## **Reason Why The:**

The Reason why Cecil Woodham-Smith, 1957      The Reason Why: the Post Civil-war Agrarian Crisis in Spain Thomas Christiansen, 2012-05-07 This book analyses the influence of Francoist policy on agricultural output in the 1939-55 period. The focus is on the wheat, olive and wine sectors and special attention is given to small scale farmers. Agrarian policy for wheat and olive oil included pricefixing, production quotas and rationing of consumption. Producers and consumers circumvented intervention by creating a black market. When earnings from the black market are included, value of output per unit of land remained close to pre-war levels. It is then concluded that the decrease in wheat output was caused by lack of draught animals and fertilisers rather than state intervention. Intervention in the wheat sector was therefore desirable from a social viewpoint but the system could have been improved significantly. Average olive oil output only fell below the pre-war level immediately after the war. Consequently, state intervention was unnecessary after 1942-43 and could have been abolished long before it was finally done in 1952. In the wine sector, policy aimed at increasing farm prices rather than decreasing consumer prices. Table wine consumption declined after the war but this was counteracted by higher demand for high alcohol white wine for the production of brandy and industrial alcohol. Consequently, the analysis shows that similar kinds of intervention led to quite different results in terms of production as demonstrated in the cases of wheat and olives. On the other hand, different types of intervention led to similar results in production for olives and vines.

**The Reason why the Colored American is Not in the World's Columbian Exposition** Ida B. Wells-Barnett, Robert W. Rydell, 1999 Expressly intended to demonstrate America's national progress toward utopia, the 1893 World's Columbian Exposition in Chicago pointedly excluded the contributions of African Americans. For them being left outside the gates of the White City merely underscored a more general exclusion from America's bright future. Exhibits at the fair were controlled by all-white committees and those that acknowledged African Americans at all such as the famous Aunt Jemima pancake exhibit ridiculed and denigrated them. Many African Americans saw the racist policies of the World's Columbian Exposition as mirroring, framing and reinforcing the larger horrors confronting blacks throughout the United States where white supremacy meant segregation, second-class citizenship and sometimes mob violence and lynching. In response to the politics of exclusion that governed the fair and of its larger implications, several prominent African Americans resolved to publish a pamphlet that would catalog the achievements of African Americans since the abolition of slavery while articulating the persistent political economy of apartheid in the American South. The authors of this remarkable document included the antilynching crusader Ida B. Wells, the former slave and abolitionist Frederick Douglass, the educator Irvine Garland Penn and the lawyer and newspaper publisher Ferdinand L. Barnett. An eloquent statement of protest and pride, *The Reason Why the Colored American Is Not in the World's Columbian Exposition* reminds us that struggles over cultural representation are nothing new in American life. Robert Rydell's introduction provides insight into the sometimes conflicting strategies employed by African

Americans as they strove to represent themselves at a cultural event that was widely regarded as a defining moment in American history

*The Reason Why* Robert Kemp Philp, 2019-12-18 In *The Reason Why* Robert Kemp Philp explores the intricate interplay of faith and reason against the backdrop of 19th century societal upheaval Through a compelling narrative woven with philosophical reflections and vivid characterizations Philp invites readers to engage with fundamental questions about belief and skepticism The book employs a conversational style that reflects the intellectual currents of its time reminiscent of the works of contemporary thinkers like Thomas Carlyle and John Stuart Mill making it a significant addition to Victorian literature Robert Kemp Philp was not only a writer but a vibrant figure in the cultural milieu of his era His background as a publisher and advocate for education likely shaped his interest in the tensions between science and religion which he addresses with both sensitivity and rigor in this work As a member of a generation grappling with the effects of the Enlightenment and the rise of rational thought Philp's insights resonate with the struggles of his contemporaries illuminating the human condition with empathy I highly recommend *The Reason Why* to scholars and casual readers alike as it provides profound insights into the human spirit's quest for understanding Philp's eloquent prose and thought provoking themes make it not just a literary work but a vital exploration of the beliefs that drive humanity forward

**The reason why? A careful collection of hundreds of reasons for things [by R.K. Philp].** Robert Kemp Philp,1857      **The Ritual Reason Why. Edited by C. W., Etc** Charles WALKER (of Brighton.),1867      *The Reason Why: a careful collection of some hundreds of reasons for things, which, though generally known, are imperfectly understood. Compiled by R. K. Philp ,1857*      *To Do, To Die, To Reason Why* Victor Tadros,2020-06-18 To Do To Die To Reason Why offers a new account of the ethics of war and the legal regulation of war It is especially concerned with the conduct of individuals including whether they are required to follow orders to go to war what moral constraints there are on killing in war what makes people liable to be killed in war and the extent to which the laws of war ought to reflect the morality of war Victor Tadros defends a largely anti authority view about the morality of war and notable moral constraints on killing in war such as the Doctrine of Doing and Allowing and a version of the Doctrine of Double Effect However he argues that a much wider range of people are liable to be harmed or killed in war than is normally thought to be the case on grounds of both causal involvement and fairness And it argues that the laws of war should converge much more closely with the morality of war than is currently the case
