The Politics Industry Katherine M. Gehl, Michael E. Porter, 2020-06-23 Leading political innovation activist Katherine Gehl and world renowned business strategist Michael Porter bring fresh perspective deep scholarship and a real and actionable solution Final Five Voting to the grand challenge of our broken political and democratic system Final Five Voting has already been adopted in Alaska and is being advanced in states across the country The truth is the American political system is working exactly how it is designed to work and it isn't designed or optimized today to work for us for ordinary citizens Most people believe that our political system is a public institution with high minded principles and impartial rules derived from the Constitution In reality it has become a private industry dominated by a textbook duopoly the Democrats and the Republicans and plagued and perverted by unhealthy competition between the players Tragically it has therefore become incapable of delivering solutions to America's key economic and social challenges In fact there's virtually no connection between our political leaders solving problems and getting reelected In *The Politics Industry* business leader and path breaking political innovator Katherine Gehl and world renowned business strategist Michael Porter take a radical new approach They ingeniously apply the tools of business analysis and Porter's distinctive Five Forces framework to show how the political system functions just as every other competitive industry does and how the duopoly has led to the devastating outcomes we see today Using this competition lens Gehl and Porter identify the most powerful lever for change a strategy comprised of a clear set of choices in two key areas how our elections work and how we make our laws Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes such as term limits and campaign finance reform The result true political innovation *The Politics Industry* is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation *Subject Catalog of the Institute of Governmental Studies Library, University of California, Berkeley* University of California, Berkeley. McGann McGann, Charles Anthony Smith, 2021-07-22 State legislatures are tasked with

drawing state and federal districts and administering election law among many other responsibilities Yet state legislatures are themselves gerrymandered This book examines how why and with what consequences drawing on an original dataset of ninety five state legislative maps from before and after 2011 redistricting Identifying the institutional political and geographic determinants of gerrymandering the authors find that Republican gerrymandering increased dramatically after the 2011 redistricting and bias was most extreme in states with racial segregation where Republicans drew the maps This bias has had long term consequences For instance states with the most extreme Republican gerrymandering were more likely to pass laws that restricted voting rights and undermined public health and they were less likely to respond to COVID 19 The authors examine the implications for American democracy and for the balance of power between federal and state government they also offer empirically grounded recommendations for reform
