Reappraisals In Overseas History:

Reappraisals in Overseas History Christopher Alan Bayly, 1979-10-31 Reappraisals in Overseas History P.C. Emmer, H.L. Wesseling, 1979-12-14 **Reappraisals in Overseas History**, 1979 **New Perspectives on Historical Writing** Peter Burke, 2001-01-01 A new edition of this best selling collection of essays by leading experts on historical methodology Since its first publication in 1992 *New Perspectives on Historical Writing* has become a key reference work used by students and researchers interested in the most important developments in the methodology and practice of history For this new edition the book has been thoroughly revised and updated and includes an entirely new chapter on environmental history Peter Burke is joined here by a distinguished group of internationally renowned historians including Robert Darnton Ivan Gaskell Richard Grove Giovanni Levi Roy Porter Gwyn Prins Joan Scott Jim Sharpe Richard Tuck and Henk Wesseling The contributions examine a wide range of interdisciplinary areas of historical research including women's history history from below the history of reading oral history the history of the body microhistory the history of events the history of images and political history The Case for Reappraisal of U.S. Overseas Information Policies and Programs Edward L. Bernays, Burnet Hershey, 1970 Based on papers delivered at a one day conference under the auspices of the Emergency Committee for Reappraisal of U S Overseas Information Policies and Programs and the Overseas Press Club Foundation **A Global History of Modern Historiography** Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures *A Global History of Modern Historiography* Georg Iggers, Q. Edward Wang, Supriya Mukherjee, 2016-09-01 The first book on historiography to adopt a global and comparative perspective on the topic *A Global History of Modern Historiography* looks not just at developments in the West but also at the other great historiographical traditions in Asia the Middle East and elsewhere around the world over the course of the past two and a half centuries This second edition contains fully updated sections on Latin American and African historiography discussion of the development of global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of

modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography

Beyond Eurocentrism Peter Gran,2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations

Encounters on the Opposite Coast: The Dutch East India Company and the Nayaka State of Madurai in the Seventeenth Century Markus Vink,2015-10-14 In *Encounters of the Opposite Coast* Markus Vink provides a narrative of the first half century of cross cultural interaction between the Dutch East India Company VOC one of the great northern European chartered companies and Madurai one of the great southern Nayakas and successor states of the Vijayanagara empire in southeast India c 1645 1690 A shared interest in trade and at times converging political objectives formed the unstable foundations for a complex relationship fraught with tensions a mixture of conflict and coexistence typical of the age of contained conflict Drawing extensively on archival materials Markus Vink covers a topic neglected by both Company historians and their Indian counterparts and sheds important light on a black hole in South Indian history

The Leopard, the Lion, and the Cock Matthew Stanard,2019-04-15 Thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960 The degree to which the late colonial era affected Europe has been long underappreciated and only recently have European countries started to acknowledge not having come to terms with decolonisation In Belgium the past two decades have witnessed a growing awareness of the controversial episodes in the country s colonial past This volume examines the long term effects and legacies of the colonial era on Belgium after 1960 the year the Congo gained its independence and calls into question memories of the colonial past by focusing on the meaning and place of colonial monuments in public space The book foregrounds the enduring presence of empire in everyday Belgian life in the form of permanent colonial markers in bronze and stone lieux de m moire of the country s history of overseas expansion By means of photographs and explanations of major pro colonial memorials as well as several obscure ones the book reveals the surprising degree to which Belgium became infused with a colonialist spirit during the colonial era Another key component of the analysis is an account of the varied ways in which both Dutch and French speaking Belgians approached the colonial past after 1960 treating memorials variously as objects of veneration with indifference or as symbols

to be attacked or torn down The book provides a thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960

The Quest for the Lost Nation Sebastian Conrad,2010-07-15 Highly praised when published in Germany The Quest for the Lost Nation is a brilliant chronicle of Germany's and Japan's struggles to reclaim a defeated national past Sebastian Conrad compares the ways German and Japanese scholars revised national history after World War II in the shadows of fascism surrender and American occupation Defeat in 1945 marked the death of the national past in both countries yet as Conrad proves historians did not abandon national perspectives during reconstruction Quite the opposite the nation remained hidden at the center of texts as scholars tried to make sense of the past and searched for fragments of the nation they had lost By situating both countries in the Cold War Conrad shows that the focus on the nation can be understood only within a transnational context

