**Realism and Naturalism in Nineteenth-century American Literature** Donald Pizer,1966 During the Revolution a nine year old black slave girl is given the task of blowing up ammunition stored in the British barracks in Charleston

**Realism and Naturalism in Nineteenth-century American Literature** Donald Pizer,1984 *Realism and Naturalism in Nineteenth-century American Literature* Donald Pizer,1966 *Realism and Naturalism in Nineteenth-Century American Literature* Donald Pizer,1976 **Realism and naturalism in nineteenth century American literature, with a pref** Donald Pizer, **Reader's Guide to Literature in English** Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study *The Vast and Terrible Drama* Eric Carl Link,2016-10-18 A broad treatment of the cultural social political and literary under pinnings of an entire period and movement in American letters The Vast and Terrible Drama is a critical study of the context in which authors such as Oliver Wendell Holmes Stephen Crane Frank Norris Theodore Dreiser and Jack London created their most significant work In 1896 Frank Norris wrote Terrible things must happen to the characters of the naturalistic tale They must be twisted from the ordinary and flung into the throes of a vast and terrible drama There could be no teacup tragedies here This volume broadens our understanding of literary naturalism as a response to these and other aesthetic concerns of the 19th century Themes addressed include the traditionally close connection between French naturalism and American literary naturalism relationships between the movement and the romance tradition in American literature as well as with utopian fictions of the 19th century narrative strategies employed by the key writers the dominant naturalist theme of determinism and textual readings that provide broad examples of the role of the reader By examining these and other aspects of American literary naturalism Link counters a century of criticism that has perhaps viewed literary naturalism too narrowly as a subset of realism bound by the conventions of realistic narration **American Literary Naturalism, a Divided Stream** Charles Child Walcutt,1956 American Literary Naturalism a Divided Stream was first published in 1956 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The literary concept of naturalism perpetually contradicts itself oscillating between the transcendental affirmation of human freedom and the demonstration of its nonexistence In this tension it gropes for forms that will satisfy both demands These contradictions and this divided stream Mr Walcutt shows represent the central intellectual and social problem of the modern world where the confusions between materialism and religion are ubiquitous In tracing the development of naturalism in the novel the author provides a background with chapters on naturalistic theory and the theory and practice of Emile Zola He then traces the shifts in form through the worlds of Harold Frederic Hamlin Garland

Stephen Crane Jack London Frank Norris Winston Churchill Theodore Dreiser Sherwood Anderson James T Farrell John Steinbeck Ernest Hemingway and John Dos Passes College English commented This is a book that will clarify some of the confusion that teachers and students face when they discover that naturalistic novels do not always follow naturalistic theory Writing in *Prairie Schooner* Ihab Hassan pointed out In speculating on the origins of naturalism in perceiving the inner contradictions of its spirit and the tensions of its form and in following its full and vital sweep as it allies itself now with impressionism now with expressionism Professor Walcutt manages to throw new light on a major movement in American letters

**The Oxford Handbook of American Literary Naturalism** Keith Newlin, 2011-05-26 After its heyday in the late nineteenth and early twentieth century naturalism a genre that typically depicts human beings as the product of biological and environmental forces over which they have little control was supplanted by modernism a genre in which writers experimented with innovations in form and content In the last decade the movement is again attracting spirited scholarly debate The Oxford Handbook of American Literary Naturalism takes stock of the best new research in the field through collecting twenty eight original essays drawing upon recent scholarship in literary and cultural studies The contributors offer an authoritative and in depth reassessment of writers from Stephen Crane Frank Norris Theodore Dreiser and Jack London to Kate Chopin Edith Wharton Ernest Hemingway Richard Wright John Steinbeck Joyce Carol Oates and Cormac McCarthy One set of essays focus on the genre itself exploring the historical contexts that gave birth to it the problem of definition its interconnections with other genres the scientific and philosophical ideas that motivate naturalist authors and the continuing presence of naturalism in twenty first century fiction Others examine the tensions within the genre the role of women and African American writers depictions of sexuality the problem of race and the critique of commodity culture and class A final set of essays looks beyond the works to consider the role of the marketplace in the development of naturalism the popular and critical response to the works and the influence of naturalism in the other arts

