Love Is A Story A New Theory Of Relationships:

Love Is a Story Robert J. Sternberg, 1999-06-03 In this groundbreaking work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely *Love is a Story* Robert J. Sternberg, 1998 What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner From publisher's description *Love Sense* Dr. Sue Johnson, 2013-12-31 The bestselling author of *Hold Me Tight* presents a revolutionary new understanding of why and how we love based on cutting edge research Every day we hear of relationships failing and questions of whether humans are meant to be monogamous *Love Sense* presents new scientific evidence that tells us that humans are meant to mate for life Dr Johnson explains that romantic love is an attachment bond just like that between mother and child and shows us how to develop our love sense our ability to develop long lasting relationships Love is not the least bit illogical or random but

actually an ordered and wise recipe for survival Love Sense covers the three stages of a relationship and how to best weather them the intelligence of emotions and the logic of love the physical and psychological benefits of secure love and much more Based on groundbreaking research Love Sense will change the way we think about love *A Theory of Love* Margaret Bradham Thornton,2018-05-08 A follow up to her successful debut Charleston and set in the world s most glamorous landscapes this moving new love story from Margaret Bradham Thornton draws on a metaphor of entanglement theory to ask when two people collide are they forever attached no matter where they are Helen Gibbs a British journalist on assignment on the west coast of Mexico meets Christopher Delavaux an intriguing half French half American lawyer turned financier who has come alone to surf Living lives that never stop moving from their first encounter in Bermeja to marriage in London and travels to such places as Saint Tropez Tangier and Santa Clara Helen and Christopher must decide how much they exist for themselves and how much they exist for each other In an effort to build his firm Christopher leads a life full of speed and ambition with little time for Helen and even less when he suspects his business partner of illegal activity Helen a reluctant voyeur to Christopher s world of power and position searches far and wide for reporting work that will take a bite out of her soul refugees in Calais a mountain climber in Chamonix an orphaned circus performer in Cuba A Theory of Love captures the ambivalence at the center of human experience does one reside in the familiar comforts of solitude or dare to open one s heart and risk having it broken Set in some of the most picturesque places in the world this novel questions what it means to love someone and leaves us wondering can nothing save us but a fall **Triangle Of Love** Robert J. Sternberg,1988-11-08 A psychologist s view of the 3 essential core ingredients of love intimacy passion and commitment *A General Theory of Love* Thomas Lewis,Fari Amini,Richard Lannon,2001-01-09 This original and lucid account of the complexities of love and its essential role in human well being draws on the latest scientific research Three eminent psychiatrists tackle the difficult task of reconciling what artists and thinkers have known for thousands of years about the human heart with what has only recently been learned about the primitive functions of the human brain A General Theory of Love demonstrates that our nervous systems are not self contained from earliest childhood our brains actually link with those of the people close to us in a silent rhythm that alters the very structure of our brains establishes life long emotional patterns and makes us in large part who we are Explaining how relationships function how parents shape their child s developing self how psychotherapy really works and how our society dangerously flouts essential emotional laws this is a work of rare passion and eloquence that will forever change the way you think about human intimacy *Attached* Amir Levine,Rachel Heller,2010-12-30 Over a decade after its publication one book on dating has people firmly in its grip The New York Times We already rely on science to tell us what to eat when to exercise and how long to sleep Why not use science to help us improve our relationships In this revolutionary book psychiatrist and neuroscientist Dr Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly while others struggle Discover how an understanding of adult attachment the most

advanced relationship science in existence today can help us find and sustain love Pioneered by psychologist John Bowlby in the 1950s the field of attachment posits that each of us behaves in relationships in one of three distinct ways Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness Secure people feel comfortable with intimacy and are usually warm and loving Attached guides readers in determining what attachment style they and their mate or potential mate follow offering a road map for building stronger more fulfilling connections with the people they love

The Love Secret Sue Johnson, 2014 We are in danger of being swept away on a tide of pessimism about love and relationships Endless cynical stories of affairs by politicians athletes and celebrities fill the media The dominant message is that creating a rewarding and enduring romantic relationship is impossible In *The Love Secret* Dr Sue Johnson draws on the very latest scientific studies on attachment theory including her own research to show that this just isn't the case The Big News is that we are naturally monogamous bonding animals A lasting loving relationship is completely within our reach In *The Love Secret* you will discover how the brain works when you are in a stable caring relationship and how you can use this groundbreaking knowledge to achieve such positive results in your own life **A Working Theory of Love** Scott

Hutchins, 2013-08-27 An extraordinary debut novel that hits that sweet spot where humor and melancholy comfortably coexist Entertainment Weekly Before his brief marriage imploded Neill Bassett took a job feeding data into what could be the world's first sentient computer Only his attempt to give it language through the journals his father left behind after committing suicide has unexpected consequences Amidst this turmoil Neill meets Rachel a naive young woman escaping a troubled past and finds himself unexpectedly drawn to her and the possibilities she holds But as everything he thought about the past becomes uncertain every move forward feels impossible **He's Just Not That Into You** Greg Behrendt, Liz

