**Internet and Emotions** Tova Benski, Eran Fisher, 2013-11-07 Nothing seems more far removed from the visceral bodily experience of emotions than the cold rational technology of the Internet But as this collection shows the internet and emotions intersect in interesting and surprising ways Internet and Emotions is the fruit of an interdisciplinary collaboration of scholars from the sociology of emotions and communication and media studies It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media The book fills a substantial gap in the social research of digital technology and examines whether the internet invokes emotional states differently from other media and unmediated situations how emotions are mobilized and internalized into online practices and how the social definitions of emotions are changing with the emergence of the internet It explores a wide range of behaviors and emotions from love to mourning anger resentment and sadness What happens to our emotional life in a mediated disembodied environment without the bodily element of physical co presence to set off

emotional exchanges Are there qualitatively new kinds of emotional exchanges taking place on the internet These are only some of the questions explored in the chapters of this book with quite surprising answers Intimacy on the Internet Lauren Rosewarne,2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy Love Tom Inglis,2013 Love is a dominant theme in Western popular culture It has become central to the meaning of everyday life propagated through the media and the market Being in love is idealized In this highly accessible introduction to love of all kinds Tom Inglis gives a clear concise picture of how love shapes and is shaped by society How is romantic love linked to capitalism What is the difference between loving and liking How does love link to hate shame and pride Inglis addresses all these questions and looks at how today s changing circumstances globalization and increased mobility have changed our perceptions of love and relationships On Romantic Love Berit Brogaard,2015 Romantic love presents some of life s most challenging questions Can we choose who to love Is romantic love rational Can we love more than one person at a time And can we make ourselves fall out of love In On Romantic Love Berit Brogaard attempts to get to the bottom of love s many contradictions This short book informed by both historical and cutting edge philosophy psychology and neuroscience combines a new theory of romantic love with entertaining anecdotes from real life and accessible explanations of the neuroscience underlying our wildest passions Against the grain Brogaard argues that love is an emotion that it can be at turns both rational and irrational and that it can be manifested in degrees We can love one person more than another and we can love a person a little or a lot or not at all And love isn t even always something we consciously feel However love like other emotions both conscious and not is subject to rational control and falling in or out of it can be a deliberate choice This engaging and innovative look at a universal topic featuring original line drawings by illustrator Gareth Southwell illuminates the processes behind heartbreak obsession jealousy attachment and more *Children and the Internet* Sonia Livingstone,2009-07-27 A major new contribution to the hot topic of children and the internet from one of the world s leading researchers in this area It considers children s everyday practices of internet use in relation to the complex socio cultural conditions of contemporary childhood **Love and**

**Technology** Fabian Broeker, 2023-12-22 *Love and Technology: An Ethnography of Dating App Users in Berlin* explores how dating apps fit into Berlin's unique dating culture and brand of intimacy and form a tangible nucleus around which users navigate dating rituals, romantic biographies and digitally mediated intimacies within city space. Drawing on the field of digital anthropology, this book takes the form of an immersive ethnography resulting from 13 months of fieldwork with young dating app users across Tinder, Bumble and OkCupid in Berlin. It argues that dating apps offer or impose, depending on their context of use, a series of affordances. These affordances and the technological devices they rely upon exist through the relation between users and their environment, both in terms of physical spaces and cultural frameworks. The book posits that dating apps are woven into spatial practices and self-narrativisation, constituting imagined communities for their users as well as a canvas alongside the city of Berlin against which to characterise romantic experiences. Scholars interested in digital anthropology, ethnography, dating and regional Berlin will find that *Love and Technology* offers a vibrant springboard for thinking through both theoretical and methodological concerns.

