Cosmologies of Pure Realms and the Rhetoric of Pollution Yohan Yoo, James W. Watts, 2021-05-30 This collaboration between two scholars from different fields of religious studies draws on three comparative data sets to develop a new theory of purity and pollution in religion arguing that a culture's beliefs about cosmological realms shapes its pollution ideas and its purification practices The authors of this study refine Mary Douglas foundational theory of pollution as matter out of place using a comparative approach to make the case that a culture's cosmology designates which materials in which places constitute pollution By bringing together a historical comparison of Ancient Near Eastern and Mediterranean religions an ethnographic study of indigenous shamanism on Jeju Island Korea and the reception history of biblical rhetoric about pollution in Jewish and Christian cultures the authors show that a cosmological account of purity works effectively across multiple disparate religious and cultural contexts They conclude that cosmologies reinforce fears of pollution and also that embodied experiences of purification help generate cosmological ideas Providing an innovative insight into a key topic of ritual studies this book will be of vital interest to scholars and graduate students in religion biblical studies and anthropology

Death as an Enemy According to Ancient Egyptian Conceptions Jan Zandee, 2018-08-14 Preliminary Material J Zandee General Outline J Zandee Terms J Zandee Representations of the Netherworld in Demotic Literature J Zandee Punishment in the Hereafter According to the Coptic Texts J Zandee Summary J Zandee Additions and Afterthoughts J Zandee *Journey Through the Afterlife* John H. Taylor, 2010 With contributions from leading scholars and detailed catalog entries that interpret the spells and painted scenes this fascinating and important work affords a greater understanding of ancient Egyptian belief systems and poignantly reveals the hopes and fears about the world beyond death **Spirits Realm** Ross Rozani, 2019-09-29 Being human we are so pre occupied with worldly task until we ignore the fact that we carry spirit within ourselves which is the Soul It is said its nourishment is only Faith in God At times we struggle with our own faith as it doesn't jive with current logic and reasoning We neglected the presence of other spirits that is tirelessly working against our faith With technology advancement spiritual life becomes less relevant until towards the end of our physical life when we are no longer needed by the system By then it may be too late It is said that our physical life span is so short compare to spiritual life span including the Afterlife Yet we are being tested if we remain believer or became non believer Test of Faith in God which is acquiescent to the Afterlife The biggest test is yet to come once Dajjal or the Anti Christ appear with the most powerful witchcraft human and Jinn ever seen that can easily misled us that he is God Appearance of Dajjal was prophesized and conspired to mark that Doomsday is near When will the Doomsday be Let's find out what was said and what was prophesized **Welcome to Infinity** Kathlyn Hinesley, 2002 Writing in an entertaining autobiographical style Kathlyn

Hinesley combines research in anthropology history and science with personal psychic experience and metaphysical theory She tackles questions related to life after death spirit communication shamanism alien visitations out of body travel time travel sacred sites and the nature of reality of itself She enlightens the reader by showing how many of these topics are related and why Welcome to Infinity presents us with an intriguing view of the universe one that is home to a variety of otherworldly beings existing at different frequencies of vibration Ms Hinesley explores ancient and modern techniques for communicating and collaborating with these beings and traveling to their realms She describes the importance placed on human spirit collaboration by ancient and native peoples who viewed such contact as critical to the maintenance of harmony on earth The author argues for a return to our roots for a future in which humans and otherworldly beings work together for the good of the universe Kathlyn Hinesley deciphers our interactions with the higher vibrations of our ecosystem This is the hard science of the future Rick Ramsey Kozmic Engine *Death and Salvation in Ancient Egypt* Jan Assmann,2011-11-14 Human beings the acclaimed Egyptologist Jan Assmann writes are the animals that have to live with the knowledge of their death and culture is the world they create so they can live with that knowledge In his new book Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole Drawing on the unfamiliar genre of the death liturgy he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt Assmann describes in detail nine different images of death death as the body being torn apart as social isolation the notion of the court of the dead the dead body the mummy the soul and ancestral spirit of the dead death as separation and transition as homecoming and as secret Death and Salvation in Ancient Egypt also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual **Invading the Realm of Demons, Disease, and Death** Carl E. Roemer,2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist s understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus s activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed Folklore Joseph Jacobs,Alfred Trübner Nutt,Arthur Robinson Wright,William Crooke,1901 Most vols for 1890 contain list of members of the Folk lore Society
