

A dramatic landscape with a cloudy sky, a bird in flight, and a body of water. The sky is filled with large, dark, and light-colored clouds. A single bird is seen in flight against the sky. The foreground shows a body of water with some rocks or debris visible.

Love conquers all – love is
the grace that transcends any
kind of injustice in the end.

certain types of foods colors love interests and a myriad of other types of conditioning surface and make us and the world what it has become The questions abound Are minds connected Is your past effecting your present Does the unconscious affect your love life What do dreams tell us about ourselves Does color affect the way we see things and respond in various circumstances Why are some people affected by physical disease and disorders and others mental problems Why do some people have different sexual orientations or gender identity and is it a choice or not Why do people use drugs and use some foods that act like drugs We are seeing all types of violence increase in today s world Why Why do some people become involved in criminal acts People too often are bothered by others who are not like themselves Why What is the underlying reality that we often miss How do we improve our lives and reach a loving perspective Most of the time we don t see things as they are but how we are All of these questions and more are answered using information from studies and research on these subjects And not from opinion What is missing from our lives is an understanding of what all encompassing love really is and put into practice Love Conquers All will make you your loved ones society and the world at large a much better place
