Love And Its Place In Nature:

Love and Its Place in Nature Jonathan Lear,1991 Love and Its Place in Nature Jonathan Lear,1998-01-01 Jonathan Lear has shown us both Freud's texts and his subject matter from a new angle of vision one that renders much recent controversy about psychoanalytic theory irrelevant For any student of those texts this book is indispensable Alasdair MacIntyre Lear makes one understand how psychoanalysis works not only on the therapist's couch but also as a condition of being alive Love and Its Place in Nature not only offers a form of spiritual nutriment for the self it also defines that self with a clear profundity that few readers will have encountered before Christopher Lehmann Haupt New York Times A brief and engaging philosophical perspective on Freudian psychoanalysis The book is simply written but important themes are profoundly investigated An important philosophic reading of Freud Don Browning Christian Century In this brilliant book Jonathan Lear argues that Freud posits love as a basic force in nature one that makes individuation the condition for psychological health and development possible Love is active not just in the development of the individual but also in individual analysis and indeed in the development of psychoanalysis itself says Lear Expanding on philosophical conceptions of love nature and mind Lear shows that love can cure because it is the force that makes us human *Love and Its Place in Nature* Jonathan Lear,1999-04-01 This book is at once a passionate and a rigorously argued exploration of the value of psychoanalysis the nature of the individual and the power of love Freud was not the first to consider the nature of the individual but the method of inquiry he crafted and the developmental force he uncovered began a scientific revolution that is still in progress Chapters catharsis fantasy and reality the interpretation of dreams what is sex Beginning where Freud left off Lear shows that love the force that makes us human is active not just in the development of the individual but also in individual analysis and in the development of psychoanalysis **Love and Its Place in Nature** Jonathan Lear (Filosofo.),1998 Consciousness and Its Place in Nature Galen Strawson,Anthony Freeman,2024-05-07 Panpsychism is the philosophical view that consciousness mentality or mindedness in some form is fundamental in the universe The idea has existed for centuries but only recently has it had a serious resurgence Galen Strawson has been on the front line of the battlefield on the topic of panpsychism since the 1990s His paper on realistic monism contained in this volume and originally published in 2006 is now considered something of a classic and a catalyst for panpsychism's recent revival This long overdue new edition of the book gives the original commentators where they feel they have something more to add an opportunity to update their thinking on the topic of panpsychism in general and Strawson's realistic monism in particular Seven new postscripts are included which aim to enhance the original collection and push the discussion onwards Eighteen years have passed since the first edition of this groundbreaking volume and Strawson remains a distinctive and important voice in the field the new edition is a must read for all who are interested in consciousness studies *The Nature and Nurture of Love* Marga Vicedo,2013-05-16 The notion that maternal care and love will determine a child's emotional well being and future

personality has become ubiquitous In countless stories and movies we find that the problems of the protagonists anything from the fear of romantic commitment to serial killing stem from their troubled relationships with their mothers during childhood How did we come to hold these views about the determinant power of mother love over an individual s emotional development And what does this vision of mother love entail for children and mothers In *The Nature and Nurture of Love* Marga Vicedo examines scientific views about children s emotional needs and mother love from World War II until the 1970s paying particular attention to John Bowlby s ethological theory of attachment behavior Vicedo tracks the development of Bowlby s work as well as the interdisciplinary research that he used to support his theory including Konrad Lorenz s studies of imprinting in geese Harry Harlow s experiments with monkeys and Mary Ainsworth s observations of children and mothers in Uganda and the United States Vicedo s historical analysis reveals that important psychoanalysts and animal researchers opposed the project of turning emotions into biological instincts Despite those substantial criticisms she argues that attachment theory was paramount in turning mother love into a biological need This shift introduced a new justification for the prescriptive role of biology in human affairs and had profound and negative consequences for mothers and for the valuation of mother love

The Home Place Joseph Drew Lanham, 2016 In me there is the red of miry clay the brown of spring floods the gold of ripening tobacco All of these hues are me I am in the deepest sense colored From these fertile soils of love land identity family and race emerges *The Home Place* a big hearted unforgettable memoir by ornithologist and professor of ecology J Drew Lanham Dating back to slavery Edgefield County South Carolina a place easy to pass by on the way somewhere else has been home to generations of Lanhams In *The Home Place* readers meet these extraordinary people including Drew himself who over the course of the 1970s falls in love with the natural world around him As his passion takes flight however he begins to ask what it means to be the rare bird the oddity By turns angry funny elegiac and heartbreaking *The Home Place* is a remarkable meditation on nature and belonging at once a deeply moving memoir and riveting exploration of the contradictions of black identity in the rural South and in America today

