Reallexikon Der Germanischen Altertumskunde Band 21:

Reallexikon der germanischen Altertumskunde Johannes Hoops, 2002 Das Reallexikon der Germanischen Altertumskunde trägt den Namen seines Begründers des Anglisten und Naturwissenschaftlers Johannes Hoops Zwischen 1972 und 2008 erschienen in zweiter vollkommen überarbeiteter Auflage 35 Bände sowie zwei Registerbände Konzipiert als Handbuch steht der Hoops in der Tradition umfangreicher Enzyklopädien Ziel ist es den gesamten Kenntnisstand zur Germanischen Altertumskunde umfassend und kritisch zu präsentieren Sein interdisziplinärer Ansatz schließt Ergebnisse aus den Bereichen Kunstgeschichte Rechtsgeschichte Volkskunde und Religionswissenschaft mit ein *Reallexikon der germanischen Altertumskunde* Johannes Hoops, 1916 **The Nerthus Claim** Gardenstone, 2012 Hardly any other scripture from the time of the Roman Empire of about two thousand years ago has stirred up so much excited attention as the Germania of Tacitus Only from this ethnographic essay do we know the name Nerthus a goddess who should have been venerated by seven smaller Germanic tribes Much of what the Germania tells us is meanwhile highly doubted The 1st century original no longer exists the intact copies were on their part copied from older Germania texts which were also just copies The existing copies are not identical to each other That causes many question marks which also concern this goddess Nerthus This book is an attempt to place some exclamation marks in front of that and is sometimes deliberately provocative **Reallexikon der germanischen Altertumskunde, unter Mitwirkung zahlreicher Fachgelehrten** Johannes Hoops, 1916 **An Arena for Higher Powers** Olof Sundqvist, 2015-11-16 In *An Arena for Higher Powers* Olof Sundqvist investigates ceremonial buildings and religious ruler strategies in Late Iron Age Scandinavia i.e. AD 550-1050-1100 The author offers here an account of the role played by religion in political undertakings among the pre-Christian ruling elites at halls and cultic buildings Sundqvist applies a regional approach so as to be able to account for the specific historical cultural and social contexts The focus is mainly on three regions the Lake Mälaren area in Sweden Trøndelag in Norway and Iceland Since the political structure and other contextual aspects partly differed in the three regions the religious strategies for gaining legitimacy and authorization at the sanctuaries also varied to some extent in these areas The Demise of Norse Religion Olof Sundqvist, 2023-12-18 When describing the transition from Old Norse religion to Christianity in recent studies the concept of Christianization is often applied To a large extent this historiography focuses on the outcome of the encounter namely the description of early Medieval Christianity and the new Christian society The purpose of the present study is to concentrate more exclusively on the Old Norse religion during this period of change and to analyze the processes behind its disappearance on an official level of the society More specifically this study concentrates on the role of Viking kings and indigenous agency in the winding up of the old religion An actor-oriented perspective will thus be established which focuses on the actions methods and strategies applied by the early Christian Viking kings when dismantling the religious tradition that had previously formed their lives In addition the resistance that some pagan chieftains offered against these Christian kings is discussed as well as the question

why they defended the old religious tradition

Narration and Hero Victor Millet, Heike Sahm, 2014-07-28 By the early middle ages vernacular aristocratic traditions of heroic narration were firmly established in Western and Northern Europe Although there are regional linguistic and formal differences one can observe a number of similarities Oral literature disseminates a range of themes that are shared by narratives in most parts of the continent In all the European regions this tradition of heroic narration came into contact with Christianity which led to modifications Similar processes of adaptation and transformation can be traced everywhere in this field of early European vernacular narrative But with the increasing specialization of academic fields over the last half century inter disciplinary dialogue has become increasingly difficult The volume is a contribution to renew the inter disciplinary dialogue about common themes topics and motifs in Nordic Roman Anglo Saxon and Germanic literature and about the different methodologies to explore them

A Companion to Old Norse-Icelandic Literature and Culture Rory McTurk, 2008-03-11 This major survey of Old Norse Icelandic literature and culture demonstrates the remarkable continuity of Icelandic language and culture from medieval to modern times Comprises 29 chapters written by leading scholars in the field Reflects current debates among Old Norse Icelandic scholars Pays attention to previously neglected areas of study such as the sagas of Icelandic bishops and the fantasy sagas Looks at the ways Old Norse Icelandic literature is used by modern writers artists and film directors both within and outside Scandinavia Sets Old Norse Icelandic language and literature in its wider cultural context

Bronze Age Lives Anthony Harding, 2021-01-18 The Bronze Age of Europe is a crucial formative period that underlay the civilisations of Greece and Rome fundamental to our own modern civilisation A systematic description of it appeared in 2013 but this work offers a series of personal studies of aspects of the period by one of its best known practitioners The book is based on the idea that different aspects of the Bronze Age can be studied as a series of lives the life of people and peoples of objects of places and of societies Each of these is taken in turn and a range of aspects presented that offer interesting insights into the period These are based on recent research for instance on the genetic history of the Old World as well as on fundamental earlier studies In addition there is a consideration of the history of Bronze Age studies the life of the Bronze Age The book provides a novel approach to the Bronze Age based on the personal interests of a well known Bronze Age scholar It offers insights into a period that students of other aspects of the ancient world as well as Bronze Age specialists and general readers will find interesting and stimulating

