**Philosophy, Reasoned Belief, and Faith** Paul Herrick, 2022-06 This clear readable introduction to philosophy presents a traditional theistic view of the existence of God There are many fine introductions to philosophy but few are written for Christian students by a teacher who is sensitive to the intellectual challenges they face studying in an environment that is often hostile to religious belief Many introductory texts present short easy to refute synopses of the traditional arguments for God s existence the soul free will and objective moral value rooted in God s nature usually followed by strong objections stated as if they are the last word This formula may make philosophy easier to digest but it gives many students the impression that there are no longer any good reasons to accept the beliefs just mentioned

Philosophy Reasoned Belief and Faith is written for philosophy instructors who want their students to take a deeper look at the classic theistic arguments and who believe that many traditional views can be rigorously defended against the strongest objections The book is divided into four sections focusing on philosophy of religion an introduction to epistemology philosophy of the human person and philosophical ethics The text challenges naturalism the predominant outlook in the academic world today while postmodernist relativism and skepticism are also examined and rejected Students of faith and students without faith will deepen their worldviews by thoughtfully examining the philosophical arguments that are presented in this book Philosophy Reasoned Belief and Faith will appeal to Christian teachers analytic theists home educators and general readers interested in the classic arguments supporting the Christian worldview
