Love and Money Lisa Henderson, 2013-01-28 Love and Money argues that we can't understand contemporary queer cultures without looking through the lens of social class Resisting old divisions between culture and economy identity and privilege left and queer recognition and redistribution Love and Money offers supple approaches to capturing class experience and class form in and around queerness Contrary to

familiar dismissals not every queer television or movie character is like Will Truman on *Will and Grace* rich white healthy professional detached from politics community and sex Through ethnographic encounters with readers and cultural producers and such texts as *Boys Don't Cry* *Brokeback Mountain* *By Hook or By Crook* and wedding announcements in the *New York Times* *Love and Money* sees both queerness and class across a range of idioms and practices in everyday life How it asks do readers of Dorothy Allison's novels use her work to find a queer class voice How do gender and race broker queer class fantasy How do independent filmmakers cross back and forth between industry and queer sectors changing both places as they go and challenging queer ideas about bad commerce and bad taste With an eye to the nuances and harms of class difference in queerness and a wish to use culture to forge queer and class affinities *Love and Money* returns class and its politics to the study of queer life

For Love or Money Nancy Folbre, 2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder care care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and

Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector

Writing for Love and Money Kate Vieira,2019 This book tells the story of how families separated across borders write and learn new ways of writing in pursuit of love and money According to the UN 244 million people currently live outside their countries of birth The human drama behind these numbers is that parents are often separated from children brothers from sisters lovers from each other Migration undertaken in response to problems of the wallet also poses problems for the heart Writing for Love and Money shows how families separated across borders turn to writing to address these problems Based on research with transnational families in Latin America Eastern Europe and North America it describes how people write to sustain meaningful relationships across distance and to better their often impoverished circumstances Despite policy makers concerns about brain drain the book reveals that immigrants departures do not leave homelands wholly educationally hobbled Instead migration promotes experiences of literacy learning in transnational families as they write to reach the two life goals that globalization consistently threatens economic solvency and familial intimacy

influence parenting practices and what is considered good parenting in different countries **For Love or Money** Carolyn Keene,2015-08-11 NANCY DISCOVERS THAT WHERE THERE S A WILL THERE S A WAY TO ATTEMPT MURDER One of River Heights s richest and most respected citizens Charles Pierce has fallen in love and fallen out with his family He asked his beautiful and much younger housekeeper Nila to marry him and his heirs fear getting cut out of his will But Pierce now fears for Nila s life and he asks Nancy to investigate the threat With all of Pierce s money at stake there s no shortage of suspects including his very handsome son Philip And Nancy has to wonder whether Philip s interest in her stems from affection greed or both Either way he spells trouble and Nancy knows one thing for sure by taking on this case she s inherited a house full of danger *Love and Money* Michael Tratner,2021 When people speak about love and money they usually are referring to a conflict love distorted by the desire for money Such statements imply that love has a distinct form before economics interferes but this book aims to show that such a view simplifies what is going on because people have always been deeply shaped by everything in the social order including economics So when people say that money is distorting love what they are really saying is that the current relationship of love and economics is different from an earlier relationship This book seeks then to demonstrate the intertwining of the discourses of love and money over a long history by focusing on moments when parallel conceptions appear in economic theories and love stories The two discourses intersect because both seek to define qualities and behaviors of human beings which are most valuable and hence most desirable Similar descriptions of valuable behaviors appear at roughly the same time in economic theories of how to acquire wealth and literary stories of how to find ideal lovers By tracking mutual expressions of desire value and acquisition in economics and love stories this book argues for the ubiquity of the intertwining of these discourses while exploring shifts in conceptions of value It focuses on four eras when economic and romantic conceptions of what is most desirable were actively changing in English discourses the early modern 17th century the Victorian 19th the modernist 20th and the postmodern present
