The book introduces the Token Valence Method which assumes that a word like an elementary particle is neither a particle nor a wave but rather a quantum state The TVM has revealed three models of love patterns in fiction adaptation 21st century alienation 20th century and imagination 1991 2021 Of Peninsulas and Archipelagos Phrae Chittiphalangsri, Vicente L. Rafael, 2023-07-18 Comprising 11 countries and hundreds of languages from one of the most culturally diverse regions in the world the chapters in this collection explore a wide range of translation issues The subject of this volume is set in the contrasted landscapes of mainland peninsulas and maritime archipelagos in Southeast Asia which whilst remaining a largely minor area in Asian studies harbors a wealth of textual heritage that opens to inquiries and new readings From the post Angkor Cambodia the post colonial Vientiane to the ultra modern Singapore metropolis translation figures problematically in the modernization of indigenous literatures criss crossing chronologically and spatially through different literary landscapes The peninsular geo body gives rise to the politics of singularity as seen in the case of the predominant monolingual culture in Thailand whereas the archipelagic geography such as the thousand islands of Indonesia allows for peculiar types of communication Translation can also be metaphorized poetically to configure the transference in different scenarios such as the cases of self translation in Philippine protest poetry and untranslatability in Vietnamese diasporic writings The collection also includes intra regional comparative views on historical and religious terms This book will appeal to scholars and postgraduate students of translation studies sociolinguistics and Southeast Asian studies **Graham's Illustrated**
