**Love in Twelfth-Century France** John C. Moore, 2016-11-11 Great is the force of love wondrous is its strength Many are the degrees of love and who can worthily distinguish among them cried the twelfth century cleric Richard of St Victor What relationships human and divine are appropriate to this protean creature man with his great gifts and imperative appetites The different answers given this question by the monks and scholars the courtly poets and bawdy ballad writers of medieval France form the substance of this graceful and perceptive book written for student and general reader alike And while the conventions of love among twelfth century Frenchmen differ from our own their efforts to comprehend its true meaning and nature have a very contemporary relevance France in the twelfth century was a bustling country of expanding economic and social horizons with a thirst for knowledge that stimulated far ranging intellectual inquiry The great classical writers the Greek and Roman Fathers of the early Church the Old and New Testaments such were the sources upon which French scholars drew For the great monastic writers love was a spiritual value achieved through unending effort and discipline The poets of the courts on the other hand celebrated erotic love in a setting of elaborate romance Only the scholars of the new urban universities sought to integrate love into a coherent explanation of man and the universe The writings of all these Abelard and Bernard of Clairvaux William of Poitiers and Andreas Capellanus have in one way or another greatly enriched our Western traditions Drawing upon a wealth of original sources and an abundant scholarly literature John C Moore has provided in his own words a pleasant meeting place for twelfth century men and women and for modern readers who share a common humanity and a common interest in love Love in Twelfth-century France John C. Moore, 1977 Love in Twelfth-century France John Clare Moore, 1972 The definitions of love given by the monks and scholars the courtly poets and bawdy ballad writers of medieval France form the substance of this graceful and perceptive book through a wealth of original sources and scholarly literature **The Art of Courtly Love** Andreas (Capellanus.), 1959 Book 1 Introduction to the treatise on love What love is Between what persons love may exist Where love gets its name What the effect of love is What persons are fit for love In what manner love may be acquired and in how many ways The love of the clergy The love of nuns Love got with money The easy attainment of one's subject The love of peasants The love of prostitutes Book 2 How love may be retained How love when it has been acquired may be kept How a love once consummated may be increased In what ways love may be decreased How love may come to an end Indications that one's love is returned If one of the lovers is unfaithful to the other Various decisions in love cases The rules of love Book 3 The rejection of love Genealogical table **The Cistercian Reform and the Art of the Book in Twelfth-Century France** Diane Reilly, 2019-01-24 This book is a study of the programmatic oral performance of the written word and its impact on art and text Communal singing and reading of the Latin texts that formed the core of Christian ritual and belief consumed many hours of the Benedictine monk's day These texts read and sung out loud memorized and copied into manuscripts were often illustrated by the very same monks who

participated in the choir liturgy The meaning of these illustrations sometimes only becomes clear when they are read in the context of the texts these monks heard read The earliest manuscripts of C teaux copied and illuminated at the same time that the new monastery s liturgy was being reformed demonstrate the transformation of aural experience to visual and textual legacy

**Making Love in the Twelfth Century** ,2016-04-29 New sparkling translations of the Letters of Two Lovers the Tegernsee Letters and selections from the Regensburg Songs Nine hundred years ago in Paris a teacher and his brilliant female student fell in love and chronicled their affair in a passionate correspondence Their 116 surviving letters some whole and some fragmentary are composed in eloquent highly rhetorical Latin Since their discovery in the late twentieth century the Letters of Two Lovers have aroused much attention because of their extreme rarity They constitute the longest correspondence by far between any two persons from the entire Middle Ages and they are private rather than institutional which means that according to all we know about the transmission of medieval letters they should not have survived at all Adding to their mystery the letters are copied anonymously in a single late fifteenth century manuscript although their style and range of reference place them squarely in the early twelfth century Can this collection of correspondence be the previously lost love letters of Abelard and Heloise And even if not what does it tell us about the lived experience of love in the twelfth century Barbara Newman contends that these teacher student exchanges bear witness to a culture that linked Latin pedagogy with the practice of ennobling love and the cult of friendship during a relatively brief period when women played an active part in that world Newman presents a new translation of these extraordinary letters along with a full commentary and two extended essays that parse their literary and intellectual contexts and chart the course of the doomed affair Included too are two other sets of twelfth century love epistles the Tegernsee Letters and selections from the Regensburg Songs Taken together they constitute a stunning contribution to the study of the history of emotions by one of our most prominent medievalists

*Courtly Love Songs of Medieval France* Mary O'Neill,2006-01-12 This book is the first full length study of the courtly love songs of the trouv re to address the central musical problems of the repertoire as a whole embracing source studies interpretation historiography and analysis The argument of the book revolves around three axes each of which is essential to the appreciation of the others problems concerning the extant manuscript tradition the crucial role of orality and stylistic changes and plurality in the repertoire For the first time a full overview of the sources and notation is undertaken This reveals the idiosyncrasies of individual manuscripts but more importantly it identifies two basic phases in the manuscript tradition The study of melodic variants reveals the performance art that lies at the heart of the courtly grand chant processes and techniques of variation are examined bringing us to a closer understanding of the tenets of the melodic art of the early trouv res A close study of select trouv res from the different generation reveals stylistic change and plurality particularly in the melodic art which in some respects was less prescribed than the poetic texts Consequently the courtly songs of the trouv res truly come alive in this book

