Love Laughter Learning:

Life Is Short (No Pun Intended) Jennifer Arnold, Bill Klein, 2016-02-09 Jennifer Arnold and Bill Klein have inspired millions as stars of TLC's hit show *The Little Couple*. Though they both have dwarfism, they have knocked down every obstacle they have encountered together with a positive can-do attitude. The show has featured the lives of Jennifer, a respected neonatologist, and Bill, a successful entrepreneur, from their marriage in 2009 to the launch of their pet shop to the adoption of their children to Jennifer's overcoming cancer. Leading with Love and Laughter Zina Sutch, Patrick Malone, 2021-05-25 Leadership has for too long been treated as a function and not as a relationship. Zina Sutch and Patrick Malone argue that successful leadership must be based on love, altruism, and empathy, and laughter, positive emotions, and joy. Science tells us that humans are deeply wired for empathy and compassion, and that our emotional selves help us make better decisions and motivate others. However, the tactics we use to train leaders bear little reflection of these advancements; we're still creating competent but emotionally distant leaders who manage human assets and lead by setting goals, deadlines, and deliverables. Zina Sutch and Patrick Malone hope to flip a light switch and illuminate above all else that leadership begins with heart and soul. Too many training programs reduce leadership to an equation, matrix, or acronym. But leadership is a relationship. It's one human helping another. The most successful leaders show they genuinely care about their employees and are well fun. It's just like any relationship. In seven succinct chapters, the authors show that people lead best when they tap into their genetically driven human nature to love and nurture, connect, and trust. Leading with love and laughter offers powerful dividends: tighter teams, stronger performance, improved morale, greater trust, more creativity, and even better health. While Sutch and Malone cite the science and offer examples, tips, and practices, their larger purpose is to reintroduce the warmth of human interaction and emotion as the foundation of what leadership is all about. Love, Laughter, and Little Annoyances Pasquale De Marco, Love is a beautiful journey, but it's not always smooth sailing. Malin,2015-05-21 Rising fossil fuel prices and concerns about greenhouse gas emissions are fostering a nuclear power renaissance and a revitalized uranium mining industry across the American West In The Price of Nuclear Power environmental sociologist Stephanie Malin offers an on the ground portrait of several uranium communities caught between the harmful legacy of previous mining booms and the potential promise of new economic development Using this context she examines how shifting notions of environmental justice inspire divergent views about nuclear power s sustainability and equally divisive forms of social activism Drawing on extensive fieldwork conducted in rural isolated towns such as Monticello Utah and Nucla and Naturita Colorado as well as in upscale communities like Telluride Colorado and incorporating interviews with community leaders environmental activists radiation regulators and mining executives Malin uncovers a fundamental paradox of the nuclear renaissance the communities most hurt by uranium s legacy such as high rates of cancers respiratory ailments and reproductive disorders were actually quick to support industry renewal She shows that many impoverished communities support mining not only because of the employment opportunities but also out of a personal identification with uranium a sense of patriotism and new notions of environmentalism But other communities such as Telluride have become sites of resistance skeptical of industry and government promises of safe mining fearing that regulatory enforcement won t be strong enough Indeed Malin shows that the nuclear renaissance has exacerbated social divisions across the Colorado Plateau threatening social cohesion Malin further illustrates ways in which renewed uranium production is not a socially sustainable form of energy development for rural communities as it is utterly dependent on unstable global markets The Price of Nuclear Power is an insightful portrait of the local impact of the nuclear renaissance and the social and environmental tensions inherent in the rebirth of uranium mining **Learning, Growing, and Thriving: Your Fantastic Four-Year-Old** Pasquale De Marco, Learning Growing and Thriving Your Fantastic Four Year Old is an indispensable guide for parents navigating the extraordinary journey of raising a four year old Written with warmth expertise
