Love And The Soul Creating A Future For Earth:

Love and the World Robert Sardello, 2001-04 From the translator's introduction In picking up this book you are about to embark on a fascinating journey It is a journey to places where according to the author many of us have already been but about which we have forgotten It is also a journey within into that psychological space where our ideas and beliefs about God spirituality and religion reside During both journeys we are likely to encounter wonder and recognition skepticism and acceptance rejection and admiration confusion and long sought understanding For some this journey will be the start of a much larger one for some it is but one more leg of a journey undertaken earlier in any case The Rose of the World is not a final destination Completed in 1959 hidden from the Soviet secret police for twenty years The Rose of the World was first made public through excerpts in the magazine Novy Mir in 1989 The Rose of the World is a unique and poetic cosmological treatise passionately written out of personal spiritual experience It offers a prophetic call for the spiritual reunification of all people and an open and harmonious relationship among the great world religions For Daniel Andreev The Rose of the world is a spiritual flower whose roots are in heaven each petal is a unique image of the great world religions and cultures and the whole flower is their joint co creation with God Lindisfarne Books is proud to publish the first English translation of this masterpiece of contemporary Russian spiritual literature a work that belongs to Russian religious thought in the tradition of Vladimir Soloviev and to the West in the tradition of Dante and Blake truly a work for the twenty first century

Love and the Soul Robert Sardello, Robert J. Sardello, 1994-12 The many readers of Thomas Moore's *Care of the Soul* will extend their understanding of soul work in this new book by Moore's longtime colleague Robert Sardello *Love and the Soul* proposes that inner work must be constantly balanced by a care for soul qualities in the world in order to avoid falling into egotism and self absorption Actively taking up the task of standing in and for the soul realm and bringing what is revealed there to action in the world is described as the creative impulse of love Love here extends beyond feelings sentiments emotions and personal concerns to an abiding interest in the future of the world Such interest in the future from the perspective of soul as love does not involve taking up political social economic or religious programs but rather the act of inner conscious awareness shaping forming and interiorizing the essence of each moment of experience leading to the capacity to experience purpose and create beauty The deeper we can enter into the individuality of soul the more possibilities for creating soul in the world become apparent Drawing on images of the Grail legend and myths of Sophia she who is called the Soul of the World Sardello develops approaches to an intelligence of the heart the world significance of grieving the transformative power of radical receptivity re enlivening the senses the creative power of dreaming and a new basis for relationships and community Based on a synthesis of the writings of C G Jung on the nature of soul James Hillman on the work of soul making and Rudolf Steiner on the formation of a spiritual culture Sardello's book establishes a ground of hope for the approaching millennium and a radically fresh direction for psychology one concerned with what we can be rather than with what has influenced us from the

past Love and the Soul Robert Sardello,2008-12-09 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert Sardello lies with the individual In this timely thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner *Love and the Soul* helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community *Apocalypse, The Transformation of Earth* Friedrich Benesch,2015-08-01 In the Revelation of St John spiritual worlds and spiritual entities appear both in images of the sensory world and in images of the mineral realm This book discusses these two sides of world manifestation It is often argued that the images of St John s Revelations are intended in a purely symbolic way If this is so the mineral appears as a symbol for something of a soul like and spiritual nature The Revelator however did not see symbols but rather realities even a symbol can be genuine only if something of the reality for which it stands shines through It must in a real way be inwardly identical with what it intends the essence from which it stems Thus it must arise from the same reality otherwise it contains no meaning The images of the minerals in the Apocalypse are just as much reality as the minerals are on Earth Neither is essential both are simply manifestations of something essential Hence both are truly apocalyptic the mineral we hold in our hand and the image we hold in our mind They reveal themselves mutually This book juxtaposes the objects of sensory appearance and natural scientific research with sayings from the Revelation of St John to express the joint background of the appearances When we connect one with the other it can lead to an encounter with the essence This is an esoteric mineralogy Friedrich Benesch enables a renewed encounter between the human being and mineral being from which essence and future can then shine out Anyone wanting to look more deeply into the Book of Revelations should read this beautifully illustrated unique work on its meaning and its significance for both today and the future of humankind and the Earth **Healthy Gaians** Richard Levitón,2007-01-02 Headline in boldface and or small caps do in 2 lines maximum The healthier we are in body mind and culture the more we can happily interact with the Spirit of Earth or Gaia who needs our attention now Main text Health how to keep it regain it or even optimize it concerns many today But we usually think of health in personal terms human terms What about the health of the Earth To be healthy rather than sick has planetary implications and *Healthy Gaians* shows you ways of improving your health to help improve the planet s Welcome to a diverse anthology of 70 articles on human health drawn from a journalistic career spanning 25 years Here are bodywork cancer the

readers a breathtaking look into God's promise for a new heaven and a new earth. This revolutionary book about our future is based on the simple idea that according to the Bible, heaven is not our eternal home; the New Earth is. As Jesus says in the gospel of Matthew, the next chapter of our story begins with the renewal of all things, by which he means the earth we love in all its beauty, our own selves, and the things that make for a rich life: music, art, food, laughter, and all that we hold dear. Everything shall be renewed when the world is made new. More than anything else, how you envision your future shapes your current experience. If you knew that God was going to restore your life and everything you love any day, if you believed a great and glorious goodness was coming to you, not in a vague heaven but right here on this earth, you would have a hope to see you through anything, an anchor for your soul, an unbreakable spiritual lifeline reaching past all appearances right to the very presence of God. Hebrews 6:19. Most Christians, most people, for that matter, fail to look forward to their future because their view of heaven is vague, religious, and frankly boring. Hope begins when we understand that for the believer, nothing is lost. Heaven is not a life in the clouds; it is not endless harp strumming or worship singing. Rather, the life we long for, the paradise Adam and Eve knew, is precisely the life that is coming to us. And that life is coming soon.

Your Soul's Love
 Robert Schwartz, 2021-04-03. In his groundbreaking first book, *Your Soul's Plan: Discovering the Real Meaning of the Life You Planned Before You Were Born*, Robert Schwartz, yoursoulsplan.com, brought the concept of pre-birth planning into the mainstream. Working again with several gifted mediums and channels, and this time incorporating the *Between Lives Soul Regressions*, he does, as a skilled hypnotist, Schwartz brings forth great wisdom and love from the other side to explain why we plan such experiences before we are born. Through the stories in *Your Soul's Love*, you can cultivate greater love and respect for both your partner and yourself. Empathize more deeply with your partner. Forgive your partner and yourself for any pain caused, thus healing your relationship. See how your romantic relationship fosters your and your partner's evolution. Evolution of the Creation and Soul
 Andreas Wolf von Guggenberger, 2023-05-16. In his work *Evolution of Creation and the Soul*, Andreas Wolf von Guggenberger describes a fascinating creation myth and presents a new ethic for our time. His original vision of the origin and genesis of creation combines scientific and spiritual theories with a deeply felt religious vision to create a stirring synthesis. In it, he describes how souls might have come into being with their levels of perception. How they communicate. How, in the ADAMEBENE in the heavens, the basic concepts for the universe and man evolved. A new perspective on the Adam-Eve myth. The origin of the universe with the evolution of human beings. He expands the concept of evolution by distinguishing between a spiritual evolution of consciousness and a material evolution of

the universe Spiritual and material interpenetrate and mutually evolve How fate mental predispositions the will and chance create each other With 154 principles of creation he describes a continuous evolution of soul and creation He shows how these principles manifest themselves simultaneously in the everyday perception of man His work has emerged from introspection research and a journey of realization He draws from his own visions which is why his concepts differ from those of other philosophers and religious thinkers
