Lourdes Body And Spirit In The Secular Age:

Lourdes Ruth Harris,1999 This work attempts to explain how the small French town of Lourdes became the greatest of all Christian healing shrines despite unpromising beginnings prospering in an age supposedly given over to secularism growing as attendance at church fell and continually expanding in the midst of official onslaughts on the position of the Church The book offers an inter disciplinary examination of this episode in French history from mass travel and the burgeoning pilgrimage movement to the cultural and spiritual traditions of mid 19th century France and the central position of women in the spiritual movement

Lourdes Ruth Harris,2000 Splendidly researched this magisterial history explores the world s greatest Catholic healing shrine and the remarkable devotion it still inspires in a secular age 8 page color insert Illustrations throughout

Mary and Mariology , The Virgin Mary in the Perceptions of Women Joelle Mellon,2016-04-21 Once the Virgin Mary was a pivotal element of Christianity a holy figure at the heart of most Christians spiritual lives She was invoked at all major life passages baptisms weddings childbirths and funerals and images of the Virgin Mary could be found virtually anywhere from pub signs to sacred texts Medieval women especially looked to Mary to answer their prayers be their role model and serve as their advocate in heaven They prayed to her several times a day and sometimes devoted their entire lives to her service This book investigates perceptions of the Virgin Mary through several centuries of literature Focusing especially on the depictions of the Virgin Mary in medieval and Renaissance manuscripts the author rediscovers a time when the Divine Female was very much in evidence and good Christian women were taught to pray to a Holy Mother Topics include the cyclical popularity of Virgin Mary devotional objects such as Books of Hours rosaries and Marian gardens the mystical qualities attributed to the Virgin Mary through centuries of reported divine visions the historical relationships between the Virgin Mary and other religious figures including the Devil and Mary Magdalene as an alternative to the Virgin Mary as a feminine model

Encounters of Body and Soul in Contemporary Religious Practices Anna Fedele,Ruy Llera Blanes,2011-09-01 Social scientists and philosophers confronted with religious phenomena have always been challenged to find a proper way to describe the spiritual experiences of the social group they were studying The influence of the Cartesian dualism of body and mind or soul led to a distinction between non material spiritual experiences i e related to the soul and physical mechanical experiences i e related to the body However recent developments in medical science on the one hand and challenges to universalist conceptions of belief and spirituality on the other have resulted in body and soul losing the reassuring solid contours they had in the past Yet in Western culture the body soul duality is alive not least in academic and media discourses This volume pursues the ongoing debates and discusses the importance of the body and how it is perceived in contemporary religious faith what happens when body and soul are un separated entities Is it possible even for anthropologists and ethnographers to escape from natural dualism The contributors here present research in novel empirical contexts the benefits and limits of the old dichotomy are discussed and new theoretical strategies proposed

The Oxford Handbook of Mary Chris Maunder, 2019 The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies including chapters on textual literary and media analysis theology Church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism Featuring contributions from a distinguished group of international scholars the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West The volume also considers Mary in Islam and pilgrimages shared by Christian Muslim and Jewish adherents While Mary can be a source of theological disagreement this authoritative collection shows Mary's rich potential for inter faith and inter denominational dialogue and shared experience It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion Newly commissioned essays describe some of the central ideas of Christian Marian thought while also challenging popularly held notions This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world

Conjuring Science Sofie Lachapelle, 2015-10-07 Conjuring Science explores the history of magic shows and scientific entertainment It follows the frictions and connections of magic and science as they occurred in the world of popular entertainment in France from the mid eighteenth to the early twentieth century It situates conjurers within the broader culture of science and argues that stage magic formed an important popular conduit for science and scientific enthusiasm during this period From the scientific recreations of the fairs to the grand illusions of the theatre stage and the development of early cinema conjurers used and were inspired by scientific and technological innovations to create illusions provoke a sense of wonder and often even instruct their audience In their hands science took on many meanings and served different purposes it was a set of pleasant facts and recreational demonstrations upon which to draw it was the knowledge presented in various scientific lectures accompanied by optical projections at magic shows it was the techniques necessary to create illusions and effects on stage and later on at the cinema and it was a way to separate conjuring from the deceit of mediums mystical showmen and quacks in order to gain a better standing within an increasingly scientifically minded society

Being Elsewhere Shelley Baranowski, Ellen Furlough, 2001 A guide to vacationing from the

