agricultural enterprises For the Flathead the most important single fact about music and its relationship to the total world is its origin in the supernatural sphere All true and proper songs particularly in the past owe their origin to a variety of contacts experienced by humans with beings which though a part of this world are superhuman and the source of both individual and tribal powers and skills Thus a sharp distinction is drawn by the Flathead between what they call make up and all other songs Merriam s pioneering work in the relationship of ethnography and musicology remains a primary source in this field in anthropology The Century ,1888 **The Century Illustrated Monthly Magazine** ,1888
