Not In Vain Bobbie R Ziemer, 2020-10-27 We never think that OUR CHILD will be labeled an addict From the moment of their birth we taught them love compassion sharing hope manners patience faith and so many more qualities to live by only wanting them to flourish as a better version of ourselves When we learn that our child has been using drugs our minds seem to immediately compare our own youth when drinking or maybe even smoking marijuana Unfortunately this is the furthest comparison from the reality of what's ahead This book is filled with over 160 real life stories from grieving mothers through our initial discovery of our child's drug use to the devastating end of their journey We have shared what we have learned the emotional ups and downs the enabling tough love unconditional love the effect within ourselves and our family and what we wished we would have known or even done differently Nobody wants to talk about it when it's happening to them or how families are completely lost when fighting this disease We believe that these real life stories will further awareness and help provide comfort and navigation to those who are struggling You are not alone By sharing our stories others will see many of the same struggles and situations mothers have lived as well as the resources we have found along the way This book is our opportunity to share the painful experiences mamas have endured to help and guide those on the same journey Although this book sadly cannot bring our children back from the tragic loss resulting from the drug pandemic perhaps these stories from real mothers who have survived this loss can help you understand and guide you through the most challenging situation that anyone could possibly have even considered the loss of their child This book will not provide you with professional guidance however you will be able to see a small view into this painful journey that us grieving mothers of this pandemic now carry as a life sentence Lastly this book is devoted to all the precious children we have lost and to all mothers who are struggling to survive this devastating loss to the families still fighting for the life of their children May these stories give you hope and insight and may God give you strength to never give up

They Died in Vain Jim Huang, 2002 Mystery experts introduce you to personal favorites obscure classics up and coming new writers great books that unaccountably disappeared and lesser known titles by bestselling authors This

book takes you beyond the bestsellers beyond the familiar with essays recommending over 100 mystery novels Infinity and Me Kate Hosford, 2012 After the sight of a night sky filled with stars makes eight year old Uma feel very small she asks people how they think about infinity and gets a variety of answers before realizing the comfort in knowing that some things go on forever **Vain Fortune** George Moore, 1892 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide **Reading the Romance** Janice A. Radway, 2009-11-18 Originally published in 1984 Reading the Romance challenges popular and often demeaning myths about why romantic fiction one of publishing's most lucrative categories captivates millions of women readers Among those who have disparaged romance reading are feminists literary critics and theorists of mass culture They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture Radway questions such claims arguing that critical attention must shift from the text itself taken in isolation to the complex social event of reading She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text Radway's provocative approach combines reader response criticism with anthropology and feminist psychology Asking readers themselves to explore their reading motives habits and rewards she conducted interviews in a midwestern town with forty two romance readers whom she met through Dorothy Evans a chain bookstore employee who has earned a reputation as an expert on romantic fiction Evans defends her customers choice of entertainment reading romances she tells Radway is no more harmful than watching sports on television We read books so we won't cry is the poignant explanation one woman offers for her reading habit Indeed Radway found that while the women she studied devote themselves to nurturing their families these wives and mothers receive insufficient devotion or nurturance in return In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect The heroines admired by Radway's group defy the expected stereotypes they are strong independent and intelligent That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do Radway argues with the women readers fantasies and choices than with their need to deal with a fear of masculine dominance These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes In fact women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture Paradoxically the books that they read make conventional roles for women seem desirable It is this complex relationship between culture text and woman reader that Radway urges

feminists to address Romance readers she argues should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination In a new introduction Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations [A Book About Love](#) Jonah Lehrer, 2016-07-12 Jonah Lehrer has a lot to offer the world The book is interesting on nearly every page Good writers make writing look easy but what people like Lehrer do is not easy at all David Brooks The New York Times Book Review Science writer Jonah Lehrer explores the mysterious subject of love Weaving together scientific studies from clinical psychologists longitudinal studies of health and happiness historical accounts and literary depictions child rearing manuals and the language of online dating sites Jonah Lehrer's A Book About Love plumbs the most mysterious most formative most important impulse governing our lives Love confuses and compels us and it can destroy and define us It has inspired our greatest poetry defined our societies and our beliefs and governs our biology From the way infants attach to their parents to the way we fall in love with another person to the way some find a love for God or their pets to the way we remember and mourn love after it ends this book focuses on research that attempts even in glancing ways to deal with the long term and the everyday The most dangerous myth of love is that it's easy that we fall into the feeling and then the feeling takes care of itself While we can easily measure the dopamine that causes the initial feelings of falling in love the partnerships and devotions that last decades or longer remain a mystery This book is about that mystery Love Lehrer argues is not built solely on overwhelming passion but fascinatingly on a set of skills to be cultivated over a lifetime **Peony in Love** Lisa