New Times in Modern Japan Stefan Tanaka,2009-02-09 New Times in Modern Japan concerns the transformation of time the reckoning of time during Japan's Meiji period specifically from around 1870 to 1900 Time literally changed as the archipelago synchronized with the Western imperialists reckoning of time The solar calendar and clock became standard timekeeping devices and society adapted to the abstractions inherent in modern notions of time This set off a cascade of changes that completely reconfigured how humans interacted with each other and with their environment a process whose analysis carries implications for other non Western societies as well By examining topics ranging from geology ghosts childhood art history and architecture to nature as a whole Stefan Tanaka explores how changing conceptions of time destabilized inherited knowledge and practices and ultimately facilitated the reconfiguration of the archipelago's heterogeneous communities into the liberal capitalist nation state Japan However this revolutionary transformation where in the words of Lewis Mumford the clock not the steam engine is the key mechanism of the industrial age has received little more than a footnote in the history of Japan This book's innovative focus on time not only shifts attention away from debates about the failure or success of modernization toward how individuals interact with the overlay of abstract concepts upon their lives it also illuminates the roles of history as discourse and as practice in this reconfiguration of society In doing so it will influence discussions about modernity well beyond the borders of Japan

The Intra-Asian Trade in Japanese Copper by the Dutch East India Company During the Eighteenth Century Ryūto Shimada,2006 In this definitive study of the intra Asian trade in Japanese copper trade by the Dutch East India Company the author argues that the trade in this commodity reaped high profits Despite the huge imports of British copper by the English East India Company during the eighteenth century the Dutch Company successfully continued to sell Japanese copper in South Asia at higher prices Compared to the capital intensive development of British mines in the age of the Industrial Revolution the copper production in Tokugawa Japan was characterized by a labour intensive revolution which also made a big impact on the local economy

Historiography of Europeans in Africa and Asia, 1450-1800 Anthony Disney, 2019-07-25 The first part of this volume deals with the changes and continuities in historical approaches over the last fifty years with three further sections focusing on initial contacts formal presences and informal presences Emphasis has been placed on the major European players in Asia and Africa before 1800 the Portuguese Dutch and English without neglecting the role played by the French Spanish Scandinavians and others

War, Trade and Piracy in the China Seas (1622-1683) Weichung Cheng, 2013-05-13 Approaching its demise the Ming imperial administration enlisted members of the Cheng family as mercenaries to help in the defense of the coastal waters of Fukien Under the leadership of Cheng Chih lung also known as Nicolas Iquan and with the help of the local gentry these mercenaries became the backbone of the empire's maritime defense and the protectors of Chinese commercial interests in the East and South China Seas The fall of the Ming allowed Cheng Ch eng kung alias Coxinga and his sons to create a short lived but independent seaborne regime in China's southeastern coastal provinces that competed fiercely if only briefly with Spanish Portuguese Dutch and English merchants during the early stages of globalization

Across Cultural Borders Eckhardt Fuchs, Benedikt Stuchtey, 2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism

The Meaning Of Freedom Frank McGlynn, Seymour Drescher, 1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and

impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new a growing field

British Imperialism P.J. Cain,A. G. Hopkins,2016-03-02 A milestone in the understanding of British history and imperialism this ground breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries Employing their concept of gentlemanly capitalism the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties and how these ties were undone to produce the post colonial world of today Containing a significantly expanded and updated Foreword and Afterword this third edition assesses the development of the debate since the book s original publication discusses the imperial era in the context of the controversy over globalization and shows how the study of the age of empires remains relevant to understanding the post colonial world Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post imperial Britain today *British Imperialism 1688 2015* is the perfect read for all students of imperial and global history

Imperial Meridian C. A. Bayly,2016-09-17 In this impressive and ambitious survey Dr Bayly studies the rise apogee and decline of what has come to be called the Second British Empire the great expansion of British dominion overseas particularly in Asia and the Middle East during the French Revolutionary and Napoleonic era that coming between the loss of America and the subsequent partition of Africa constitutes the central phase of British imperial history