**Sounding Real** Cristina L. Ruotolo, 2013-07-02 Examining American realist fiction as it was informed and shaped by the music of the period *Sounding Real* sheds new light on the profound musical and cultural change at the turn of the twentieth century *Sounding Real* by Cristina L Ruotolo examines landmark changes in American musical standards and tastes in the late nineteenth and early twentieth centuries and the way they are reflected in American literature of the period Whereas other interdisciplinary approaches to music and literature often focus on more recent popular music and black music that began with blues and jazz Ruotolo addresses the literary response to the music that occurred in the decades before the Jazz Age By bringing together canonical and lesser known works by authors like Theodore Dreiser Kate Chopin Harold Fredric James Weldon Johnson Willa Cather and Gertrude Atherton Ruotolo argues that new emerging musical forms were breaking free from nineteenth century constraints and that the elemental authenticity or real ness that this new music articulated sparked both interest and anxiety in literature What are the effects of an emancipated musicality on self and society How can literature dramatize musical

encounters between people otherwise segregated by class race ethnicity or gender By examining the influence of an increasingly aggressive and progressive musical marketplace on the realm of literature *Sounding Real* depicts a dynamic dialogue between two art forms that itself leads to a broader discussion of how art speaks to society *The Femme Fatale in American Literature* Ghada Sasa,2008 This Bronze E Book Edition for institutional buyers provides web reader access and download of an abridged version in PDF and device formats **Haunting Realities** Monika Elbert,Wendy

Ryden,2017-06-20 An innovative collection of essays examining the sometimes paradoxical alignment of Realism and Naturalism with the Gothic in American literature to highlight their shared qualities Following the golden age of British Gothic in the late eighteenth century the American Gothic s pinnacle is often recognized as having taken place during the decades of American Romanticism However *Haunting Realities* explores the period of American Realism the end of the nineteenth century to discover evidence of fertile ground for another age of Gothic proliferation At first glance Naturalist Gothic seems to be a contradiction in terms While the Gothic is known for its sensational effects with its emphasis on horror and the supernatural the doctrines of late nineteenth century Naturalism attempted to move away from the aesthetics of sentimentality and stressed sobering mechanistic views of reality steeped in scientific thought and the determinism of market values and biology Nonetheless what binds Gothicism and Naturalism together is a vision of shared pessimism and the perception of a fearful lingering presence that ominously haunts an impending modernity Indeed it seems that in many Naturalist works reality is so horrific that it can only be depicted through Gothic tropes that prefigure the alienation and despair of modernism In recent years research on the Gothic has flourished yet there has been no extensive study of the links between the Gothic and Naturalism particularly those which stem from the early American Realist tradition *Haunting Realities* is a timely volume that addresses this gap and is an important addition to scholarly work on both the Gothic and Naturalism in the American literary tradition **The Urban Sublime in American Literary Naturalism** Christophe Den Tandt,1998 In this dynamic reappraisal of American literary naturalism Christophe Den Tandt connects late nineteenth century fiction to its romantic urban gothic roots and to recent discussions of the sublime in postmodern theory Den Tandt focuses on aspects of naturalist novels their use of hyperbole and hysteria of the grotesque and the abject of uncanniness and mesmerism that have often been left in the periphery of naturalist discourse He argues that realistic strategies of literary representation can never succeed in depicting the urban environment since the logic of the city rests on a network of hidden relations Naturalist texts try to resolve this dilemma by opposing sublime components and realistic documentary elements

**No Place in Time** Sharon B. Oster,2018-11-12 An exploration of the temporal function that the Jew plays in literature *No Place in Time The Hebraic Myth in Late Nineteenth Century American Literature* examines how the Hebraic myth in which Jewishness became a metaphor for an ancient pre Christian past was reimagined in nineteenth century American realism The Hebraic myth while integral to a Protestant understanding of time was incapable of addressing modern

