The Presbyterian Church of East Africa Evanson N. Wamagatta, 2009 With over four million members the Presbyterian Church of East Africa PCEA is one of the major denominations in Kenya It was established in 1946 after the Gospel Missionary Society GMS from the United States of America and the Church of Scotland Mission CSM from Scotland merged The two missionary societies had been working independently in central Kenya since 1898 Consequently the GMS became the only mission in Kenya that failed to leave behind its own functioning self propagating self governing and self supporting church with links to its American mother church The Presbyterian Church of East Africa is therefore a study of the missionary work of the GMS from its inception in 1895 to 1946 when it merged with the CSM in order to establish why the mission gave up the struggle to establish its own church when victory seemed imminent The book also uses the GMS as a case study to analyze not only how Christian missions in colonial Africa struggled to win souls for Jesus Christ but also some of the major problems that they encountered and how they tried to solve them Dr. David Yonggi Cho David Yonggi Cho, 2008 A commemorative look at 50 years of Dr Cho's ministry of hope released in time for his retirement this summer Over the years as he struggled to bring hope to people and build his church God taught Dr Cho not to depend upon himself but totally upon the Holy Spirit In this book Dr Cho tells the stories of his temptations and doubts failures and successes and how the Holy Spirit was with him in every situation The teaching in this book will inspire the reader to stand strong in the face of adversity doubt and fear Followers worldwide will add this highly anticipated autobiography to their collection of Dr Cho's coveted works **Taboo** Jon Entine, 2008-08-05 In virtually every sport in which they are given opportunity to compete people of African descent dominate East Africans own every distance running record Professional sports in the Americas are dominated by men and women of West African descent Why have blacks come to dominate sports Are they somehow physically better And why are we so uncomfortable when we discuss this Drawing on the latest scientific research journalist Jon Entine makes an irrefutable case for black athletic superiority We learn how scientists have used numerous bogus scientific methods to prove that blacks were either more or less superior physically and how racist scientists have often equated physical prowess with intellectual deficiency Entine recalls the long hard road to integration both on the field and in society And he shows why it isn't just being black that matters it makes a huge difference as to where in Africa your ancestors are from Equal parts sports science and examination of why this topic is so sensitive Taboo is a book that will spark national debate Breaking Point Suzanne Brockmann, 2006-07-25 Uncommon valor in the line of duty and unconditional devotion in the name of love are the salient qualities of the daring men and women who risk it all in the heart pounding thrillers of New York Times bestselling author Suzanne Brockmann Crafted with precision and power her characters come alive with a depth of emotion few writers have achieved Now with Breaking Point Brockmann breaks even further through
