Lightning Flowers Katherine E. Standefer, 2020-11-10 This utterly spectacular book weighs the impact modern medical technology has had on the author's life against the social and environmental costs inevitably incurred by the mining that makes such innovation possible Rachel Louise Snyder author of No Visible Bruises What if a lifesaving medical device causes loss of life along its supply chain That's the question Katherine E Standefer finds herself asking one night after being suddenly shocked by her implanted cardiac defibrillator In this gripping intimate memoir about health illness and the invisible reverberating effects of our medical system Standefer recounts the astonishing true story of the rare diagnosis that upended her rugged life in the mountains of Wyoming and sent her tumbling into a fraught maze of cardiology units dramatic surgeries and slow painful recoveries As her life increasingly comes to revolve around the internal defibrillator freshly wired into her heart she becomes consumed with questions about the supply chain that allows such an ostensibly miraculous device to exist So she sets out to trace its materials back to their roots From the sterile labs of a medical device manufacturer in southern California to the tantalum and tin mines seized by armed groups in the Democratic Republic of the Congo to a nickel and cobalt mine carved out of endemic Madagascar jungle Lightning Flowers takes us on a global reckoning with the social and environmental costs of a technology that promises to be lifesaving but is in fact much more complicated Deeply personal and sharply reported Lightning Flowers takes a hard look at technological mythos healthcare and our cultural relationship to medical technology raising important questions about our obligations to one another and the cost of saving one life A Biblical and Theological Dictionary Richard Watson, 1856

talent demonstrated by one of Hollywood's most intelligent leading men. Elegant, witty and dignified, Powell created accessible and human characters in a great variety of roles. His talent was such that Powell has a large and growing fan base 50 years after his last film was released, evidenced by the popularity of DVD rereleases and the frequent appearance of his films on cable television. The focus of this book is Powell's work in more than 90 films from the silent era to the age of CinemaScope woven into the dramatic and touching story of the actor's life. It begins by leaping into how Powell and actress Myrna Loy were launched to stardom as husband and wife Nick and Nora Charles in *The Thin Man*. The next chapter sets the stage for the baby Powell's entry into the world in 1892 and details his childhood and upbringing. Following chapters trace Powell's journey into the film industry, his early career as a popular villain and his transition to talkies in the late 1920s aided by his stage training. The book details his work at Warner Bros which turned him into a leading man and his years of stardom at MGM. The book describes turning points in Powell's life: the death of lover Jean Harlow, a 21-month hiatus from films while the actor battled cancer, and a new leap to the top in *Life with Father*. Concluding chapters detail another flurry of films and the actor's retirement. A filmography lists Powell's films from 1922 to 1955, including those believed to be lost.
