The Lotus Sutra ,2014-04-14 The Lotus Sutra is regarded as one of the world s great religious scriptures and most influential texts It s a seminal work in the development of Buddhism throughout East Asia and by extension in the development of Mahayana Buddhism throughout the world Taking place in a vast and fantastical cosmic setting the Lotus Sutra places emphasis on skillfully doing whatever is needed to serve and compassionately care for others on breaking down distinctions between the fully enlightened buddha and the bodhisattva who vows to postpone salvation until all beings may share it and especially on each and every being s innate capacity to become a buddha Gene Reeves s new translation appeals to readers with little or no familiarity with technical Buddhist vocabulary as well as long time practitioners and students In addition this remarkable volume includes the full threefold text of this classic

Shaping the Lotus Sutra Eugene Yuejin Wang,2005 The Lotus Sutra has been the most widely read and most revered Buddhist scripture in East Asia since its translation in the third century The miracles and parables in the king of sutras inspired a variety of images in China in particular the sweeping compositions known as transformation tableaux that developed between the seventh and ninth centuries Surviving examples in murals painted on cave walls or carved in relief on Buddhist monuments depict celestial journeys bodily metamorphoses cycles of rebirth and the achievement of nirvana Yet the cosmos revealed in these tableaux is strikingly different from that found in the text of the sutra Shaping the Lotus Sutra explores this visual world Challenging long held assumptions about Buddhist art Eugene Wang treats it as a window to an animated and spirited world Rather than focus on individual murals as isolated compositions Wang views the entire body of pictures adorning a cave shrine or a pagoda as a visual mapping of an imaginary topography that encompasses different temporal and spatial domains He demonstrates that the text of the Lotus Sutra does not fully explain the pictures and that a picture or a series of them constitutes its own text In exploring how religious pictures sublimate cultural aspirations he shows that they can serve both political and religious agendas and that different social forces can co exist within the same visual program These pictures inspired meditative journeys through sophisticated formal devices such as mirroring mapping and spatial programming analytical categories newly identified by Wang The book examines murals in cave shrines at Binglingsi and Dunhuang in northwestern China and relief sculptures in the grottoes of Yungang in Shanxi on stelae from Sichuan and on the Dragon and Tiger pagoda in Shandong among other sites By tracing formal impulses in medieval Chinese picture making such as topographic mapping and pictorial illusionism the author pieces together a wide range of visual evidence and textual sources to reconstruct the medieval Chinese cognitive style and mental world The book is ultimately a history of the Chinese imagination Read an interview with the author <http://dgeneratefilms.com/cinemataalk/cinemataalk-interview-with-professor-eugene-wang-on-chinese-art-and-film>

The Lotus Sutra ,1993 Since its appearance in China in the third century The Lotus Sutra has been regarded as one of the most illustrious scriptures in the Mahayana Buddhist canon The object of intense veneration among generations of Buddhists in China Korea Japan and other parts of the world it has had a profound impact on the great works of Japanese and Chinese literature attracting more commentary than any other Buddhist scripture As Watson notes in the introduction to his

remarkable translation The Lotus Sutra is not so much an integral work as a collection of religious texts an anthology of sermons stories and devotional manuals some speaking with particular force to persons of one type or in one set of circumstances some to those of another type or in other circumstances This is no doubt why it has had such broad and lasting appeal over the ages and has permeated so deeply into the cultures that have been exposed to it

Visions of Awakening Space and Time Taigen Dan Leighton,2008-12-31 As a religion concerned with universal liberation Zen grew out of a Buddhist worldview very different from the currently prevalent scientific materialism Indeed says Taigen Dan Leighton Zen cannot be fully understood outside of a worldview that sees reality itself as a vital dynamic agent of awareness and healing In this book Leighton explicates that worldview through the writings of the Zen master Eihei D gen 1200 1253 considered the founder of the Japanese S t Zen tradition which currently enjoys increasing popularity in the West The Lotus Sutra arguably the most important Buddhist scripture in East Asia contains a famous story about bodhisattvas enlightening beings who emerge from under the earth to preserve and expound the Lotus teaching in the distant future The story reveals that the Buddha only appears to pass away but actually has been practicing and will continue to do so over an inconceivably long life span Leighton traces commentaries on the Lotus Sutra from a range of key East Asian Buddhist thinkers including Daosheng Zhiyi Zhanran Saigyo My e Nichiren Hakuin and Ry kan But his main focus is Eihei D gen the 13th century Japanese S t Zen founder who imported Zen from China and whose profuse provocative and poetic writings are important to the modern expansion of Buddhism to the West D gen s use of this sutra expresses the critical role of Mahayana vision and imagination as the context of Zen teaching and his interpretations of this story furthermore reveal his dynamic worldview of the earth space and time themselves as vital agents of spiritual awakening Leighton argues that D gen uses the images and metaphors in this story to express his own religious
