Real World Of City Politics:

The Real World of Texas Politics Robert Locander, Richard Shaw, Kevin Bailey, 2022-09-20 You may think you know Texas but which one Texas is a land shrouded in myths and so is its politics The Real World of Texas Politics pulls back the veil on those myths and reveals the secrets the elites don't want you to know It lays bare the dual worlds of the Lone Star State the one for the elites and the one for the masses Inspired by the works of political scientist James Lamare the authors argue that the privileged few have used their superior resources to dominate all aspects of the Texas political system from voting and elections to government institutions and policymaking This dominance by the elites has resulted in a subsistence life and limited future for millions of people living in twenty first century Texas The authors are insiders Locander a political scientist Shaw a union leader and Bailey a state representative with a combined ten decade involvement in Texas politics and government But they're also outsiders holding views that don't align with the people in power Rather than placate they seek to scrutinize with a skeptical eye the most pressing issues facing one of America's most important and most populous states They lay bare the crass influence of money and power and provide a roadmap for what Texas can do to get state government working for average Texans The Real World of Texas Politics challenges the economic and political status quo It peels back the myths to expose how the state's leaders both Democrats and Republicans have forsaken the masses to cater to the rich and powerful Reversing this trend takes knowledge and this book offers a hefty dose by taking a hard look at how politics and power really work in the Lone Star State

World City Doreen Massey, 2013-04-23 Cities around the world are striving to be global This book tells the story of one of them and in so doing raises questions of identity place and political responsibility that are essential for all cities World City focuses its account on London one of the greatest of these global cities London is a city of delight and of creativity It also presides over a country increasingly divided between North and South and over a neo liberal form of globalisation the deregulation financialisation and commercialisation of all aspects of life that is resulting in an evermore unequal world World City explores how we can understand this complex narrative and asks a question that should be asked of any city what does this place stand for Following the implosion within the financial sector such issues are even more vital In a new Preface Doreen Massey addresses these changed times She argues that whatever happens the evidence of this book is that we must not go back to business as usual and she asks whether the financial crisis might open up a space for a deeper rethinking of both our economy and our society

Cities Ash Amin, Nigel Thrift, 2002-04-22 This book develops a fresh and challenging perspective on the city Drawing on a wide and diverse range of material and texts it argues that too much contemporary urban theory is based on nostalgia for a humane face to face and bounded city Amin and Thrift maintain that the traditional divide between the city and the rest of the world has been perforated through urban encroachment the thickening of the links between the two and urbanization as a way of life They outline an innovative sociology of the city that scatters urban life along a series of sites and circulations reinstating previously suppressed areas of

contemporary urban life from the presence of non human activity to the centrality of distant connections The implications of this viewpoint are traced through a series of chapters on power economy and democracy This concise and accessible book will be of interest to students and scholars in sociology geography urban studies cultural studies and politics

Inventing Local Democracy Rebecca Abers,2000 Abers political science Center for Public Policy Research U of Bras lia Brazil provides a close study of innovative city government in Porto Alegre Brazil Led by the Workers Party the city implemented a participatory budget program in which residents meet in their neighborhoods to determine budget priorities Taking place in a city long dominated by patronage politics and elite rule the story is both a sociopolitical study of the impact that state sponsored participatory forums can have on civil society and a contribution to the theory and practical possibilities of participatory democracy

The Metropolitan Revolution Bruce Katz,Jennifer Bradley,2013-06-19 Across the US cities and metropolitan areas are facing huge economic and competitive challenges that Washington won t or can t solve The good news is that networks of metropolitan leaders mayors business and labor leaders educators and philanthropists are stepping up and powering the nation forward These state and local leaders are doing the hard work to grow more jobs and make their communities more prosperous and they re investing in infrastructure making manufacturing a priority and equipping workers with the skills they need In The Metropolitan Revolution Bruce Katz and Jennifer Bradley highlight success stories and the people behind them New York City Efforts are under way to diversify the city s vast economy Portland Is selling the sustainability solutions it has perfected to other cities around the world Northeast Ohio Groups are using industrial age skills to invent new twenty first century materials tools and processes Houston Modern settlement house helps immigrants climb the employment ladder Miami Innovators are forging strong ties with Brazil and other nations Denver and Los Angeles Leaders are breaking political barriers and building world class metropolises Boston and Detroit Innovation districts are hatching ideas to power these economies for the next century The lessons in this book can help other cities meet their challenges Change is happening and every community in the country can benefit Change happens where we live and if leaders won t do it citizens should demand it The Metropolitan Revolution was the 2013 Foreword Reviews Bronze winner for Political Science