Why We Love Helen Fisher, 2005-01-02 A groundbreaking exploration of our most complex and mysterious emotion Elation mood swings sleeplessness and obsession these are the tell tale signs of someone in the throes of romantic passion In this revealing new book renowned anthropologist Helen Fisher explains why this experience which cuts across time geography and gender is a force as powerful as the need for food or sleep *Why We Love* begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love She proves at last what researchers had only suspected when you fall in love primordial areas of the brain light up with increased blood flow creating romantic passion Fisher uses this new research to show exactly what you experience when you fall in love why you choose one person rather than another and how romantic love affects your sex drive and your feelings of attachment to a partner She argues that all animals feel romantic attraction that love at first sight comes out of nature and that human romance evolved for crucial reasons of

survival Lastly she offers concrete suggestions on how to control this ancient passion and she optimistically explores the future of romantic love in our chaotic modern world Provocative enlightening and persuasive Why We Love offers radical new answers to the age old question of what love is and thus provides invaluable new insights into keeping love alive *The Sacred Balance* David Suzuki,2009-05-01 In this extensively revised and enlarged edition of his best selling book David Suzuki reflects on the increasingly radical changes in nature and science from global warming to the science behind mother baby interactions and examines what they mean for humankind s place in the world The book begins by presenting the concept of people as creatures of the Earth who depend on its gifts of air water soil and sun energy The author explains how people are genetically programmed to crave the company of other species and how people suffer enormously when they fail to live in harmony with them Suzuki analyzes those deep spiritual needs rooted in nature that are a crucial component of a loving world Drawing on his own experiences and those of others who have put their beliefs into action The Sacred Balance is a powerful passionate book with concrete suggestions for creating an ecologically sustainable satisfying and fair future by rediscovering and addressing humanity s basic needs *Love* Simon May,2011-07-19 What is love May plunders Western poetry philosophy and psychology to find answers Thought provoking stuff The Sunday Telegraph Love unconditional selfless unchanging sincere and totally accepting is worshipped today as the West s only universal religion To challenge it is one of our few remaining taboos In this path breaking and superbly written book philosopher Simon May does just that dissecting our ideas of love and showing how they are the product of a long and powerful cultural heritage Tracing over twenty five hundred years of human thought and history May shows how our idea of love developed from its Hebraic and Greek origins alongside Christianity until during the last two centuries God is love became love is God so hubristic so escapist so untruthful to the real nature of love that it has booby trapped relationships everywhere with deluded expectations Brilliantly May explores the very different philosophers and writers both skeptics and believers who dared to think differently from Aristotle s perfect friendship and Ovid s celebration of sex and the chase to Rousseau s personal authenticity Nietzsche s affirmation Freud s concepts of loss and mourning and boredom in Proust Against our belief that love is an all powerful solution to finding meaning security and happiness in life May reveals with great clarity what love actually is and what it means The most persuasive account of love s nature I have ever read Financial Times Intellectually engaging Provocative The Wall Street Journal *The Arabic Freud* Omnia El Shakry,2017-08-29 The first in depth look at how postwar thinkers in Egypt mapped the intersections between Islamic discourses and psychoanalytic thought In 1945 psychologist Yusuf Murad introduced an Arabic term borrowed from the medieval Sufi philosopher and mystic Ibn Arabi al la shu ur as a translation for Sigmund Freud s concept of the unconscious By the late 1950s Freud s Interpretation of Dreams had been translated into Arabic for an eager Egyptian public In The Arabic Freud Omnia El Shakry challenges the notion of a strict divide between psychoanalysis and Islam by tracing how postwar thinkers in Egypt blended psychoanalytic theories with concepts from

classical Islamic thought in a creative encounter of ethical engagement Drawing on scholarly writings as well as popular literature on self healing El Shakry provides the first in depth examination of psychoanalysis in Egypt and reveals how a new science of psychology or science of the soul as it came to be called was inextricably linked to Islam and mysticism She explores how Freudian ideas of the unconscious were crucial to the formation of modern discourses of subjectivity in areas as diverse as psychology Islamic philosophy and the law Founding figures of Egyptian psychoanalysis she shows debated the temporality of the psyche mystical states the sexual drive and the Oedipus complex while offering startling insights into the nature of psychic life ethics and eros This provocative and insightful book invites us to rethink the relationship between psychoanalysis and religion in the modern era Mapping the points of intersection between Islamic discourses and psychoanalytic thought it illustrates how the Arabic Freud like psychoanalysis itself was elaborated across the space of human difference