1800s to the present *Catholic and French Forever* Joseph F. Byrnes, 2010-11 Joseph Byrnes recounts the fights and reconciliations between French citizens who found Catholicism integral to their traditional French identity and those who found the continued presence of Catholicism an obstacle to both happiness and progress Daily Life of Women Colleen Boyett, H. Micheal Tarver, Mildred Diane Gleason, 2020-12-07 Indispensable for the student or researcher studying women's history this book draws upon a wide array of cultural settings and time periods in which women displayed agency by carrying out their daily economic familial artistic and religious obligations Since record keeping began history has been written by a relatively few elite men Insights into women's history are left to be gleaned by scholars who undertake careful readings of ancient literature examine archaeological artifacts and study popular culture such as folktales musical traditions and art For some historical periods and geographic regions this is the only way to develop some sense of what daily life might have been like for women in a particular time and place This reference explores the daily life of women across civilizations The work is organized in sections on different civilizations from around the world arranged chronologically Within each society the encyclopedia highlights the roles of women within five broad thematic categories the arts economics and work family and community life recreation and social customs and religious life Included are numerous sidebars containing additional information document excerpts images and suggestions for further reading *Spiritual Healing* Sarah Coakley, 2020-10-15 Spiritual healing has been a cornerstone of Christian belief from its beginnings although there are various interpretations of what exactly it is and how it happens To address these questions the contributors to this volume come together to examine spiritual healing from a number of disciplinary perspectives How can such healing be explained through a scientific or medical lens What do biblical and historical instantiations of it tell us today And how are we to think of it as anthropologists philosophers or theologians Finally what does all this mean for those seeking spiritual healing for themselves or pastors walking alongside the afflicted Deftly edited by theologian Sarah Coakley *Spiritual Healing* offers a composite narrative that investigates the many intermingled factors at work in this intriguing phenomenon The result is a human story as much as it is a theological one satisfying discerning believers and skeptics alike in its rigorous pursuit of truth and meaning **Enacting Brittany** Patrick Young, 2017-03-02 Brittany offers an excellent example of a French region that once attracted a certain cultivated elite of travel connoisseurs but in which more popular tourism developed relatively early in the twentieth century It is therefore a strategic choice as a case study of some of the processes associated with the emergence of mass tourism and the effects of this kind of tourism development on local populations Efforts to package Breton cultural difference in the late nineteenth and early twentieth centuries marked a significant advance in heritage tourism and a departure from what is commonly perceived to be a French intolerance of cultural diversity within its borders This study explores the means by which key actors middle class associations businesses governmental bodies cultural intermediaries pursued tourist development in the region and the effect this had on Breton cultural identification Chapters are arranged thematically and

consider the rise of rural tourism in France and the preservation display and enactment of Breton culture in its most visible locations the natural landscape of Brittany Breton dress early heritage festivals and religious Pardons The final chapter explores the staging of Breton culture at the Paris World's Fair of 1937 and the roots of state sponsored mass tourism Beyond those interested in the history of French tourism this study will also be invaluable to historians and social scientists concerned with understanding the dynamics involved in the emergence of mass tourism its causes and consequences in particular locales in the present as well as in the past

Body and Tradition in Nineteenth-century France William Pooley, 2019 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe *Body and Tradition in Nineteenth Century France* explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of Felix Arnaudin 1844-1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe

They Flew Carlos M. N. Eire, 2023-09-26 An award winning historian's examination of impossible events at the dawn of modernity and of their enduring significance Accounts of seemingly impossible phenomena abounded in the early modern era tales of levitation bilocation and witchcraft even as skepticism atheism and empirical science were starting to supplant religious belief in the paranormal In this book Carlos Eire explores how a culture increasingly devoted to scientific thinking grappled with events deemed impossible by its leading intellectuals Eire observes how levitating saints and flying witches were as essential a component of early modern life as the religious turmoil of the age and as much a part of history as Newton's scientific discoveries Relying on an array of firsthand accounts and focusing on exceptionally impossible cases involving levitation bilocation witchcraft and demonic possession Eire challenges established assumptions about the redrawing of boundaries between the natural and supernatural that

marked the transition to modernity Using as his case studies stories about St Teresa of Avila St Joseph of Cupertino the Venerable Mar a de greda and three disgraced nuns Eire challenges readers to imagine a world animated by a different understanding of reality and of the supernatural s relationship with the natural world The questions he explores such as why and how impossibility is determined by cultural contexts and whether there is more to reality than meets the eye or can be observed by science have resonance and lessons for our time *Film as an Expression of Spirituality* Kenneth R.
