Hundreds of books have been written about The Beatles. Over the last half century, their story has been mythologized and de-mythologized and presented by biographers and journalists as history. Yet many of these works do not strictly qualify as history, and the story of how the Beatles' mythology continues to be told has been largely ignored. This book examines the band's historiography, exploring the four major narratives that have developed over time: The semi-whitewashed Fab Four account, the acrimonious breakup era, Lennon Remembers version, the biased Shout narrative in the wake of John Lennon's murder, and the current Mark Lewisohn orthodoxy. Drawing on the most influential primary and secondary sources, Beatles' history is analyzed using historical methods. *Film, Fashion, and the 1960s* Eugenia Paulicelli, Drake Stutesman, Louise Wallenberg, 2017-09-11. A fascinating look at one of the most experimental, volatile, and influential decades. *Film, Fashion, and the 1960s* examines the numerous ways in which film and fashion intersected and affected identity expression during the era. From *A Hard Day's Night* to *Breakfast at Tiffany's* from the works of Ingmar Bergman to Blake Edwards, the groundbreaking cinema of the 1960s often used fashion as the ultimate expression for urbanity, youth, and political unawareness. Crumbling hierarchies brought together previously separate cultural domains, and these blurred boundaries could be seen in unisex fashions and roles played out on the silver screen. As this volume amply demonstrates, fashion in films from Italy, France, England, Sweden, India, and the United States helped portray the rapidly changing faces of this cultural avant-gardism. This blending of fashion and film ultimately created a new aesthetic that

continues to influence the fashion and media of today