Tuccillo, 2009-01-06 Based on an episode of *Sex and the City* offers a lighthearted no nonsense look at dead end relationships providing advice for letting go and moving on *Love, in Theory* E. J. Levy, 2012-09-15 In this funny brainy thoroughly

engaging debut collection an award winning writer looks at romance through the lens of scholarly theories to illuminate love in the information age In ten captivating and tender stories E J Levy takes readers through the surprisingly erotic terrain of the intellect offering a smart and modern take on the age old theme of love whether between a man and woman a man and a man a woman and a woman or a mother and a child drawing readers into tales of passion adultery and heartbreak A disheartened English professor's life changes when she goes rock climbing and falls for an outdoorsman A gay oncologist attending his sister's second wedding ponders dark matter in the universe and the ties that bind us Three psychiatric patients each convinced that he is Christ give rise to a love affair in a small Minnesota town A Brooklyn woman is thrown out of an ashram for choosing earthly love over enlightenment A lesbian student of film learns theories of dramatic action the hard way by falling for a married male professor Incorporating theories from physics to film to philosophy from Rational

Choice to Thorstein Veblen's Theory of the Leisure Class these stories movingly explore the heart and mind shooting cupid's arrow toward a target that may never be reached

We Robert A. Johnson, 2013-03-05 Provides an illuminating explanation of the origins and meaning of romantic love and shows how a proper understanding of its psychological dynamics can revitalize our most important relationships

How to Fall in Love with Anyone Mandy Len Catron, 2017-06-27 A beautifully written and well researched cultural criticism as well as an honest memoir Los Angeles Review of Books from the author of the popular New York Times essay To Fall in Love with Anyone Do This explores the romantic myths we create and explains how they limit our ability to achieve and sustain intimacy What really makes love last Does love ever work the way we say it does in movies and books and Facebook posts Or does obsessing over those love stories hurt our real life relationships When her parents divorced after a twenty eight year marriage and her own ten year relationship ended those were the questions that Mandy Len Catron wanted to answer In a series of candid vulnerable and wise essays that takes a closer look at what it means to love someone be loved and how we present our love to the world Catron melds science and emotion beautifully into a thoughtful and thought provoking meditation Bookpage She delves back to 1944 when her grandparents met in a coal mining town in Appalachia to her own dating life as a professor in Vancouver She uses biologists research into dopamine triggers to ask whether the need to love is an innate human drive She uses literary theory to show why we prefer certain kinds of love stories She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from And she tells the story of how she decided to test an experiment that she'd read about where the goal was to create intimacy between strangers using a list of thirty six questions and ended up in the surreal situation of having millions of people following her brand new relationship Perfect fodder for the romantic and the cynic in all of us Booklist How to Fall in Love with Anyone flips the script on love Clear eyed and full of heart it is mandatory reading for anyone coping with or curious about the challenges of contemporary courtship The Toronto Star

What Makes Love Last? John Gottman, John Mordechai Gottman, Nan Silver, 2012-09-04 One of the foremost relationship experts applies the insights of science toward understanding the real meaning of trust between a couple and suggests a new approach to handle adultery

Why We Love Helen Fisher, 2005-01-02 A groundbreaking exploration of our most complex and mysterious emotion Elation mood swings sleeplessness and obsession these are the tell tale signs of someone in the throes of romantic passion In this revealing new book renowned anthropologist Helen Fisher explains why this experience which cuts across time geography and gender is a force as powerful as the need for food or sleep Why We Love begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love She proves at last what researchers had only suspected when you fall in love primordial areas of the brain light up with increased blood flow creating romantic passion Fisher uses this new research to show exactly what you experience when you fall in love why you choose one person rather than another and how romantic love affects your sex drive and your feelings of attachment to a partner

She argues that all animals feel romantic attraction that love at first sight comes out of nature and that human romance evolved for crucial reasons of survival Lastly she offers concrete suggestions on how to control this ancient passion and she optimistically explores the future of romantic love in our chaotic modern world Provocative enlightening and persuasive Why We Love offers radical new answers to the age old question of what love is and thus provides invaluable new insights into keeping love alive

The Psychology of Romantic Love Robert A. Resonance Hartmut Rosa, 2011-01-26 The pace of modern life is undoubtedly speeding up yet this acceleration does not seem to have made us any happier or more content If acceleration is the problem then the solution argues Hartmut Rosa in this major new work lies in resonance The quality of a human life cannot be measured simply in terms of resources options and moments of happiness instead we must consider our relationship to or resonance with the world Applying his theory of resonance to many domains of human activity Rosa describes the full spectrum of ways in which we establish our relationship to the world from the act of breathing to the adoption of culturally distinct worldviews He then turns to the realms of concrete experience and action family and politics work and sports religion and art in which we as late modern subjects seek out resonance This task is proving ever more difficult as modernity's logic of escalation is both cause and consequence of a distorted relationship to the world at individual and collective levels As Rosa shows all the great crises of modern society the environmental crisis the crisis of democracy the psychological crisis can also be understood and analyzed in terms of resonance and our broken relationship to the world around us Building on his now classic work on acceleration Rosa's new book is a major new contribution to the theory of modernity showing how our problematic relation to the world is at the crux of some of the most pressing issues we face today This bold renewal of critical theory for our times will be of great interest to students and scholars across the social sciences and humanities
