**How Do You Kill 11 Million People?** Andy Andrews, 2012-01-02. How do you get away with the murder of 11 million people? The answer is simple and disturbing: You lie to them. Learn how you can become an informed, passionate citizen who demands honesty and integrity from your leaders. In this nonpartisan New York Times bestselling book, Andy Andrews emphasizes that seeking and discerning the truth is of critical importance and that believing lies is the most dangerous thing you can do. You'll be challenged to become a more careful student of the past, seeking accurate, factual accounts of events that illuminate choices our world faces now. By considering how the Nazi German regime was able to carry out over eleven million institutional killings between 1933 and 1945, Andrews advocates for an informed population that demands honesty and integrity from its leaders and from each other. This short, thought-provoking book poses questions like: What happens to a society in which truth is absent? How are we supposed to tell the difference between the good guys and the bad guys? How does the answer to this question affect our country, families, faith, and values? Does it matter that millions of ordinary citizens aren't participating in the decisions that shape the future of our country? Which is more dangerous: politicians with ill intent or the too-trusting population that allows such people to lead them? This is a wake-up call: we must become informed, passionate citizens or suffer the consequences of our own ignorance and apathy. We can no longer measure a leader's worth by the yardsticks provided by the left or the right. Instead, we must use an unchanging standard: the pure, unvarnished truth.

**Why They Kill** Richard Rhodes, 2000-10-10. Richard Rhodes, Pulitzer Prize-winning author of *The Making of the Atomic Bomb*, brings his inimitable vision, exhaustive research, and mesmerizing prose to this timely book that dissects violence and offers new solutions to the age-old problem of why people kill. Lonnie Athens was raised by a brutally domineering father. Defying all odds, Athens became a groundbreaking criminologist who turned his scholar's eye to the problem of why people become violent. After a decade of interviewing several hundred violent convicts, men and women of varied background and ethnicity, he discovered violentization: the four-stage process by which almost any human being can evolve into someone who will assault, rape, or murder another human being. *Why They Kill* is a riveting biography of Athens and a judicious critique of his seminal work, as well as an unflinching investigation into the history of violence.

and military combatants evidently have an institutionally based moral duty to put themselves in harm's way to protect others. Under some circumstances however police have an institutionally based moral duty to use lethal force to uphold the law and military combatants have an institutionally based moral duty to use lethal force to win wars. Two key notions in play are joint action and the natural right to self defense. Miller uses a relational individualist theory of joint actions to construct the notion of multi-layered structures of joint action in order to explicate organizational action. He also provides a novel theory of justifiable killing in self defense. Over the course of his book Miller covers a variety of urgent topics such as police shootings of armed offenders, police shooting of suicide bombers, targeted killing, autonomous weapons, humanitarian armed intervention and civilian immunity.
