Antarctic Pioneer Joanna Kafarowski, 2022-05-10 Jackie Ronne reclaims her rightful place in polar history as the first American woman in Antarctica Jackie was an ordinary American woman whose life changed after a blind date with rugged Antarctic explorer Finn Ronne After marrying they began planning the 1946 1948 Ronne Antarctic Research Expedition Her participation was not welcomed by the expedition team of red blooded males eager to prove themselves in the frozen hostile environment of Antarctica On

March 12 1947 Jackie Ronne became the first American woman in Antarctica and months later one of the first women to overwinter there The Ronne Antarctic Research Expedition secured its place in Antarctic history but its scientific contributions have been overshadowed by conflicts and the dangerous accidents that occurred Jackie dedicated her life to Antarctica she promoted the achievements of the expedition and was a pioneer in polar tourism and an early supporter of the Antarctic Treaty In doing so she helped shape the narrative of twentieth century Antarctic exploration The Socialite and the Sea Captain David Hirzel,2021-01-20 The Arctic explorer Louise Arner Boyd working in conjunction with the United States Bureau of Standards embarked June 11 1941 on a polar research voyage in the legendary schooner Effie M Morrissey with Captain owner and Arctic explorer in his own right Bob Bartlett commanding Although the United States was not yet a combatant in the war then raging throughout Europe by the beginning of 1941 it had become clear that such neutrality would not last much longer and that when the time came for the U S to enter the war it would be on the side of the Allies Greenland a protectorate of Denmark lost that status when Germany overran the home country Unprotected it could provide the Nazis with an operating base in North America Boyd s long history of leading surveying scientific and photographic expeditions to the East coast of Greenland meant that another expedition under her leadership to the West coast Baffin Bay side of that island would arouse little notice She arranged a charter of the ice schooner Effie M Morrissey from departure June 11 through November 3 returning with valuable data during which she kept a journal of her daily activities on board and her photographic and scientific work ashore Bartlett and the ship s officers likewise kept a detailed daily log It provides a marked contrast to Miss Boyd s narrative Both were passionately interested in polar exploration so joint venture in conjunction with a quasi military purpose seemed imminently prosperous However over the three months of the effort relations between the two soured irrevocably Each felt an indisputable right to be leader of the expedition Neither was willing to give ground The underlying tension reveals itself occasionally in her diary and in the elaborately worded ship s log held in Special Collections at Bowdoin College Library Given the differences between their social statuses they each find much to comment on The Socialite and the Sea Captain presents these two conflicting narratives side by side so readers can compare the accounts and determine for themselves the underlying story behind the diaries of these two headstrong leaders

Arctic ice triggering the largest polar rescue mission in history Helping lead the search was Roald Amundsen the poles greatest explorer who himself soon went missing in the frozen wastes Amundsen s body has never been found the last victim of one of the Arctic s most enduring mysteries During the Roaring Twenties zeppelin travel embodied the exuberant spirit of the age Germany s luxurious Graf Zeppelin would run passenger service from Germany to Brazil Britain s Imperial Airship was launched to connect an empire in America the iconic spire of the rising Empire State Building was designed as a docking tower for airships But the novel mode of transport offered something else too a new frontier of exploration Whereas previous Arctic and Antarctic explorers had subjected themselves to horrific often deadly conditions in their attempts to reach uncharted lands airships held out the possibility of speedily soaring over the hazards In 1926 the famed Norwegian explorer Roald Amundsen the first man to reach the South Pole partnered with the Italian airship designer General Umberto Nobile to pioneer flight over the North Pole As Mark Piesing uncovers in this masterful account while that mission was thought of as a great success it was in fact riddled with near disasters and political pitfalls In May 1928 his relationship with Amundsen corroded beyond the point of collaboration Nobile his dog and a crew of fourteen Italians one Swede and one Czech set off on their own in the airship Italia to discover new lands in the Arctic Circle and to become the first airship to land men on the pole But near the North Pole they hit a terrible storm and crashed onto the ice Six crew members were never seen again the injured including Nobile took refuge on ice flows unprepared for the wretched conditions and with little hope for survival Coincidentally in Oslo a gathering of famous Arctic explorers had assembled for a celebration of the first successful flight from Alaska to Norway Hearing of the accident Amundsen set off on his own desperate attempt to find Nobile and his men As the weeks passed and the largest international polar rescue expedition mobilized the survivors engaged in a last ditch struggle against weather polar bears and despair When they were spotted at last the search plane landed but the pilot announced that there was room for only one passenger Braiding together the gripping accounts of the survivors and their heroic rescuers *N 4 Down* tells the unforgettable true story of what happened when the glamour and restless daring of the zeppelin age collided with the harsh reality of earth s extremes **The Hull Family in America** Charles H.