The Mind and its Place in Nature C.D. Broad,2014-06-03 This is Volume III of eight in a collection on the Philosophy of the Mind and Language Originally published in 1925 this text looks at alternative theories of life and mind at the level of enlightened common sense the Mind s knowledge of Existents and the Unconscious *Politics of Nature* Bruno Latour,2004-04-30 What is to be done with political ecology Why political ecology has to let go of nature How to bring the collective together A new separation of power Skills for the collective Exploring common worlds What is to be done political ecology The Life of Plants Emanuele Coccia,2019-01-16 We barely talk about them and seldom know their names Philosophy has always overlooked them even biology considers them as mere decoration on the tree of life And yet plants give life to the Earth they produce the atmosphere that surrounds us they are the origin of the oxygen that animates us Plants embody the most direct elementary connection that life can establish with the world In this highly original book Emanuele Coccia argues that as the very creator of atmosphere plants occupy the fundamental position from which we should analyze all elements of life From this standpoint we can no longer perceive the world as a simple collection of objects or as a universal space containing all things but as the site of a veritable metaphysical mixture Since our atmosphere is rendered possible through plants alone life only perpetuates itself through the very circle of consumption undertaken by plants In other words life exists only insofar as it consumes other life removing any moral or ethical considerations from the equation In contrast to trends of thought that discuss nature and the cosmos in general terms Coccia s account brings the infinitely small together with the infinitely big offering a radical redefinition of the place of humanity within the realm of life

Thinking About Love Diane Enns,Antonio Calcagno,2015-11-10 Does love command an ineffability that remains inaccessible to the philosopher Thinking About Love considers the nature and experience of love through the writing of well known Continental philosophers such as Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how

one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton

Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's *Symposium* love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and human concern

Two Trees Make a Forest Jessica J. Lee, 2020-08-04 This stunning journey through a country that is home to exhilarating natural wonders and a scarring colonial past makes breathtakingly clear the connection between nature and humanity and offers a singular portrait of the complexities inherent to our ideas of identity family and love Refinery29 A chance discovery of letters written by her immigrant grandfather leads Jessica J Lee to her ancestral homeland Taiwan There she seeks his story while growing closer to the land he knew Lee hikes mountains home to Formosan flamecrests birds found nowhere else on earth and swims in a lake of drowned cedars She bikes flatlands where spoonbills alight by fish farms and learns about a tree whose fruit can float in the ocean for years awaiting landfall Throughout Lee unearths surprising parallels between the natural and human stories that have shaped her family and their beloved island Joyously attentive to the natural world Lee also turns a critical gaze upon colonialist explorers who mapped the land and named plants relying on and often effacing the labor and knowledge of local communities *Two Trees Make a Forest* is a genre shattering book encompassing history travel nature and memoir an extraordinary narrative showing how geographical forces are interlaced with our family stories

Machiavelli in Love Haig Patapan, 2006-01-01 *Machiavelli in Love* argues that the key to modernity is its understanding of love This understanding a reformulation of classical eros and Christian agape and caritas accounts for significant aspects of modern political thought and practice ranging from its conception of beauty to its

theories of power and constitutionalism to its understanding of philosophy To explore this modern conception of love Haig Patapan returns to Machiavelli and the origins of modernity where the radical nature of the proposed changes compelled detailed elaboration and defence allowing us to discern with greater clarity the choices faced and the claims advanced Machiavelli in Love examines Machiavelli's modern understanding of love and its political and philosophical consequences by relying on the distinctions he himself makes between his epistolary poetical and political works Each chapter of the book engages different facets of his thought to yield a comprehensive appreciation of Machiavellian love and fear and its implication for modernity Machiavelli in Love is a unique and fascinating book that will appeal to students and scholars in fields as diverse as intellectual history philosophy and political science

Mortal Subjects Christina Howells, 2011-12-12 This wide ranging and challenging book explores the relationship between subjectivity and mortality as it is understood by a number of twentieth century French philosophers including Sartre Lacan Levinas and Derrida Making intricate and sometimes unexpected connections Christina Howells draws together the work of prominent thinkers from the fields of phenomenology and existentialism religious thought psychoanalysis and deconstruction focussing in particular on the relations between body and soul love and death desire and passion From Aristotle through to contemporary analytic philosophy and neuroscience the relationship between mind and body psyche and soma consciousness and brain has been persistently recalcitrant to analysis and emotion or passion is the locus where the explanatory gap is most keenly identified This problematic forms the broad backdrop to the work's primary focus on contemporary French philosophy and its attempts to understand the intimate relationship between subjectivity and mortality in the light not only of the death of the classical subject but also of the very real frailty of the subject as it lives on finite desiring embodied open to alterity and always incomplete Ultimately Howells identifies this vulnerability and finitude as the paradoxical strength of the mortal subject and as what permits its transcendence Subtle beautifully written and cogently argued this book will be invaluable for students and scholars interested in contemporary theories of subjectivity as well as for readers intrigued by the perennial connections between love and death