City Politics and Planning Irving Horowitz,Francine Rabinovitz,2017-09-04 This volume discusses some of the factors determining the political impact of the city planner on community decision making Rabinovitz bases her book on case studies of planning decisions in six New Jersey communities that were chosen for reputations of both effective and ineffective planning She also uses a reanalysis of an attitude survey of U S planning directors as well as a synthesis of previous studies The materials are presented comparatively thus enabling the reader to identify major themes in the broad and until now largely uncharted area of the interrelationship of politics and planning The author first discusses the variables that influence the effectiveness of planning She then develops a typology of community political systems in the six cities based on such factors as power distribution values style participation conflict and cohesion and potential for program output

The typology of urban political systems is matched by a typology of roles for the planner this leads to a careful examination of the usefulness of different roles in different urban political situations Other variables on which the success of particular roles depends such as the ability to command resources for desired actions the norms of the planning community and the needs of the planner are included Finally the author raises three important questions central to the planner's effectiveness Can success spoil the planner What does the planner contribute to decision making To what extent does political utility determine the planner's benefits or reverses City Politics and Planning not only explores some crucial aspects of the city power structure but also shows the importance of who governs and in addition assesses the impact of community values on the types of policies that the community is likely to adopt As such this volume is invaluable to the students of city planning local government political science and urban sociology as well as of course to th **Inside Smart Cities** Andrew

Karvonen, Federico Cugurullo, Federico Caprotti, 2018-10-03 The era of the smart city has arrived Only a decade ago the promise of optimising urban services through the widespread application of information and communication technologies was largely a techno utopian fantasy Today smart urbanisation is occurring via urban projects policies and visions in hundreds of cities around the globe Inside Smart Cities provides real world evidence on how local authorities small and medium enterprises corporations utility providers and civil society groups are creating smart cities at the neighbourhood city and regional scales Twenty three empirically detailed case studies from the Global North and South ranging from Cape Town Stockholm and Abu Dhabi to Philadelphia Hong Kong and Santiago illustrate the multiple and diverse incarnations of smart urbanism The contributors draw on ideas from urban studies geography urban planning science and technology studies and innovation studies to go beyond the rhetoric of technological innovation and reveal the political social and physical implications of digitalising the built environment Collectively the practices of smart urbanism raise fundamental questions about the sustainability liveability and resilience of cities in the future The findings are relevant to academics students practitioners and urban stakeholders who are questioning how urban innovation relates to politics and place *Usable*

Urban Past Planning and Politics Alan F.J. Artibise, 1980-11-15 This collection of original essays serves both the historians and geographers who seek a deeper understanding of Canada's urban past and the planners politicians and citizens who seek to preserve or to change their cities today *Real Democracy* Frank M. Bryan, 2003-12-03 Relying on an astounding

collection of more than three decades of firsthand research Frank M Bryan examines one of the purest forms of American democracy the New England town meeting At these meetings usually held once a year all eligible citizens of the town may become legislators they meet in face to face assemblies debate the issues on the agenda and vote on them And although these meetings are natural laboratories for democracy very few scholars have systematically investigated them A nationally recognized expert on this topic Bryan has now done just that Studying 1 500 town meetings in his home state of Vermont he and his students recorded a staggering amount of data about them 238 603 acts of participation by 63 140 citizens in 210

different towns Drawing on this evidence as well as on evocative witness accounts from casual observers to no lesser a light than Aleksandr Solzhenitsyn Bryan paints a vivid picture of how real democracy works Among the many fascinating questions he explores why attendance varies sharply with town size how citizens resolve conflicts in open forums and how men and women behave differently in town meetings In the end Bryan interprets this brand of local government to find evidence for its considerable staying power as the most authentic and meaningful form of direct democracy Giving us a rare glimpse into how democracy works in the real world Bryan presents here an unorthodox and definitive book on this most cherished of American institutions

Metropolitan Democracies Bernard Jouve, 2019-06-04 Originally published in 2005 Citizen involvement and the concept of partnership in urban governance has long been a major issue in the transformation of local democracy The move from delegated to participative forms of local government has in principle profound consequences for governance at the scale of cities However it is clear that partnership and participation are interpreted in many different ways according to the traditions of government in different countries This volume brings together the experiences of three countries in which very different approaches to participation are evident Canada France and the United Kingdom By comparing and reflecting on these countries approaches and the resulting changes in governance it provides an in depth analysis of the intentions and effects of involving citizens in policy making It also highlights innovative new forms of partnership which are emerging within metropolitan areas at a local level

