thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms

Mist Miguel de Unamuno, 2014 *Mist Niebla* published in 1914 is one of Miguel de Unamuno's key works a truly Modernist work of Europe wide significance which aims to shatter the conventions of fiction using the novel as a vehicle for exploration of philosophical themes The plot revolves around the character of Augusto a wealthy intellectual and introverted young man and his love affair with Eugenia which eventually ends in heartbreak Augusto decides to kill himself but decides that he needs to consult Unamuno himself who had written an article on suicide which Augusto had read When Augusto speaks with Unamuno the truth is revealed that Augusto is actually a fictional character whom Unamuno has created Augusto is not real Unamuno explains and for that reason cannot kill himself Augusto asserts that he exists even though he acknowledges internally that he doesn't and threatens Unamuno by telling him that he is not the ultimate author Augusto reminds Unamuno that he might be just one of God's dreams Augusto dies and the book ends with the author himself debating to himself about bringing back the character of Augusto He establishes however that this would not be feasible Following on from his translation of Abel Sanchez John Macklin's edition provides a much needed new English translation alongside the Spanish text together with a substantial introduction

Writing Teresa Denise DuPont, Southern Methodist University, 2011-12-16 *Writing Teresa* examines the essays and works of five turn of the twentieth century authors devoted to Teresa de Jesus St Teresa of Avila 1515-1582

Self-conscious Art Susan L. Fischer, 1996 Self-conscious art constitutes a significant and previously neglected feature of modern literature and is a crucial concern of contemporary criticism The essays in this volume consider such questions as the limits of self-consciousness the creative and circumstantial tensions that produce its various features the ludic nature of art the role of interpretation and the aesthetic social and mythic reverberations of self-reflexive art

On Paper Nicholas A. Basbanes, 2014-07-01 A Best Book of the Year Mother Jones Bloomberg News National Post Kirkus In these pages Nicholas Basbanes the consummate bibliophile's bibliophile shows how paper has been civilization's constant companion It preserves our history and gives record to our very finest literary cultural and scientific accomplishments Since its invention in China nearly two millennia ago the technology of paper has spread throughout the inhabited world With deep knowledge and care Basbanes traces paper's trail from the earliest handmade sheets to the modern day mills Paper yoked to politics has played a crucial role in the unfolding of landmark events from the American Revolution to Daniel Ellsberg's Pentagon Papers to the aftermath of 9/11 Without paper modern hygienic practice would be unimaginable as currency people will do almost anything to possess it and as a tool of expression it is inextricable from human culture Lavishly researched compellingly written this masterful guide illuminates paper's endless possibilities

The Revolt of Unreason Michael Candelaria, 2012-01-01 This book examines solutions to the crisis of modernity proposed by the Spanish philosopher Miguel de Unamuno and the Mexican philosopher Antonio Caso Acceptance of the objective claims of modern scientific rationality and the consequent rejection of

the objective validity of artistic moral and religious claims generates the crisis of modernity The problem is that of justifying artistic moral and religious claims Miguel de Unamuno in his classic work *The Tragic Sense of Life* addresses the conflict between the belief in personal immortality and modern scientific rationality Holding that there is no rational justification for the belief in immortality Unamuno finds a solution in a saving scepticism to act as if he deserved immortality In his book *Existence as Economy as Art and Charity* Caso attempts to create an *a posteriori* metaphysics based on the current results of science supplemented by the intuitions of art and morality In doing so Caso believes that he has enlarged the scope of the knowable to include objects of art morality and religion Unamuno by accepting the strict line of demarcation between faith and reason has no other recourse but to turn to decisionism By turning to intuitionism Caso believes that he has blurred the line of demarcation Decisionism and intuitionism therefore are worthy of further exploration Uncovering the Mind Alison Sinclair, 2001 Migrant architects of the NHS draws on forty five oral history interviews and extensive archival research to offer a radical reappraisal of how the National Health Service was made It tells the story of migrant South Asian doctors who became general practitioners in the NHS Imperial legacies professional discrimination and an exodus of UK trained doctors combined to direct these doctors towards work as GPs in some of the most deprived parts of the UK In some areas they made up over half of the general practitioner workforce The NHS was structurally dependent on them and they shaped British society and medicine through their agency Aimed at students and academics with interests in the history of immigration immigration studies the history of medicine South Asian studies and oral history It will also be of interest to anyone who wants to know more about how Empire and migration have contributed to making Britain what it is today The Cambridge Companion to Modern Spanish Culture David T. Gies, 1999-02-25 This book offers a comprehensive account of modern Spanish culture tracing its dramatic and often unexpected development from its beginnings after the Revolution of 1868 to the present day Specially commissioned essays by leading experts provide analyses of the historical and political background of modern Spain the culture of the major autonomous regions notably Castile Catalonia and the Basque Country and the country's literature narrative poetry theatre and the essay Spain's recent development is divided into three main phases from 1868 to the outbreak of the Spanish Civil War the period of the dictatorship of Francisco Franco and the post Franco arrival of democracy The concept of Spanish culture is investigated and there are studies of Spanish painting and sculpture architecture cinema dance music and the modern media A chronology and guides to further reading are provided making the volume an invaluable introduction to the politics literature and culture of modern Spain *Abel Sanchez and Other Stories* Miguel De Unamuno, 2015-11-17 Delve into three of Spanish philosopher Miguel de Unamuno's most haunting parables This essential Unamuno reader begins with the full length novel *Abel Sanchez* a modern retelling of the story of Cain and Abel Also included are two remarkable short stories *The Madness of Doctor Montarco* and *San Manuel Bueno Martyr* featuring quixotic philosophically existential characters confronted by the dull ache of modernity Translated by Anthony Kerrigan and

