Really Wild Siberian Tiger:

The Tiger John Vaillant, 2010-08-24 It's December 1997 and a man eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people; it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment, it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once-great Siberian Tiger, the largest of its species, which can weigh over 600 lbs and more than 10 feet long, ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have worshipped and lived alongside tigers, even sharing their kills with them in a natural balance. We witness the first arrival of settlers, soldiers, and hunters in the tiger's territory in the 19th century and 20th century, many fleeing Stalinism. And we come to know the Russians of today, such as the poacher Vladimir Markov, who crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout, we encounter surprising theories of how humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters, and how early *Homo sapiens* may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super predator, and the grave threat it faces as logging and poaching reduce its habitat and numbers, and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision that leads inexorably to a final showdown in a clearing deep in the Siberian forest.

The Great Soul of Siberia Sooyong Park, 2017-01-12 There are five races of tiger on our planet, and all but one live in tropical regions: the Siberian Tiger, *Panthera tigris altaica*, is the exception. Mysterious and elusive, and with only 350 remaining in the wild, the Siberian tiger remains a complete enigma. One man has set out to change this: Sooyong Park has spent twenty years tracking and observing these elusive tigers. Each year he spends six months braving sub-zero temperatures, buried in grave-like underground bunkers, fearlessly immersing himself in the lives of Siberian tigers. As he watches the brutal day-to-day struggle to survive the harsh landscape threatened by poachers and the disappearance of the pristine habitat, Park becomes emotionally and spiritually attached to these beautiful and deadly predators. No one has ever been this close, as he comes face-to-face with one tiger, Bloody Mary, her fierce determination to protect her cubs nearly results in his own bloody demise. Poignant, poetic, and fiercely compassionate, *The Great Soul of Siberia* is the incredible story of Park's unique obsession with these compelling creatures on the very brink of extinction, and his dangerous quest to seek them out to observe and study them. Eloquent, told in Park's distinctive voice, it is a personal account of one of the most extraordinary wildlife studies ever undertaken.
