and teaches us how to rely instead on our instinct to find meaning and purpose even and especially when we find ourselves powerless While chaos in excess threatens us with instability and anxiety unchecked order can petrify us into submission Beyond Order provides a call to balance these two fundamental principles of reality itself and guides us along the straight and narrow path that divides them

[Love in Motion](#) Reidar Due, 2013-10-22 This is a book about how film encountered love in the course of its history It is also a book about the

philosophy of love Since Plato erotic love has been praised for leading the soul to knowledge The vast tradition of poetry devoted to love has emphasized that love is a feeling Love in Motion presents a new metaphysics and ontology of love as a reciprocal erotic relationship The book argues that film has been particularly well suited for depicting love in this way in virtue of its special narrative language This is a language of expression that has developed in the course of film history The book spans this history from early silent directors such as Joseph von Sternberg to contemporary filmmakers like Sophia Coppola At the centre of this study is a comparison between Classical French and American love films of the forties and a series of modernist films by Luis Buñuel François Truffaut and Wong Kar Wai **Information Activism** Cait

McKinney, 2020-07-17 For decades lesbian feminists across the United States and Canada have created information to build movements and survive in a world that doesn't want them In Information Activism Cait McKinney traces how these women developed communication networks databases and digital archives that formed the foundation for their work Often learning on the fly and using everything from index cards to computers these activists brought people and their visions of justice together to organize stores and provide access to information Focusing on the transition from paper to digital based archival techniques from the 1970s to the present McKinney shows how media technologies animate the collective and unspectacular labor that sustains social movements including their antiracist and trans inclusive endeavors By bringing sexuality studies to bear on media history McKinney demonstrates how groups with precarious access to control over information create their own innovative and resourceful techniques for generating and sharing knowledge *Hold Me Tight* Sue Johnson, 2008-04-08 Introduces the author's Emotionally Focused Therapy technique explaining how to assist couples by treating their relationship as a love based attachment bond that can be healed through a reestablishment of safe emotional connections