**In My Heart** Jo Witek, 2014-10-14 Sometimes my heart feels like a big yellow star, shiny and bright. I smile from ear to ear and twirl around so fast I feel as if I could take off into the sky. This is when my heart is happy. Happiness, sadness, bravery, anger, shyness: our hearts can feel so many feelings. Some make us feel as light as a balloon, others as heavy as an elephant. *In My Heart* explores a full range of emotions, describing how they feel physically inside. With language that is lyrical but also direct, toddlers will be empowered by this new vocabulary and able to practice articulating and identifying their own emotions. With whimsical illustrations and an irresistible die-cut heart that extends through each spread, this unique feelings book is gorgeously packaged. The Growing Hearts series celebrates the milestones of a toddler's emotional development, from conquering fears and expressing feelings to welcoming a new sibling.

**The Philosophy of Sex** Raja Halwani, Alan Soble, Sarah Hoffman, Jacob M. Held, 2017-09-15 This best-selling volume examines the nature, morality and social meanings of contemporary sexual phenomena. Updated and new discussion questions offer students starting points for debate in both the classroom and the bedroom.

**The Structure of Digital Partner Choice** Andreas Schmitz, 2016-11-01 This work approaches the modern phenomenon of online dating, examining the ways people make use of its technical and social potential. In particular, the users' mate preferences, choices, strategies and interactions are analyzed using the innovative method of click-stream observations and web questionnaire data. For the purpose of these analyses, two major theories are used: an explicit theory of individual mate choice and the more general relational theory developed by Pierre Bourdieu, which helps to highlight the social structures both underlying and resulting from mating online. Results show that online dating is not a partner market free from social structure, but that the traditional social conditions found offline are also reproduced in this virtual setting. In contrast to the picture drawn by media discourse and advertising, online dating represents a partner market which fulfills the promise of happiness in a socially differential way.

**Leading a Worthy Life** Leon R. Kass, 2017-12-19 Most American young people like their ancestors harbor

desires for a worthy life a life of meaning a life that makes sense But they are increasingly confused about what such a life might look like and how they might in the present age be able to live one With a once confident culture no longer offering authoritative guidance the young are now at sea regarding work family religion and civic identity The true the good and the beautiful have few defenders and the higher cynicism mocks any innocent love of wisdom or love of country We are super competent regarding efficiency and convenience we are at a loss regarding what it s all for Yet because the old orthodoxies have crumbled our interesting time paradoxically offers genuine opportunities for renewal and growth The old Socratic question How to live suddenly commands serious attention Young Americans if liberated from the prevailing cynicism will readily embrace weighty questions and undertake serious quests for a flourishing life All they and we need is encouragement This book provides that necessary encouragement by illuminating crucial and still available aspects of a worthy life and by defending them against their enemies With chapters on love family and friendship human excellence and human dignity teaching learning and truth and the great human aspirations of Western civilization it offers people who are looking on their own for meaning and as well as to people who are looking to deepen what they have been taught or to square it with the spirit of our time

**Online Dating as A Strategic Game** Maurice Kwok-to Choi, Kwok-bun Chan, 2013-12-03 Based on a study using online ethnography as the major research method this book explains why and how men in Hong Kong use QQ an online instant messenger to chase women in mainland China especially in the neighboring city of Shenzhen Chasing women through

QQ is a reciprocal exchange process during which the resources to be exchanged in the interaction are not negotiated. Rather, the men provide resources to the women hoping for rewards in return that are not guaranteed. This characteristic of the exchange makes men who chase women through QQ very strategic in their action. They try to maximize the rewards and minimize the costs by adopting myriad strategies such as constructing an attractive online identity by strategic self presentation. The role of emotions in the exchange process is also examined. Men learn the emotional norms through the online forum but sometimes it is difficult for them to control their emotions; some men fall in love when they are not supposed to. As it happens, they have failed to calculate the costs and rewards rationally in that they may provide too many resources to the women without getting enough rewards in return. This book provides original insights into the thought processes, motivations, desires, anxieties, and risks of Hong Kong men seeking short-term sexual relations with women on the mainland. These insights are highly relevant to our understanding of the quickly evolving use of social media, a phenomenon of worldwide importance and deep implications.