with an insightful introduction by Mario J Valdes *Pessoa in an International Web* David G. Frier, 2017-12-02 Fernando Pessoa 1888 1935 is Portugal's most celebrated poet of the twentieth century who wrote under the guise of dozens of literary personalities or heteronyms. As well as his poetry however his work is marked by a constantly inventive and innovative engagement with authors and literary traditions from an astonishing variety of sources placing him firmly in the worldwide literary canon. The present volume brings together a number of experts at the forefront of Pessoa studies internationally with chapters examining his literary relations with Italy Spain France England and Portugal as well as his contextualisation in relation to major philosophers such as Kant and Nietzsche. It features essays examining his work from a range of perspectives to complement the multi-faceted nature of Pessoa himself: psychoanalytical philosophical political and artistic and it includes consideration of his prose masterpiece *The Book of Disquiet* as well as of various aspects of his poetic oeuvre. *The Rice Institute Pamphlet*, 1929 *This Side of Philosophy* Stephen Gingerich, 2023-02-01 Struck by the contrast between the prestige of their literary tradition and their apparent philosophical insignificance modern writers from Spain have devoted themselves to exploring the relation between literature and philosophy. *This Side of Philosophy* focuses on four major authors: Miguel de Unamuno, Jos Ortega y Gasset, Antonio Machado and Mar a Zambrano who engage literary resources in order to reach beyond philosophy to the essential sources of life. Connecting their work to that of other European thinkers dedicated to illuminating the fertile interaction of literature and philosophy especially Plato Schlegel Heidegger and Derrida Stephen Gingerich makes a case for the relevance of Spanish thought to contemporary efforts to expand the ethical and theoretical powers of thinking through literature. At the same time Gingerich challenges the conventional view that contemporary Spanish thought fuses or reconciles literature and philosophy instead discerning a call to appreciate their difference in relation. For these writers literature and philosophy are repulsed by each other as inexorably as they are drawn together.

Unamuno's Religious Fictionalism Alberto Oya, 2020-09-22 This book provides a coherent and systematic analysis of Miguel de Unamuno's notion of religious faith and the reasoning he offers in defense of it. Unamuno developed a non-cognitivist Christian conception of religious faith defending it as being something which we are all naturally led to given our alleged most basic and natural inclination to seek an endless existence. Illuminating the philosophical relevance this conception still has to contemporary philosophy of religion Oya draws connections with current non-cognitivist notions of religious faith in general and with contemporary religious fictionalist positions more particularly. The book includes a biographical introduction to Miguel de Unamuno as well as lucid and clear analyses of his notions of the tragic feeling of life his epistemological paradigm and his naturally founded religious fictionalism. Revealing links to current debates Oya shows how the works of Unamuno are still relevant and enriching today. *Spain's 1898 Crisis* Joseph Harrison, Alan Hoyle, 2000-08-12 This book examines the significance of probably the most famous year in modern Spanish culture 1898 which marked her defeat in the Spanish American War. The editors have brought together 21 essays by international

specialists in the field The Student Guide to Freire's 'Pedagogy of the Oppressed' Antonia Darder, 2024-02-22 Now in its 2nd edition this book serves as companion to Freire's seminal work supporting the application of his pedagogy in enacting emancipatory educational programs in the world today The new edition includes a new chapter called Teaching Pedagogy of the Oppressed with additional dialogue questions and activities designed to support students and instructors It also includes an updated Bibliography and further reading list Antonia Darder closely examines Freire's ideas as they are articulated in Pedagogy of the Oppressed beginning with a historical discussion of his life and a systematic discussion of the central philosophical traditions that informed his revolutionary ideas Darder explores Freire's fundamental themes and ideas including issues of humanization teacher student relationship reflection dialogue praxis and his larger emancipatory vision The book also includes a chapter by chapter close reading of the text with sample questions to prompt discussion and engagement with Freire's ideas as well as a new interview with Freire's widow Ana Maria Arajo Freire and a preface by Donaldo Macedo **The Inverted Conquest** Alejandro Mejias-Lopez, 2010-02-09 Modernismo 1880s 1920s is considered one of the most groundbreaking literary movements in Hispanic history as it transformed literature in Spanish to an extent not seen since the Renaissance As Alejandro Mejias Lopez demonstrates however modernismo was also groundbreaking in another more radical way it was the first time a postcolonial literature took over the literary field of the former European metropolis Expanding Bourdieu's concepts of cultural field and symbolic capital beyond national boundaries The Inverted Conquest shows how modernismo originated in Latin America and traveled to Spain where it provoked a complete renovation of Spanish letters and contributed to a national identity crisis In the process described by Latin American writers as a reversal of colonial relations modernismo wrested literary and cultural authority away from Spain moving the cultural center of the Hispanic world to the Americas Mejias Lopez further reveals how Spanish American modernistas confronted the racial supremacist claims and homogenizing force of an Anglo American modernity that defined the Hispanic as un modern Constructing a new Hispanic genealogy modernistas wrote Spain as the birthplace of modernity and themselves as the true bearers of the modern spirit moved by the pursuit of knowledge cosmopolitanism and cultural miscegenation rather than technology consumption and scientific theories of racial purity Bound by the intrinsic limits of neocolonial and postcolonial theories scholarship has been unwilling or unable to explore modernismo's profound implications for our understanding of Western modernities
