becomes a lens through which to view the career of Louis Comfort Tiffany and intersecting arcs of art and design in America. The story of the Parakeets stained glass window from national and international recognition to years of obscurity followed by a return to the limelight parallels the public reception of the art of its maker Louis Comfort Tiffany who had one of the most recognized names in American art at the turn of the twentieth century. It is a story of artistic ambition and experimentation of nationalist pride and promotion and of the capricious nature of public opinion and the art market. A careful study of the fabrication imagery and life of the window offers an intimate look into the legacy of Tiffany as well as the nineteenth century revival of the lesser known medium of stained glass which some argue was the United States first major contribution to the international art world.

Canby, Maryam Ekhtiar, Moira Gallagher, Kyriaki Karoglou, Christopher S. Lightfoot, Pengliang Lu, Amy McHugh, Iris Moon, Annamarie Sandeck, Karen Stamm, Catherine D. Stergar, 2021-07-06 Edward C Moore 1827 1891 was the creative leader who brought Tiffany Co to unparalleled originality and success during the late nineteenth century. A silversmith designer and prodigious collector Moore sought out exceptional objects from around the world which he then used as inspiration for Tiffany's innovative silver designs. This informative richly illustrated volume the first study of Moore's life collection and influence presents more than 170 examples from his vast collection ranging from Greek and Roman glass to Spanish vases Islamic metalwork and Japanese textiles. These are juxtaposed with sixty magnificent silver objects created by the designers and artisans at Tiffany who were inspired by Moore's acquisitions. Included among them are the world famous Bryant Vase drawing upon Greek examples a love cup featuring ornate Saracenic decoration and a chocolate pot incorporating novel techniques influenced by Japanese ceramics and lacquerware. The illuminating texts have been enriched by groundbreaking research into contemporary sources such as newspapers and periodicals the Tiffany Co Archives and a newly identified technical manual and supervisor's diaries all of which provide an intimate look at the firm's design processes and Moore's role in shaping them. A valuable contribution to the history of American decorative arts *Collecting Inspiration* illuminates both the legendary Tiffany aesthetic and the legacy of a significant collector designer and entrepreneur of the Gilded Age.

*American Art Pottery* Alice Cooney Frelinghuysen, Martin Eidelberg, Adrienne Spinozzi, 2018-09-25 p p1

margin 0 0px 0 0px 0 0px font 14 0px Verdana At the height of the Arts and Crafts era in Europe and the United States American ceramics were transformed from industrially produced ornamental works to handcrafted art pottery. Celebrated ceramists such as George E. Ohr, Hugh C. Robertson and M. Louise McLaughlin and prize winning potteries including Grueby and Rookwood harnessed the potential of the medium to create an astonishing range of dynamic forms and experimental glazes. Spanning the period from the 1870s to the 1950s this volume chronicles the history of American art pottery through more than three hundred works in the outstanding collection of Robert A. Ellison Jr. In a series of fascinating chapters the authors place these works in the context of turn of the century commerce design and social history. Driven to innovate and at times fiercely competitive some ceramists strove to discover and patent new styles and aesthetics while others pursued more utopian aims establishing artist communities that promoted education and handwork as therapy. Written by a team of esteemed scholars and copiously illustrated with sumptuous images this book imparts a full understanding of American art
