Environmental education in the schools creating a program that works. , Art in History/History in Art David Freedberg,Jan de Vries,1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth century Dutch art and culture **Tending a Comfortable Wilderness** Eric MacDonald,Arnold Robert Alanen,2000 **The Violence of Modernity** Debarati Sanyal,2020-03-03 The Violence of Modernity turns to Charles Baudelaire one of the most canonical figures of literary modernism in order to reclaim an aesthetic legacy for ethical inquiry and historical critique Works of modern literature are commonly theorized as symptomatic responses to the trauma of history In a climate that tends to privilege crisis over critique Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential Examining Baudelaire s poems afresh she shifts the focus of critical attention toward an account of modernism as an active engagement with violence specifically the violence of history in nineteenth century France Sanyal analyzes a literary current that uses the traditional hallmarks of modernism irony intertextuality self reflexivity and formalism to challenge the historical violence of modernity Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history and thereby to challenge the melancholy tenor of our contemporary wound culture In a series of provocative readings Sanyal presents Baudelaire s poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity counterviolence and critique The book develops a new account of Baudelaire s significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art s sake and from his more recent incarnation as the poet of trauma Following her extended analysis of Baudelaire s poetry Sanyal in later chapters considers a number of authors influenced by his strategies including Rachilde Virginie Despentès Albert Camus and Jean Paul Sartre to examine the relevance of their interventions for our current climate of trauma and terror The result is a study that underscores how Baudelaire s legacy continues to energize literary engagements with the violence of modernity **No One Belongs Here More Than You** Miranda July,2008-05-06 These delightful stories do that essential but rare story thing they surprise They skip past the quotidian the merely real to the essential and do so with a spirit of tenderness and wonder that is wholly unique They are let me coin a phrase July esque which is to say infused with wonder at the things of the world George Saunders author of Tenth of December Award winning filmmaker and performing artist Miranda July brings her extraordinary talents to the page in a startling sexy and tender collection In these stories July gives the most seemingly insignificant moments a sly potency A benign encounter a misunderstanding a shy revelation can reconfigure the world Her characters engage awkwardly they are sometimes too remote sometimes too intimate With great compassion and generosity July reveals their

idiosyncrasies and the odd logic and longing that govern their lives *No One Belongs Here More Than You* is a stunning debut the work of a writer with a spectacularly original and compelling voice **Bodies That Matter** Judith Butler, 2014-09-03 In *Bodies That Matter* Judith Butler further develops her distinctive theory of gender by examining the workings of power at the most material dimensions of sex and sexuality Deepening the inquiries she began in *Gender Trouble* Butler offers an original reformulation of the materiality of bodies examining how the power of heterosexual hegemony forms the matter of bodies sex and gender Butler argues that power operates to constrain sex from the start delimiting what counts as a viable sex She offers a clarification of the notion of performativity introduced in *Gender Trouble* and explores the meaning of a citational politics The text includes readings of Plato Irigaray Lacan and Freud on the formation of materiality and bodily boundaries Paris is Burning Nella Larsen's *Passing* and short stories by Willa Cather along with a reconsideration of performativity and politics in feminist queer and radical democratic theory **Commonwealth** Michael Hardt, Antonio Negri, 2009-10-01 With *Commonwealth* Michael Hardt and Antonio Negri conclude the trilogy begun with *Empire* and continued in *Multitude* proposing an ethics of freedom for living in our common world and articulating a possible constitution for our common wealth *Libertine Strategies* Joan E. Transfeminist Perspectives in and beyond Transgender and Gender Studies Finn Enke, 2012-05-04 Lambda Literary Award for Best Book in Transgender Nonfiction 2013 If feminist studies and transgender studies are so intimately connected why are they not more deeply integrated Offering multidisciplinary models for this assimilation the vibrant essays in *Transfeminist Perspectives in and beyond Transgender and Gender Studies* suggest timely and necessary changes for institutions of higher learning Responding to the more visible presence of transgender persons as well as gender theories the contributing essayists focus on how gender is practiced in academia health care social services and even national border patrols Working from the premise that transgender is both material and cultural the contributors address such aspects of the university as administration sports curriculum pedagogy and the appropriate location for transgender studies Combining feminist theory transgender studies and activism centered on social diversity and justice these essays examine how institutions as lived contexts shape everyday life **The Digital Humanities and Literary Studies** Martin Paul Eve, 2022