Planning Politics in Toronto Aaron A. Moore, 2013-01-01 The Ontario Municipal Board is an independent provincial planning appeals body that has wielded major influence on Toronto's urban development In this book Aaron A Moore examines the effect that the OMB has had on the behavior and relationships of Toronto's main political actors including city planners developers neighbourhood associations and local politicians Moore's findings draw on a quantitative analysis of all OMB decisions and settlements from 2000 through 2006 as well as eight in depth case studies The cases which examine a variety of development proposals that resulted in OMB appeals compare the decisions of Toronto's political actors to those typified in American local political economy analyses A much needed contribution to the literature on the politics of urban development in Toronto since the 1970s

Planning Politics in Toronto challenges popular preconceptions of the OMB's role in Toronto's patterns of growth and change

All Health Politics Is Local Merlin Chowkwanyun, 2022-05-09 Health is political It entails fierce battles over the allocation of resources arguments over the imposition of regulations and the mediation of dueling public sentiments all conflicts that are often narrated from a national top down view In **All Health Politics Is Local** Merlin Chowkwanyun shifts our focus taking us to four very different places New York City Los Angeles Cleveland and Central Appalachia to experience a national story through a regional lens He shows how racial uprisings in the 1960s catalyzed the creation of new medical infrastructure for those long denied it what local authorities did to curb air pollution so toxic that it made residents choke and cry how community health activists and bureaucrats fought over who'd control facilities long run by insular elites and

what a national coal boom did to community ecology and health All Health Politics Is Local shatters the notion of a single national health agenda Health is and has always been political shaped both by formal policy at the highest levels and by grassroots community battles far below

The Politics of Sincerity Elizabeth Markovits, 2010-11 A growing frustration with spin doctors doublespeak and outright lying by public officials has resulted in a deep public cynicism regarding politics today It has also led many voters to seek out politicians who engage in straight talk out of a hope that sincerity signifies a dedication to the truth While this is an understandable reaction to the degradation of public discourse inflicted by political hype Elizabeth Markovits argues that the search for sincerity in the public arena actually constitutes a dangerous distraction from more important concerns including factual truth and the ethical import of political statements Her argument takes her back to an examination of the Greek notion of parrhesia frank speech and she draws from her study of the Platonic dialogues a nuanced understanding of this ancient analogue of straight talk She shows Plato to have an appreciation for rhetoric rather than a desire to purge it from public life providing insights into the ways it can contribute to a fruitful form of deliberative democracy today

The Politics Aristotle, 1981-09-17 Twenty three centuries after its compilation The Politics still has much to contribute to this central question of political science Aristotle's thorough and carefully argued analysis is based on a study of over 150 city constitutions covering a huge range of political issues in order to establish which types of constitution are best both ideally and in particular circumstances and how they may be maintained Aristotle's opinions form an essential background to the thinking of philosophers such as Thomas Aquinas Machiavelli and Jean Bodin and both his premises and arguments raise questions that are as relevant to modern society as they were to the ancient world

Africville Donald H. J. Clairmont, Dennis William Magill, 1999 In the mid 1960s the city of Halifax decided to relocate the inhabitants of Africville a black community that had been transformed by civil neglect mismanagement and poor planning into one of the worst city slums in Canadian history Africville is a sociological account of the relocation that reveals how lack of resources and inadequate planning led to devastating consequences for Africville relocatees Africville is a work of painstaking scholarship that reveals in detail the social injustice that marked both the life and the death of the community It became a classic work in Canadian sociology after its original publication in 1974 The third edition contains new material that enriches the original analysis updates the account and highlights the continuing importance of Africville to black consciousness in Nova Scotia

Shaping the Canadian City John C. Weaver, 1977 **Political Change in the Metropolis** Ronald Vogel, John Harrigan, 2015-10-05 This popular text has been thoroughly updated and revised to sharpen the focus on its bias and change theme include the latest data studies informing the field and cover important new topics e.g. flood disaster in New Orleans Political Change in the Metropolis Eighth Edition continues to focus on the political changes that have taken place in American cities and the reactions of urban scholars to them In addition to offering scholarly perspectives the text offers students a theoretical framework for interpreting these changing events for themselves This framework analyzes the patterns of bias inherent in the organization and operation of urban politics giving students an in depth look at the fascinating and

constantly changing face of urban politics Features Accessible writing style engages students in the material Provides excellent coverage of the impact of immigrants and ethnic groups in the making of the American city An abundance of historical material helps students better understand the origins and development of urban politics and structures Case studies throughout the text give students an opportunity to apply important material The text exposes students to first rate discussions of political phenomena and empirical literature on those phenomena
