Love Loving Matters Of Fact:

The Reasons of Love Harry G. Frankfurt, 2009-01-13 From the author of the 1 New York Times bestseller *On Bullshit* a profound meditation on how and why we love In *The Reasons of Love* leading moral philosopher and bestselling author Harry Frankfurt argues that the key to a fulfilled life is to pursue wholeheartedly what one cares about that love is the most authoritative form of caring and that the purest form of love is in a complicated way self love Through caring we infuse the world with meaning Caring provides us with stable ambitions and concerns and it shapes the framework of aims and interests within which we lead our lives Love is a nonvoluntary disinterested concern for the flourishing of what we love and self love as distinct from self indulgence is at heart of this concern The most elementary form of self love is no more than the desire to love and self love is simply a commitment to finding meaning in our lives **Love Matters More** Jared

Byas, 2020-09-08 For years Christians have argued debated and fought one another while speaking the truth in love yet we are no closer to the grace filled life Jesus modeled Biblical scholar and popular podcast host of *The Bible for Normal People* Jared Byas casts a new vision for the Christian life that's built not on certainty but on the risk of love A biblically based Christian life is not grounded in having all the answers but in a living relationship This ultimately shifts our focus from collecting the right answers to loving others deeply and authentically With stories and insights drawn from his years as a pastor professor and podcast host Jared Byas calls us back to the heart of the Bible that truth is only true when it's lived out in love In a refreshing voice that's both witty and profoundly revelatory Jared unpacks the concept of truth its meaning and why we so often fight over it He makes a compelling case for how what we believe is less important than how we believe it and that more than anything else telling the truth in love is about following Jesus For anyone who has ever felt forced to choose between truth and love acceptance and rightness this book offers a path forward beyond truth wars and legalistic religion to a love that matters more **Love's Vision** Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's *Symposium* love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and

human concern The Oxford Handbook of the Philosophy of Love Christopher Grau, Aaron Smuts, 2024 The Oxford Handbook of the Philosophy of Love offers a wide array of original essays from leading philosophers on the nature and value of love **The Bookman** , 1902 Ecological Ethics and the Philosophy of Simone Weil Kathryn Lawson, 2024-05-13 This book places the philosophy of Simone Weil into conversation with contemporary environmental concerns in the Anthropocene The book offers a systematic interpretation of Simone Weil making her ethical philosophy more accessible to non Weil scholars Weil s work has been influential in many fields including politically and theologically based critiques of social inequalities and suffering but rarely linked to ecology Kathryn Lawson argues that Weil s work can be understood as offering a coherent approach with potentially widespread appeal applicable to our ethical relations to much more than just other human beings She suggests that the process of decreation in Weil is an expansion of the self which might also come to include the surrounding earth and a vast assemblage of others This allows readers to consider what it means to be human in this time and place and to contemplate our ethical responsibilities both to other humans and also to the more than human world Ultimately the book uses Weil s thought to decanter the human being by cultivating human actions towards an ecological ethics This book will be useful for Simone Weil scholars and academics as well as students and researchers interested in environmental ethics in departments of comparative literature theory and criticism philosophy and environmental studies Free Will Sam Harris, 2012-03-06 From the New York Times bestselling author of The End of Faith a thought provoking brilliant and witty Oliver Sacks look at the notion of free will and the implications that it is an illusion A belief in free will touches nearly everything that human beings value It is difficult to think about law politics religion public policy intimate relationships morality as well as feelings of remorse or personal achievement without first imagining that every person is the true source of his or her thoughts and actions And yet the facts tell us that free will is an illusion In this enlightening book Sam Harris argues that this truth about the human mind does not undermine morality or diminish the importance of social and political freedom but it can and should change the way we think about some of the most important questions in life **Love and Saint Augustine** Hannah Arendt, 2014-12-10 The brilliant thinker who taught us about the banality of evil explores another brilliant thinker and his concept of love Hannah Arendt the author of The Origins of Totalitarianism and The Human Condition began her scholarly career with an exploration of Saint Augustine s concept of caritas or neighborly love written under the direction of Karl Jaspers and the influence of Martin Heidegger After her German academic life came to a halt in 1933 Arendt carried her dissertation into exile in France and years later took the same battered and stained copy to New York During the late 1950s and early 1960s as she was completing or reworking her most influential studies of political life Arendt was simultaneously annotating and revising her dissertation on Augustine amplifying its argument with terms and concepts she was using in her political works of the same period The dissertation became a bridge over which Arendt traveled back and forth between 1929 Heidelberg and 1960s New York carrying with her

Augustine's question about the possibility of social life in an age of rapid political and moral change. In *Love and Saint Augustine*, political science professor Joanna Vecchiarelli Scott and philosophy professor Judith Chelius Stark make this important early work accessible for the first time. Here is a completely corrected and revised English translation that incorporates Arendt's own substantial revisions and provides additional notes based on letters, contracts, and other documents, as well as the recollections of Arendt's friends and colleagues during her later years. Both the dissertation and the accompanying essay are accessible to informed lay readers. Scott and Stark's conclusions about the cohesive evolution of Arendt's thought are compelling but leave room for continuing discussion. *Library Journal* A revelation *Kirkus Reviews*