A short introduction and overview of developing intersections between digital methods and literary studies that offers the best starting place for those who wish to learn more about the possibilities but also the limitations of the digital humanities in the literary space **Women Painters of the World** Walter Shaw Sparrow,1905 Sketches of Travel in Normandy and Maine Edward Augustus Freeman,1897 Corpus Jean-Luc Nancy,2009-08-25 How have we thought the body How can we think it anew The body of mortal creatures the body politic the body of letters and of laws the mystical body of Christ all these and others are incorporated in the word Corpus the title and topic of Jean Luc Nancy s masterwork Corpus is a work of literary force at once phenomenological sociological theological and philosophical in its multiple orientations and approaches In thirty six brief sections Nancy offers us at once an encyclopedia and a polemical program reviewing classical takes on the corpus from Plato Aristotle and Saint Paul to Descartes Hegel Husserl and Freud while demonstrating that the mutations technological biological and political of our own culture have given rise to the need for a new understanding of the body He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails The long awaited English translation is a bold bravura rendering To the title essay are added five closely related recent pieces including a commentary by Antonia Birnbaum dedicated in large part to the legacy of the mind body problem formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus The last and most poignant of these essays is The Intruder Nancy s philosophical meditation on his heart transplant The book also serves as the opening move in Nancy s larger project called The deconstruction of Christianity Uncertain Territories Inge E. Boer,2006-01-01 Tracing and theorizing the concept of the boundaries through literary works visual objects and cultural phenomena this book argues against the reification of boundaries as fixed and empty non spaces that simply divide the world Expanding on her previous work on gender and Orientalism Inge Boer takes us into uncertain territories of fashion and art tourism and travel skilfully engaging the ambivalence of boundaries as both protecting and confining as bringing distinction while existing by virtue of their ability to be transgressed In her close readings of that boundaries as desert as frame as home or lack of it Boer shows that boundaries are spaces within through and in the name of which negotiations take place They are not lines but spaces neither fixed nor empty but flexible and inhabited With the publication of this book Boer s intellectual legacy stretches beyond her untimely passing The writings that she left behind can be said to have inaugurated the future of her work presented in the latter part by several of Boer s intellectual companions In their original essays the contributors elaborate on Boer s theme of boundaries as spaces where opposition yields to negotiation Committed to the artefact as cultural stimulant as the embodiment of thought their analyses span a multitude of artefacts and media ranging from literature to photography to art installation and presentation to film and song Fanning out from Boer s central focus Orientalism to other places of contestation boundaries are shown to mediate the relationship between self and other they are ultimately spaces of encounter **The Insecure City** Kristin V. Monroe,2016-03-15 Fifteen years after the end of a

protracted civil and regional war Beirut broke out in violence once again forcing residents to contend with many forms of insecurity amid an often violent political and economic landscape Providing a picture of what ordinary life is like for urban dwellers surviving sectarian violence The Insecure City captures the day to day experiences of citizens of Beirut moving through a war torn landscape While living in Beirut Kristin Monroe conducted interviews with a diverse group of residents of the city She found that when people spoke about getting around in Beirut they were also expressing larger concerns about social political and economic life It was not only violence that threatened Beirut s ordinary residents but also class dynamics that made life even more precarious For instance the installation of checkpoints and the rerouting of traffic set up for the security of the elite forced the less fortunate to alter their lives in ways that made them more at risk Similarly the ability to pass through security blockades often had to do with an individual s visible markers of class such as clothing hairstyle and type of car Monroe examines how understandings and practices of spatial mobility in the city reflect social differences and how such experiences led residents to be bitterly critical of their government In The Insecure City Monroe takes urban anthropology in a new and meaningful direction discussing traffic in the Middle East to show that when people move through Beirut they are experiencing the intersection of citizen and state of the more and less privileged and in general the city s politically polarized geography