Jewishness especially in the context of the growing social and national concern around the Jewish problem Sharon B Oster shows how realist authors consequently cast Jews as caught between a distant past and a promising American future In either case whether creating or disrupting temporal continuity Jewishness existed outside of time No Place in Time complicates the debates over Eastern European immigration in the 1880s and questions of assimilation to a Protestant American culture The first chapter begins in the world of periodicals an interconnected literary culture out of which Abraham Cahan emerged as a literary voice of Jewish immigrants caught between nostalgia and a messianic future outside of linear progression Moving from the margins to the center of literary realism the second chapter revolves around Henry James s modernization of the noble Hebrew as a figure of mediation and reconciliation The third chapter extends this analysis into the naturalism of Edith Wharton who takes up questions of intimacy and intermarriage and places the Jew at the nexus of competing futures shaped by uncertainty and risk A number of Jewish female perspectives are included in the fourth chapter that recasts plots of cultural assimilation through intermarriage in terms of time if a Jewish past exists in tension with an American future these writers recuperate the Hebraic myth for themselves to imagine a viable Jewish future No Place in Time ends with a brief look at poet Emma Lazarus whose understanding of Jewishness was distinctly modern not nostalgic mythical or dead No Place in Time highlights a significant shift in how Jewishness was represented in American literature and as such raises questions of identity immigration and religion This volume will be of interest to scholars of nineteenth and turn of the century American literature American Jewish literature and literature as it intersects with immigration religion or temporality as well as anyone interested in Jewish studies

**Canons by Consensus** Joseph Csicsila, 2004-08-17 Canons by Consensus is first systematic analysis of American literature textbooks used by college instructors in the last century

**The Theory and Practice of American Literary Naturalism** Donald Pizer, 1993 In his first book devoted exclusively to naturalism Donald Pizer brings together thirteen essays and four reviews written over a thirty year period that in their entirety constitute a full scale interpretation of the basic character and historical shape of naturalism in America The essays fall into three groups Some deal with the full range of American naturalism from the 1590s to the late twentieth century and some are confined either to the 1890s or to the twentieth century In addition to the essays an introduction in which Pizer recounts the development of his interest in American naturalism reviews of recent studies of naturalism and a selected bibliography contribute to an understanding of Pizer s interpretation of the movement One of the recurrent themes in the essays is that the interpretation of American naturalism has been hindered by the common view that the movement is characterized by a commitment to Emile Zola s deterministic beliefs and that naturalistic novels are thus inevitably crude and simplistic both in theme and method Rather than accept this notion Pizer insists that naturalistic novels be read closely

not for their success or failure in rendering obvious deterministic beliefs but rather for what actually does occur within the dynamic play of theme and form within the work Adopting this method Pizer finds that naturalistic fiction often reveals a complex and suggestive mix of older humanistic faiths and more recent doubts about human volition and that it renders this vital thematic ambivalence in increasingly sophisticated forms as the movement matures In addition Pizer demonstrates that American naturalism cannot be viewed monolithically as a school with a common body of belief and value Rather each generation of American naturalists as well as major figures within each generation has responded to threads within the naturalistic impulse in strikingly distinctive ways And it is indeed this absence of a rigid doctrinal core and the openness of the movement to individual variation that are responsible for the remarkable vitality and longevity of the movement Because the essays have their origin in efforts to describe the general characteristics of American naturalism rather than in a desire to cover the field fully some authors and works are discussed several times though from different angles and some referred to only briefly or not at all But the essays as a collection are complete in the sense that they comprise an interpretation of American naturalism both in its various phases and as a whole Those authors whose works receive substantial discussion include Stephen Crane Frank Norris Theodore Dreiser Edith Wharton James T Farrell Norman Mailer Joyce Carol Oates and William Kennedy Of special interest is Pizer's essay on *Ironweed* which appears here for the first time *Working Women in American Literature, 1865-1950* Miriam S. Gogol, 2018-08-15 This book examines working women in realistic and naturalistic literature By addressing intersecting issues of race and class and including a study of domestic work it contributes to the fields of multiculturalism feminism and working class studies and to the increasing research interests in these areas [The Portable American Realism Reader](#) Various, 1997-12-01 During the pivotal period of America's international emergence between the Civil War and WWI the aligned literary movements of Realism and Naturalism not only shaped the national literature of the age but also left an indelible and far reaching influence on twentieth century American and world literature Seeking to strip narrative from pious sentimentalities and according to William Dean Howells to paint life as it is and human feelings in their true proportion and relation Realism is best represented by this volume's masterly pieces by Twain Henry James Stephen Crane Kate Chopin and Willa Cather among others The joining of Realist methods with the theories of Marx Darwin and Spencer to reveal the larger forces biological evolutionary historical which move humankind are exemplified here in the fiction of such writers as Jack London Frank Norris and Theodore Dreiser