Otto Höfler's Characterisation of the Germanic Peoples Courtney Marie Burrell, 2023-05-08 Otto Höfler 1901-1987 was an Austrian Germanist and Scandinavist His research on Germanic culture in particular on Germanic Männerbünde men's bands was controversial and remains a topic of academic debate In modern discourse Höfler's theories are often fundamentally rejected on account of his involvement in the National Socialist movement and his contribution to the research initiatives of the SS Ahnenerbe or they are adopted by scholars who ignore his problematic methodologies and the ideological and political elements of his work The present study takes a comprehensive approach to Höfler's

fler s research on Germanic culture and analyses his characterisation of the Germanic peoples contextualising his research in the backdrop of German philological studies of the early twentieth century and highlighting elements of his theories that are still the topic of modern academic discourse A thorough analysis of his main research theses focusing on his M nnerbund research reveals that his concept of Germanic culture is underscored by a belief in the deep seated religiosity of the Germanic peoples formed through sacred daemonic forces *Nomen et Fraternitas* Uwe Ludwig, Thomas Schilp, 2008 Die Festschrift zum 65 Geburtstag von Dieter Geuenich von 1988 bis 2008 Inhaber des Lehrstuhls f r Mittelalterliche Geschichte an der Universit t Duisburg Essen enth lt 41 ihm von Freunden und Kollegen gewidmete Beitr ge aus den Bereichen der historischen Namenkunde der Memoria und des Gedenkwesens im Mittelalter sowie der Arch ologie und der Geschichte des fr hen Mittelalters **Frühmittelalterliche Studien. Gary Miller, 2019 This volume provides a comprehensive reference grammar of Gothic the earliest attested language of the Germanic family apart from runic inscriptions It is the first in English to draw on the recently discovered Bologna fragment and Crimean graffiti in addition to the traditional Bible translation explored in most works to date **Amsterdamer Beiträge Zur Älteren Germanistik, Band 60 (2005)** Erika Langbroek, Annelies Roeleveld, Arend Quak, Paula Vermeyden, 2005 *Tree of Salvation* G. Ronald Murphy S.J., 2013-10-24 Winner of the 2014 Mythopoeic Myth Middlegard where human beings lived and the dark underground world of Hel home to the monstrous goddess of death With the advent of Christianity in the North around the year 1000 Yggdrasil was recast as the cross on which Christ sacrificed himself G Ronald Murphy offers an insightful examination of the lasting significance of Yggdrasil in northern Europe showing that the tree s image persisted not simply through its absorption into descriptions of Christ s crucifix but through recognition by the newly converted Christians of the truth of their new religion in the images and narratives of their older faith Rather than dwelling on theological and cultural differences between Christianity and older Anglo Scandinavian beliefs Murphy makes an argument internal to the culture showing how the new dispensation was a realization of the old He shows how architectural and literary works including the Jelling stone in Denmark the stave churches in Norway The Dream of the Rood the runes of the futhark the round churches on Bornholm the Viking crosses at Middleton in Yorkshire and even the Christmas tree are all indebted to the cultural interweaving of cross and tree in the North Tree of Salvation demonstrates that both Christian and older Northern symbols can be read as a single story of salvation **Tree of Salvation** G. Ronald Murphy, 2013-11 G Ronald Murphy offers an insightful examination of the lasting significance of Yggdrasil in northern Europe showing that the tree s image persisted not simply through its absorption into descriptions of Christ s crucifix but through recognition by the newly converted Christians of the truth of their new religion in the images of their older faith **Old Germanic Languages** Václav Blažek, 2023-01-01 Monografie sest v ze dvou hlavn ch a dvou dopl kov ch st Prvn st p in nejstar lingvistick epigrafick a

Nicolay, 2014-01-01 From the 5th to the 7th century AD the southern North Sea area functioned as an important cultural and political bridge linking two power blocks the late Roman Empire and its Frankish successor kingdom to the south and the Scandinavian kingdoms to the north This book examines how the region s intermediary position is reflected in the jewellery and other ornaments of gold and silver found along the southern North Sea coasts and how it relates to the formation of kingdoms and the expression of group identity after the collapse of the West Roman Empire The book first discusses the history of earlier research into kingship around the southern North Sea and this is followed by a description of the individual research regions the northern and western Netherlands northern Germany and southeast England After presenting the valuables of gold and silver from graves hoards and settlement sites with their dating and contextual evidence in an extensive catalogue the author examines how such items circulated between and within early medieval societies were transformed into symbols expressing regional or supraregional identities and eventually ended up in the ground The various research themes come together in the synthesis in which elite networks around the southern North Sea are reconstructed and the expression of ethnic or other group identities among the members of such networks is considered Finally in an epilogue the finds from the North Sea region are confronted with the nature and composition of the Staffordshire hoard For the first time not only presenting but also interpreting the superb collection of valuables from the southern North Sea area as a whole this book makes compulsive reading for anyone interested in the fascinating world of early medieval Europe **Roman Frontier Studies 2009** Nick Hodgson, Paul Bidwell, Judith Schachtmann, 2017-06-30 Proceedings of the 21st International Congress of Roman Frontier Studies LIMES XXI hosted by Tyne Wear Archives Museums Newcastle upon Tyne UK in August 2009