**Aristocratic Women in Medieval France** Theodore Evergates, 2010-08-03 Were aristocratic women in medieval France little more than appendages to patrilineal families valued as objects of exchange and necessary only for the production of male heirs Such was the view proposed by the great French historian Georges Duby more than three decades ago and still widely accepted In *Aristocratic Women in Medieval France* another model is put forth women of the landholding elite from countesses down to the wives of ordinary knights had considerable rights and exercised surprising power The authors of the volume offer five case studies of women from the mid eleventh through the thirteenth centuries and from regions as diverse as Blois Chartres Champagne Flanders and Occitania They show not only the diversity of life experiences these women enjoyed but the range of social and political roles open to them The ecclesiastical and secular sources they mine confirm that women were regarded as full members of both their natal and affinal families were never excluded from inheriting and controlling property and did not have their share of family property limited to dowries Women across France exchanged oaths for fiefs and assumed responsibilities for enfeoffed knights As feudal lords they settled disputes involving vassals

fortified castles and even led troops into battle Aristocratic Women in Medieval France clearly shows that it is no longer possible to depict well born women as powerless in medieval society Demonstrating the importance of aristocratic women in a period during which they have been too long assumed to have lacked influence it forces us to reframe our understanding of the high Middle Ages Culture, Power and Personality in Medieval France John F. Benton,1991-07-01 This collection is a notable example of how the cultural history of the middle ages can be written in terms that satisfy both the historian and the literary scholar John Benton s knowledge of the personnel structure and finance of medieval courts complemented his understanding of the literature they produced **On Love and Virtue: Theological Essays** Michael S. Sherwin,2018-12-01 What does it mean to love What are the traits of character that support love s activity How does the economy of grace the mission of Christ and the action of the Holy Spirit elevate and transform human love virtue and the desire for happiness In *On Love and Virtue Theological Essays* the eminent Dominican theologian Michael Sherwin considers how the Catholic tradition has addressed these questions Fr Sherwin places this tradition in dialogue with contemporary questions Taking St Thomas Aquinas as his primary guide Fr Sherwin reads St Thomas in light of his biblical and patristic sources especially St Augustine and engages contemporary developments in philosophy in order to deepen our understanding of how grace both heals and elevates human nature Along the way Fr Sherwin considers the vocation of the theologian and the biblical and patristic understanding of the Christian call to moral apprenticeship and friendship with God Love Poetry in Sixteenth-century France Stephen Minta,1977 *Charity after Augustine* Jonathan Teubner,2024-12-07 Charity after Augustine explores why the Augustinian tradition s attempts to build solidarity in the societies of the Latin West have ended in disaster just as often as they have brought about justice Focusing on the concrete practices of love and charity almsgiving works of mercy good works Teubner demonstrates how religious leaders attempted simultaneously to bind and hold communities together while also in fits and starts to expand and include others in their communities The first part probes how Augustine s thought is put into practice informing a tradition of political action inspired by concepts of love and enacted through practices of charity In a second more expansive part Charity after Augustine turns to the ways in which the Benedictine tradition as received by Gregory the Great and Bernard of Clairvaux transforms this vision and puts it into practice in contexts radically different from those of Augustine s age At the heart of this book is an attempt to find a non idealized vision of love that can inform thick relations within a community that are not diluted but are rather strengthened by the incorporation of outsiders **Texts and the Self in the Twelfth Century** Sarah Spence,1996-12-12 Texts and the Self in the Twelfth Century analyses key twelfth century Latin and vernacular texts which articulate a subjective often autobiographical stance The contention is that the self forged in medieval literature could not have come into existence without both the gap between Latinity and the vernacular and a shift in perspective towards a visual and spatial orientation This results in a self which is not an agent that will act on the outside world like the Renaissance self but rather one which

inhabits a potential middle ground or space of agency explained here partly in terms of object relations theory      **Medieval France** William W. Kibler, 1995 Arranged alphabetically with a brief introduction that clearly defines the scope and purpose of the book Illustrations include maps B W photographs genealogical tables and lists of architectural terms      *Lettering the Self in Medieval and Early Modern France* Katherine Kong, 2010 Each chapter focuses on a particular epistolary exchange in its intellectual and cultural context from Baudri of Bourgueil and Constance of Angers through Heloise and Abelard Christine de Pizan's participation in the querelle du Roman de la rose Marguerite de Navarre and Guillaume Bricconnet to Michel de Montaigne and Etienne de la Boetie emphasizing the importance of letter writing in pre modern French culture and tracing a selective yet significant history of the letter contributing to our understanding of the development of the epistolary genre and the pre modern self Book Jacket      Ennobling Love C. Stephen Jaeger, 2010-08-03 Richard Duke of Aquitaine son of the King of England remained with Philip the King of France who so honored him for so long that they ate every day at the same table and from the same dish and at night their beds did not separate them And the King of France loved him as his own soul and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could mean Public avowals of love between men were common from antiquity through the Middle Ages What do these expressions leave to interpretation An extraordinary amount as Stephen Jaeger demonstrates Unlike current efforts to read medieval culture through modern mores Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period Love was not only a mode of feeling and desiring or an exclusively private sentiment but a way of behaving and a social ideal It was a form of aristocratic self representation its social function to show forth virtue in lovers to raise their inner worth to increase their honor and enhance their reputation To judge from the number of royal love relationships documented it seems normal rather than exceptional that a king loved his favorites and the courtiers and advisors clerical and lay loved their superiors and each other Jaeger makes an elaborate accessible and certain to be controversial case for the centrality of friendship and love as aristocratic lay clerical and monastic ideals Ennobling Love is a magisterial work a book that charts the social constructions of passion and sexuality in our own times no less than in the Middle Ages