When Angels Speak of Love bell hooks, 2007-02-06 Feminist icon bell hooks reminds us of the full spectrum of feeling we spend in love through her inspiring collection of love poetry with a new introduction by Cole Arthur Riley, author of *Black Liturgies*. Written from the heart, *When Angels Speak of Love* is a book of fifty love poems by bell hooks, one of our most beloved public intellectuals and author of over twenty books, including the bestselling *All About Love*. Poem after poem hooks challenges our views and experiences with love, tracing the links between seduction and surrender, the intensity of desire and the anguish of death. Love must clean house: choose memories to keep and memories to let go, she writes. These verses are expansive yet accessible, encompassing romantic love to love of family, friends, or oneself. In any iteration, these poems remind us of both the beauty and possibility of love. *God's Rule on Earth* Abraham Panampara, 2008 **Truth that Matters** Keavin Hayden, 2002 In this book, Keavin Hayden spotlights essential spiritual truths that everyone needs to know but few take the time to discover for themselves. Truth about the spiritual powers that influence our lives. Truth about the future of our world. Truth that can help you make important decisions. **Loving Bravely** Alexandra H. Solomon, 2017-02-02 As seen on *The TODAY Show*: A godsend to anyone searching for but struggling to find true love in their lives. Kristin Neff, PhD, author of *Self-Compassion*: Empowering and compassionate, and its lessons are universal. Publishers Weekly: Real love starts with you. In order to attract a life partner and build a healthy intimate relationship, you must first become a good partner to yourself. This book offers twenty invaluable lessons that will help you explore and commit to your own emotional and psychological well-being so you can be ready, resilient, and confident in love. Many of us enter into romantic relationships full of expectation and hope, only to be sorely disappointed by the realization that the partner we've selected is a flawed human being with their own neuroses, history, and desires. Most relationships end because one or both people haven't done the internal work necessary to develop self-awareness and take responsibility for their own experiences. We've all heard: You can't love anyone unless you love yourself. But amid life's distractions and the myth of perfect romantic love, how exactly do you do that? In *Loving Bravely*, psychologist, professor, and relationship expert Alexandra H. Solomon introduces the idea of relational self-awareness, encouraging you to explore your personal history to gain an understanding of your own relational patterns, as well as your strengths and weaknesses in relationships. By doing so, you'll learn what relationships actually require beyond the

fairytale notions of romance And by maintaining a steady but gentle focus on yourself you ll build the best possible foundation for making a loving connection By understanding your past relationship experiences cultivating a strong sense of self awareness and determining what it is you really want in a romantic partner you ll be ready to find the healthy lasting love your heart desires **Socrates' Daimonic Art** Elizabeth S. Belfiore,2012-03-08 Despite increasing interest in the figure of Socrates and in love in ancient Greece no recent monograph studies these topics in all four of Plato s dialogues on love and friendship This book provides important new insights into these subjects by examining Plato s characterization of Socrates in Symposium Phaedrus Lysis and the often neglected Alcibiades I It focuses on the specific ways in which the philosopher searches for wisdom together with his young interlocutors using an art that is erotic not in a narrowly sexual sense but because it shares characteristics attributed to the daimon Eros in Symposium In all four dialogues Socrates art enables him like Eros to search for the beauty and wisdom he recognizes that he lacks and to help others seek these same objects of er s Belfiore examines the dialogues as both philosophical and dramatic works and considers many connections with Greek culture including poetry and theater Collier's Once a Week ,1903 **Tiny Beautiful Things** Cheryl Strayed,2012-07-10 NATIONAL BESTSELLER Soon to be a Hulu Original series The internationally acclaimed author of Wild collects the best of The Rumpus s Dear Sugar advice columns plus never before published pieces Rich with humor and insight and absolute honesty this wise and compassionate New York Times Book Review book is a balm for everything life throws our way Life can be hard your lover cheats on you you lose a family member you can t pay the bills and it can be great you ve had the hottest sex of your life you get that plum job you muster the courage to write your novel Sugar the once anonymous online columnist at The Rumpus now revealed as Cheryl Strayed author of the bestselling memoir Wild is the person thousands turn to for advice **Lost Loves** Andrew Grof,2015-09-01 In this first person account a composer confronts cancer as well as an increasingly debilitating dementia that threatens to rob him of both his past and his present In something of a last ditch effort he does his best to resurrect nearly forgotten loves as well as the music of the greats that once sustained him In the process he finds the past no less difficult to deal with than his present and is forced to confront a most unflattering image of himself The crisp yet lyrical writing is crisp yet lyrical and alternates between staccato and legato depending on the particular stages of the composer s illness The Hamlet like narrator is at once dangerously close and forbiddingly distant from the reader with a climax in death s full assault with hitherto hidden revelations Prudentia ,1990

Thinking About Love Diane Enns,Antonio Calcagno,2015-11-10 Does love command an ineffability that remains inaccessible to the philosopher Thinking About Love considers the nature and experience of love through the writing of well known Continental philosophers such as Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how

one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton
