The Reasons of Love Harry G. Frankfurt, 2009-01-13 From the author of the 1 New York Times bestseller On Bullshit a profound meditation on how and why we love In The Reasons of Love leading moral philosopher and bestselling author Harry Frankfurt argues that the key to a fulfilled life is to pursue wholeheartedly what one cares about that love is the most authoritative form of caring and that the purest form of love is in a complicated way self love Through caring we infuse the world with meaning Caring provides us with stable ambitions and concerns and it shapes the framework of aims and interests within which we lead our lives Love is a nonvoluntary disinterested concern for the flourishing of what we love and self love as distinct from self indulgence is at heart of this concern The most elementary form of self love is no more than the desire to love and self love is simply a commitment to finding meaning in our lives

Bellusci, 2019-07-01 How is human love deformed in sexual addiction How can human love be transformed David Bellusci considers three signs of addiction and then by looking at neurotic tendencies within a psychoanalytical framework as well as the neurobiological nature of sexual pleasure explores the causes of sexual addiction Behavioral expression of addiction is examined in pornography masturbation cybersex and multiple sexual partners Working within a Christian anthropology drawn from Thomas Aquinas Bellusci considers the morality of pleasure how pleasure suggests an antinomy of satisfaction dissatisfaction He explores how the fallen human condition affects the will and the consent to sin He concludes with a focus on how the addict may be supported at the psychological relational and spiritual levels

Love in America Francesca M. Cancian, 1990-08-31 In the last twenty five years Americans have gained considerable freedom in their personal lives Relationships are now more flexible and self development has become a primary goal for both men and women Most scholars have criticized this trend to greater freedom arguing that it undermines family bonds and promotes selfishness and extreme independence Francesca Cancian is more optimistic In this book she shows that many American couples succeed in combining self development with commitment and that interdependence not independence is their ideal In interdependent relationships love and self development do not conflict but reinforce each other Love in America compares traditional forms of marriage with these newer forms of close relationships Starting with the nineteenth century Cancian shows how gender roles became polarized with love which was identified with emotional expression no practical help being the responsibility of women while self development was regarded as a masculine concern These traditional images of love and relationships are still held by many Americans today even though as Cancian points out this can lead to marital conflict and individual stress and illness By contrast new images of love emphasizing self development for men and women and flexible androgynous roles began to emerge around 1900 accelerating in the 1960s She concludes that this trend to self development and androgyny will continue but that whether it will lead to more interdependent relationships or to more independence and isolation depends partly on economic and political changes in the wider society The evidence for Cancian's argument comes from sociological historical and psychological sources Her book will interest readers in these disciplines as well as appeal to a wide general audience

Love, Money, and Parenting Matthias Doepke, Fabrizio Zilibotti, 2019 The book investigates how economic forces and growing inequality shape how

parents raise their children From medieval times to the present and from the United States the United Kingdom Germany Italy Spain and Sweden to China and Japan the authors look at how economic incentives and constraints such as money knowledge and time influence parenting practices and what is considered good parenting in different countries *Love of a God of Love* Hugo Strandberg, 2011-09-15 Traditionally religious belief has in the philosophy of religion been understood along more or less epistemological lines Love of a God of Love develops another understanding of belief where the moral concept of love is central In this context what is distinctive about the concept of love is that it is both the what and the how of belief for the one who loves a God of love the concept of love characterizes both the content side and the act side of the belief In that respect this understanding of religious belief makes it possible to avoid certain formalist difficulties arising when the what and the how of belief are sharply distinguished *Love, Guaranteed!* Dr. Ken & Judy Tucker, 2024-01-09 Discover the necessary tools for couples husbands in particular to love the way that God intended Men have often been portrayed in a negative light when it comes to their commitment and ability to love their spouses However this is an inaccurate representation as men are fully capable of being deeply and genuinely devoted to their wives LOVE GUARANTEED provides husbands and wives with the knowledge of how to properly exercise love in their marriages By drawing from the Bible historical evidence relationship theories case studies and research based strategies men and women can learn how to nurture and sustain love The writer also shares his personal testimony of how he and his wife overcame his infidelity to build an intimate and long lasting relationship In addition to his own story the book also offers an 8 step guide to help spouses demonstrate their love and loyalty to each other With the help of LOVE GUARANTEED husbands and wives can gain the knowledge understanding and insight needed to make their marriage last *Love, Friendship, and the Self* Bennett W. Helm, 2010-01-07 Recent Western thought has consistently emphasized the individualistic strand in our understanding of persons at the expense of the social strand Thus it is generally thought that persons are self determining and autonomous where these are understood to be capacities we exercise most fully on our own apart from others whose influence on us tends to undermine that autonomy Love Friendship and the Self argues that we must reject a strongly individualistic conception of persons if we are to make sense of significant interpersonal relationships and the importance they can have in our lives It presents a new account of love as intimate identification and of friendship as a kind of plural agency in each case grounding and analyzing these notions in terms of interpersonal emotions At the center of this account is an analysis of how our emotional connectedness with others is essential to our very capacities for autonomy and self determination we are rational and autonomous only because of and through our inherently social nature By focusing on the role that relationships of love and friendship have both in the initial formation of our selves and in the on going development and maturation of adult persons Helm significantly alters our understanding of persons and the kind of psychology we persons have as moral and social beings *Perspectives on Sexuality* James L. Malfetti, 1971 *The Empire of Love* Elizabeth A.

Povinelli,2006-08-30 In *The Empire of Love* anthropologist Elizabeth A Povinelli reflects on a set of ethical and normative claims about the governance of love sociality and the body that circulates in liberal settler colonies such as the United States and Australia She boldly theorizes intimate relations as pivotal sites where liberal logics and aspirations absorbed through settler imperialism are manifest where discourses of self sovereignty social constraint and value converge For more than twenty years Povinelli has traveled to the social worlds of indigenous men and women living at Belyuen a small community in the Northern Territory of Australia More recently she has moved across communities of alternative progressive queer movements in the United States particularly those who identify as radical faeries In this book she traces how liberal binary concepts of individual freedom and social constraint influence understandings of intimacy in these two worlds At the same time she describes alternative models of social relations within each group in order to highlight modes of intimacy that transcend a reductive choice between freedom and constraint Shifting focus away from identities toward the social matrices out of which identities and divisions emerge Povinelli offers a framework for thinking through such issues as what counts as sexuality and which forms of intimate social relations result in the distribution of rights recognition and resources and which do not In *The Empire of Love* Povinelli calls for and begins to formulate a politics of thick life a way of representing social life nuanced enough to meet the density and variation of actual social worlds
