The Fires of Lust Katherine Harvey, 2022-11-28 An illuminating exploration of the surprisingly familiar sex lives of ordinary medieval people The medieval humoral system of medicine suggested that it was possible to die from having too much or too little sex while the Roman Catholic Church taught that virginity was the ideal state Holy men and women committed themselves to lifelong abstinence in the name of religion Everyone was forced to conform to restrictive rules about who they could have sex with in what way how often and even when and could be harshly punished for getting it wrong Other experiences are more familiar Like us medieval people faced challenges in finding a suitable partner or trying to get pregnant or trying not to They also struggled with many of the same social issues such as whether prostitution should be legalized Above all they shared our fondness for dirty jokes and erotic images By exploring their sex lives the book brings ordinary medieval people to life and reveals details of their most personal thoughts and experiences Ultimately it provides us with an important and intimate

The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes, 2000-08-15 National Book Award Finalist This man's ideas may be the most influential not to say controversial of the second half of the twentieth century Columbus Dispatch At the heart of this classic seminal book is Julian Jaynes's still controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology our history and culture our religion and indeed our future Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind* Its prose is always lucid and often lyrical he unfolds his case with the utmost intellectual rigor The New York Times When Julian Jaynes speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods we are astounded but compelled to follow this remarkable thesis John Updike The New Yorker He is as startling as Freud was in *The Interpretation of Dreams* and Jaynes is equally as adept at forcing a new view of known human behavior American Journal of Psychiatry

of Life Thomas Dumm, 2010-05-01 What does it mean to be lonely Thomas Dumm asks His inquiry documented in this book takes us beyond social circumstances and into the deeper forces that shape our very existence as modern individuals The modern individual Dumm suggests is fundamentally a lonely self Through reflections on philosophy political theory literature and tragic drama he proceeds to illuminate a hidden dimension of the human condition His book shows how loneliness shapes the contemporary division between public and private our inability to live with each other honestly and in comity the estranged forms that our intimate relationships assume and the weakness of our common bonds A reading of the relationship between Cordelia and her father in Shakespeare's *King Lear* points to the most basic dynamic of modern loneliness how it is a response to the problem of the missing mother Dumm goes on to explore the most important dimensions of lonely experience Being Having Loving and Grieving As the book unfolds he juxtaposes new interpretations of iconic cultural texts *Moby Dick* *Death of a Salesman* the film *Paris Texas* Emerson's *Experience* to name a few with his own experiences of loneliness as a son as a father and as a grieving husband and widower Written with deceptive simplicity *Loneliness as a Way of Life* is something rare an intellectual study that is passionately personal It challenges us not to overcome our loneliness but to learn how to re inhabit it in a better way To fail to do so this book reveals will only intensify the power that it holds over us *Bringing the World Home* Theodore Huters, 2017-04-01 *Bringing the World Home* sheds new light on China's

vibrant cultural life between 1895 and 1919 a crucial period that marks a watershed between the conservative old regime and the ostensibly iconoclastic New Culture of the 1920s Although generally overlooked in the effort to understand modern Chinese history the era has much to teach us about cultural accommodation and is characterized by its own unique intellectual life This original and probing work traces the most significant strands of the new post 1895 discourse concentrating on the anxieties inherent in a complicated process of cultural transformation It focuses principally on how the need to accommodate the West was reflected in such landmark novels of the period as Wu Jianren s *Strange Events Eyewitnessed in the Past Twenty Years* and Zhu Shouju s *Tides of the Huangpu* which began serial publication in Shanghai in 1916 The negative tone of these narratives contrasts sharply with the facile optimism that characterizes the many essays on the New Novel appearing in the popular press of the time Neither iconoclasm nor the wholesale embrace of the new could square the contradicting intellectual demands imposed by the momentous alternatives presenting themselves An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched a collaborative initiative designed to make high quality books open access for the public good The open access version of this book is licensed under Creative Commons Attribution NonCommercial NoDerivatives 4 0 International CC BY NC ND 4 0 which means that the work may be freely downloaded and shared for non commercial purposes provided credit is given to the author Derivative works and commercial uses require permission from the publisher
