**The Subtle Art of Not Giving a F\*ck / Everything Is F\*cked Box Set** Mark Manson,2024-09-03 *A General Theory of Love* Thomas Lewis,Fari Amini,Richard Lannon,2001-01-09 This original and lucid account of the complexities of love and its essential role in human well being draws on the latest scientific research Three eminent psychiatrists tackle the difficult task of reconciling what artists and thinkers have known for thousands of years about the human heart with what has only recently been learned about the primitive functions of the human brain A General Theory of Love demonstrates that our nervous systems are not self contained from earliest childhood our brains actually link with those of the people close to us in

a silent rhythm that alters the very structure of our brains establishes life long emotional patterns and makes us in large part who we are Explaining how relationships function how parents shape their child s developing self how psychotherapy really works and how our society dangerously flouts essential emotional laws this is a work of rare passion and eloquence that will forever change the way you think about human intimacy **Essays In Love** Alain de Botton,2014-12-15 A unique love story and a classic work of philosophy rooted in the mysterious workings of the human heart and mind With an introduction by Sheila Heti De Botton is a national treasure Susan Hill author of *The Woman in Black* Perhaps it is true that we do not really exist until there is someone there to see us existing we cannot properly speak until there is someone who can understand what we are saying in essence we are not wholly alive until we are loved A man and a woman meet over casual conversation on a flight from Paris to London and so begins a love story from first kiss to first argument elation to heartbreak and everything in between Each stage of the relationship is illuminated with startling clarity as Alain de Botton explores emotions often felt but rarely understood With the verve of a novelist and the insight of a philosopher de Botton uncovers the mysteries of the human heart *Essays In Love* is an iconic book one that should be read by anyone who has ever fallen in love

**Universal (In the Realm of the Sensible)** Dorothea Olkowski,2007-03-02 *The Universal* In the realm of the sensible Beyond Continental Philosophy proposes a radical new philosophical system that moves from ontology to ethics Dorothea Olkowski develops the concept of an ontological unconscious a connection arising from our sensible relation to the world that conditions encounters with the environment and with others This fundamental ontology rethinks the space time relations opened by Irigaray s notion of the interval Bergson s recollection Merleau Ponty s idea of the flesh and Deleuze s plane of immanence Writing in an original style inspired by literature and the arts Olkowski locates a realm of the senses a field of vulnerability felt as pleasures and pains This presents an aesthetic sense of something universal to all human kind as well as to the organic and inorganic world In addition to this proposal for a wider ontology the relation between traditional ontologies and politics is examined as a means of opening politics beyond a no exit or limit cycle Instead a multiplicity of self organized emergent perspectives emerges eliminating the need for the connections conjunctions and disjunctions of the Kantian paradigm at work in contemporary continental philosophy This is a timely controversial and important book that will contribute enormously to the study of Deleuze and Continental Philosophy **The 1981 Cambridge Chronicles: Art and**

**The Course of Love** Alain de Botton, 2016-06-14 An engrossing tale that provides plenty of food for thought People Best New Books pick this playful wise and profoundly moving second novel from the internationally bestselling author of *How Proust Can Change Your Life* tracks the beautifully complicated arc of a romantic partnership We all know the headiness and excitement of the early days of love But what comes after In Edinburgh a couple Rabih and Kirsten fall in love They get married they have children but no long term relationship is as simple as happily ever after The Course of Love explores what happens after the birth of love what it takes to maintain and what happens to our original ideals under the pressures of an average existence We see along with Rabih and Kirsten the first flush of infatuation the effortlessness of falling into romantic love and the course of life thereafter Interwoven with their story and its challenges is an overlay of philosophy an annotation and a guide to what we are reading As The New York Times says The Course of Love is a return to the form that made Mr de Botton's name in the mid 1990s love is the subject best suited to his obsessive aphorizing and in this novel he again shows off his ability to pin our hopes methods and insecurities to the page This is a Romantic novel in the true sense one interested in exploring how love can survive and thrive in the long term The result is a sensory experience fictional philosophical psychological that urges us to identify deeply with these characters and to reflect on his and her own experiences in love Fresh visceral and utterly compelling The Course of Love is a provocative and life affirming novel for everyone who believes in love There's no writer alive like de Botton and his latest ambitious undertaking is as enlightening and humanizing as his previous works Chicago Tribune [Love's Vision](#) Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love's Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature Love's Vision is an original examination of a subject of vital philosophical and human concern
