love of God and love of self either impossible or immoral Integrating these two commandments Edward Vacek SJ develops an original account of love as the theological foundation for Christian ethics Vacek criticizes common understandings of agape eros and philia examining the arguments of Aquinas Nygren Outka Rahner Scheler and other theologians and philosophers He defines love as an emotional affirmative participation in the beloved's real and ideal goodness and he extends this definition to the love between God and self Vacek proposes that the heart of Christian moral life is loving cooperation with God in a mutually perfecting friendship The Analogy of Love Gary Chartier, 2015-11-09 This book offers an overview of Christian theology organized around the twin themes of divine and human love The book covers the traditional theological topics as well as basic questions of theological method It seeks to integrate a focus on love throughout While love is regularly canvassed as a dominant theme in Christian thought it has rarely been the focus of Christian theological construction or a constraint on theological formulation The book seeks to suggest chapter by chapter how a given topic relates to the broad theme of love The book is written in a way designed to make it accessible to university students and educated laypersons At the same time it takes positions on controverted scholarly issues and the methodological approach outlined at the beginning will be of interest to academic theologians **Happiness and the Christian Moral Life** Paul J. Wadell, 2012 Happiness and the Christian Moral Life introduces students to Christian Ethics looking at ethics as a path to the good life and happiness rather than a strict set of rules Revisions and updates include lists of suggested readings and resources new discussions of how technology shapes relationships a more fully developed account of Augustine and happiness and more The Christian Case for Virtue Ethics Joseph J. Kotva, 1997 Despite the growing interest among philosophers and theologians in virtue ethics its proponents have done little to suggest why Christians in particular find virtue ethics attractive Joseph J Kotva Jr addresses this question in The Christian Case for Virtue Ethics showing that virtue theory offers an ethical framework that is highly compatible with Christian morality Kotva defines virtue ethics and demonstrates its ability to voice Christian convictions about how to live the moral life He evaluates virtue theory in light of systematic theology and Scripture arguing that Christian ethics could be profitably linked with neo Aristotelian virtue ethics Ecumenical in tone this book provides a thorough but accessible introduction to recent philosophical accounts of virtue and offers an original explicitly Christian adaptation of these ideas It will be of value to students and scholars of philosophy theology and religion as well as to those interested in the debates surrounding virtue ethics Love and Christian Ethics Frederick V. Simmons, Brian Sorrells, 2016 At the heart of Christian ethics is the biblical commandment to love God and to love one's neighbor as oneself But what is the meaning of love

Scholars have wrestled with this question since the recording of the Christian gospels and in recent decades teachers and students of Christian ethics have engaged in vigorous debates about appropriate interpretations and implications of this critical norm. In *Love and Christian Ethics*, nearly two dozen leading experts analyze and assess the meaning of love from a wide range of perspectives. Chapters are organized into three areas: influential sources and exponents of Western Christian thought about the ethical significance of love; perennial theoretical questions attending that consideration and the implications of Christian love for important social realities; Contributors bring a richness of thought and experience to deliver unprecedentedly broad and rigorous analysis of this central tenet of Christian ethics and faith. William Werpehowski provides an afterword on future trajectories for this research. *Love and Christian Ethics* is sure to become a benchmark resource in the field.

Book Reviews Love Disconsoled Timothy P.

Jackson, 1999-11-25

Few concepts are more central to ethics than love, but none is more subject to false consolation. This 1999 book explores several theological, philosophical, and literary accounts of love, focusing on how it relates to matters such as self-interest and self-sacrifice and invulnerability and immortality. Timothy Jackson first considers key aspects of what the Bible says about love, then he further examines the meaning of love and sacrifice through a close reading of novels by Fitzgerald and Hemingway. Lastly, he evaluates how love constrains and is constrained by other traditional moral concepts. Throughout, Jackson defends the moral priority of what the Christian tradition calls *agape*. He argues that a proper understanding of *agapic* love rejects both moral relativism and the comfort of believing that good people cannot be harmed or that God causally necessitates every historical action and event. When love is thus disconsolated, it neither fears death nor despises life.
