[Inventing Abstraction, 1910-1925](#) Leah Dickerman, Matthew Affron, 2012 This book explores the development of abstraction from the moment of its declaration around 1912 to its establishment as the foundation of avant-garde practice in the mid 1920s. The

book brings together many of the most influential works in abstraction's early history to draw a cross media portrait of this watershed moment in which traditional art was reinvented in a wholesale way. Works are presented in groups that serve as case studies each engaging a key topic in abstraction's first years: an artist, a movement, an exhibition or thematic concern. Key focal points include Vasily Kandinsky's ambitious Compositions V, VI and VII; a selection of Piet Mondrian's work that offers a distilled narrative of his trajectory to Neo-Plasticism; and all the extant Suprematist pictures that Kazimir Malevich showed in the landmark 0-10 exhibition in 1915. The work Forged Drawing which was recently reworked especially for the Kunsthau Bregenz as well as the work series Weight and Measure Rounds and out of rounds all combine to convey the independent power and artistic significance of Richard Serra's graphic work. James Lawrence and Richard Shiff two art historians and Serra specialists contribute knowledgeable essays on Serra's graphic work which is certainly on a par with his sculptures. The exhibition catalogue will be arranged in a broadly chronological way to tell the story of photography and its relationship with abstraction from around 1915 to the present day and will include historic works in a variety of media from painting and sculpture to montage and kinetic installations. Beginning with the works of Cubism and Vorticism the catalogue then highlights the key contributions of Bauhaus constructivist and surrealist artists of the 1920s and 1930s. It then moves into the subjective photography of the 1940s and 1950s exploring the global scope of this movement through works by artists from Latin America and Asia before considering the impacts of photography of abstract expressionism on art and minimalism in Europe and the US. Bringing together iconic as well as rarely seen works Photography and Abstract Art explores the development of photography in relation to abstract art tracing the key moments of innovation in new techniques and practice.
