**Chef Tom Colicchio**,2012-07-18 With *Think Like a Chef* Tom Colicchio has created a new kind of cookbook Rather than list a series of restaurant recipes he uses simple steps to deconstruct a chef's creative process making it easily available to any home cook He starts with techniques What's roasting for example and how do you do it in the oven or on top of the stove He also gets you comfortable with braising sautéing and making stocks and sauces Next he introduces simple ingredients roasted tomatoes say or braised artichokes and tells you how to use them in a variety of ways So those easy roasted tomatoes may be turned into anything from a vinaigrette to a caramelized tomato tart with many delicious options in between In a section called Trilogies Tom takes three ingredients and puts them together to make one dish that's quick and other dishes that are increasingly more involved As Tom says Juxtaposed in interesting ways these ingredients prove that the whole can be greater than the sum of their parts and you'll agree once you've tasted the Ragout of Asparagus Morels and Ramps or the Baked Free Form Ravioli both dishes made with the same trilogy of ingredients The final section of the book offers simple recipes for components from zucchini with lemon thyme to roasted endive with whole spices to boulangerie potatoes that can be used in endless combinations Written in Tom's warm and friendly voice and illustrated with glorious photographs of finished dishes *Think Like a Chef* will bring out the master chef in all of us

**Living Downtown** Paul E. Groth,Paul Erling Groth,Paul Groth,1994-01-01 From the palace hotels of the elite to cheap lodging houses residential hotels have been an element of American urban life for nearly two hundred years Since 1870 however they have been the target of an official war led by people whose concept of home does not include the hotel Do these residences constitute an essential housing resource or are they as charged a public nuisance *Living Downtown* the first comprehensive social and cultural history of life in American residential hotels adds a much needed historical perspective to this ongoing debate Creatively combining evidence from biographies buildings and urban neighborhoods workplace records and housing policies Paul Groth provides a definitive analysis of life in four price differentiated types of downtown residence He demonstrates that these hotels have played a valuable socioeconomic role as home to both long term residents and temporary laborers Also the convenience of hotels has made them the residence of choice for a surprising number of Americans from hobo author Boxcar Bertha to Calvin Coolidge Groth examines the social and cultural objections to hotel households and the increasing efforts to eliminate them which have led to the seemingly irrational destruction of millions of such housing units since 1960 He argues convincingly that these efforts have been a leading contributor to urban homelessness This highly original and timely work aims to expand the concept of the American home and to recast accepted notions about the relationships among urban life architecture and the public management of residential environments

**Attracted to Conflict: Dynamic Foundations**

**of Destructive Social Relations** Robin R. Vallacher, Peter T. Coleman, Andrzej Nowak, Lan Bui-Wrzosinska, Larry Liebovitch, Katharina Kugler, Andrea Bartoli, 2014-07-08 Conflict is inherent in virtually every aspect of human relations from sport to parliamentary democracy from fashion in the arts to paradigmatic challenges in the sciences and from economic activity to intimate relationships Yet it can become among the most serious social problems humans face when it loses its constructive features and becomes protracted over time with no obvious means of resolution This book addresses the subject of intractable social conflict from a new vantage point Here these types of conflict represent self organizing phenomena emerging quite naturally from the ongoing dynamics in human interaction at any scale from the interpersonal to the international Using the universal language and computational framework of nonlinear dynamical systems theory in combination with recent insights from social psychology intractable conflict is understood as a system locked in special attractor states that constrain the thoughts and actions of the parties to the conflict The emergence and maintenance of attractors for conflict can be described by means of formal models that incorporate the results of computer simulations experiments field research and archival analyses Multi disciplinary research reflecting these approaches provides encouraging support for the dynamical systems perspective Importantly this text presents new views on conflict resolution In contrast to traditional approaches that tend to focus on basic short lived cause effect relations the dynamical perspective emphasizes the temporal patterns and potential for emergence in destructive relations Attractor deconstruction entails restoring complexity to a conflict scenario by isolating elements or changing the feedback loops among them The creation of a latent attractor trades on the tendency toward multi stability in dynamical systems and entails the consolidation of incongruent positive elements into a coherent structure In the bifurcation scenario factors are identified that can change the number and types of attractors in a conflict scenario The implementation of these strategies may hold the key to unlocking intractable conflict creating the potential for constructive social relations      *The Advocate* ,1995-05
