Geisler, Patty Tunnickliffe, 2013-02-15 Trusted Theologian Presents a Case for Christian Faith in Easy to Understand Language Seminary professor and bestselling author teams with a seminary trained apologist and teacher to give readers basic solid evidence for the Christian faith This book is ideal for both teens and adults Lay leaders and teachers as well as students will be equipped to explain the basics of Christianity to unbelievers and new believers The accessible and topically organized book is easy to

understand and use *Believing Against the Evidence* Miriam Schleifer McCormick, 2014-10-30 The question of whether it is ever permissible to believe on insufficient evidence has once again become a live question Greater attention is now being paid to practical dimensions of belief namely issues related to epistemic virtue doxastic responsibility and voluntarism In this book McCormick argues that the standards used to evaluate beliefs are not isolated from other evaluative domains The ultimate criteria for assessing beliefs are the same as those for assessing action because beliefs and actions are both products of agency Two important implications of this thesis both of which deviate from the dominant view in contemporary philosophy are 1 it can be permissible and possible to believe for non evidential reasons and 2 we have a robust control over many of our beliefs a control sufficient to ground attributions of responsibility for belief **Pascal** Michael Moriarty, 2020 Michael Moriarty presents the deepest and broadest study for many years of Blaise Pascal s philosophy and theology as represented in his *Pensees* a seminal work in the development of modern thought Central themes are the distinction between faith and reason the contradictions within human nature and the relation between mind and body **Philosophy, Reasoned Belief, and Faith** Paul Herrick, 2022-06 This clear readable introduction to philosophy presents a traditional theistic view of the existence of God There are many fine introductions to philosophy but few are written for Christian students by a teacher who is sensitive to the intellectual challenges they face studying in an environment that is often hostile to religious belief Many introductory texts present short easy to refute synopses of the traditional arguments for God s existence the soul free will and objective moral value rooted in God s nature usually followed by strong objections stated as if they are the last word This formula may make philosophy easier to digest but it gives many students the impression that there are no longer any good reasons to accept the beliefs just mentioned *Philosophy Reasoned Belief and Faith* is written for philosophy instructors who want their students to take a deeper look at the classic theistic arguments and who believe that many traditional views can be rigorously defended against the strongest objections The book is divided into four sections focusing on philosophy of religion an introduction to epistemology philosophy of the human person and philosophical ethics The text challenges naturalism the predominant outlook in the academic world today while postmodernist relativism and skepticism are also examined and rejected Students of faith and students without faith will deepen their worldviews by thoughtfully examining the philosophical arguments that are presented in this book *Philosophy Reasoned Belief and Faith* will appeal to Christian teachers analytic theists home educators and general readers interested in the classic arguments supporting the Christian worldview **Making Sense of God** Timothy Keller, 2016-09-20 We live in an age of skepticism Our society places such faith in empirical reason historical progress and heartfelt emotion that it s easy to wonder Why should anyone believe in Christianity What role can faith and religion play in our modern lives In this thoughtful and inspiring new book pastor and New York Times bestselling author Timothy Keller invites skeptics to consider that Christianity is more relevant now than ever As human beings we cannot live without meaning satisfaction freedom identity

justice and hope Christianity provides us with unsurpassed resources to meet these needs Written for both the ardent believer and the skeptic *Making Sense of God* shines a light on the profound value and importance of Christianity in our lives

René Girard, *Unlikely Apologist* Grant Kaplan, 2016-08-20 Since the late 1970s theologians have been attempting to integrate mimetic theory into different fields of theology yet a distrust of mimetic theory persists in some theological camps In Ren Girard *Unlikely Apologist* Mimetic Theory and Fundamental Theology Grant Kaplan brings mimetic theory into conversation with theology both to elucidate the relevance of mimetic theory for the discipline of fundamental theology and to understand the work of Ren Girard within a theological framework Rather than focus on Christology or atonement theory as the locus of interaction between Girard and theology Kaplan centers his discussion on the apologetic quality of mimetic theory and the impact of mimetic theory on fundamental theology the subdiscipline that grew to replace apologetics His book explores the relation between Girard and fundamental theology in several keys In one it understands mimetic theory as a heuristic device that allows theological narratives and positions to become more intelligible and by so doing makes theology more persuasive In another key Kaplan shows how mimetic theory when placed in dialogue with particular theologians can advance theological discussion in areas where mimetic theory has seldom been invoked On this level the book performs a dialogue with theology that both revisits earlier theological efforts and also demonstrates how mimetic theory brings valuable dimensions to questions of fundamental theology

**Where the Conflict Really Lies** Alvin Plantinga, 2011-11-30 In this long awaited book pre eminent analytical philosopher Alvin Plantinga argues that the conflict between science and theistic religion is actually superficial and that at a deeper level they are in concord

*Belief's Own Ethics* Jonathan E. Adler, 2006-01-20 The fundamental question of the ethics of belief is What ought one to believe According to the traditional view of evidentialism the strength of one's beliefs should be proportionate to the evidence Conventional ways of defending and challenging evidentialism rely on the idea that what one ought to believe is a matter of what it is rational prudent ethical or personally fulfilling to believe Common to all these approaches is that they look outside of belief itself to determine what one ought to believe In this book Jonathan Adler offers a strengthened version of evidentialism arguing that the ethics of belief should be rooted in the concept of belief that evidentialism is belief's own ethics A key observation is that it is not merely that one ought not but that one cannot believe for example that the number of stars is even The cannot represents a conceptual barrier not just an inability Therefore belief in defiance of one's evidence or evidentialism is impossible Adler addresses such questions as irrational beliefs reasonableness control over beliefs and whether justifying beliefs requires a foundation Although he treats the ethics of belief as a central topic in epistemology his ideas also bear on rationality argument and pragmatics philosophy of religion ethics and social cognitive psychology

**Challenges to Moral and Religious Belief** Michael Bergmann, Patrick Kain, 2014-05 Fourteen original essays by philosophers theologians and social scientists explore the challenges to moral and religious belief posed by disagreement and evolution The collection represents

both sceptical and non sceptical positions about morality and religion cultivates new insights and moves the discussion forward in illuminating ways      Belief and Truth Katja Maria Vogt,2012-09-20 Belief and Truth A Skeptic Reading of Plato explores a Socratic intuition about belief doxa belief is shameful In aiming for knowledge one must aim to get rid of beliefs Vogt shows how deeply this proposal differs from contemporary views but that it nevertheless speaks to intuitions we are likely to share with Plato ancient skeptics and Stoic epistemologists      Warranted Christian Belief Alvin Plantinga,2000 Describes the notion of warrant as that which distinguishes knowledge from true belief This volume examines warrant s role in theistic belief tackling the questions of whether it is rational reasonable justifiable and warranted to accept Christian belief and whether there is something epistemically unacceptable in doing so      **Being Realistic about Reasons** T. M. Scanlon,2014 Is what we have reason to do a matter of fact If so what kind of truth is involved how can we know it and how do reasons motivate and explain action In this concise and lucid book T M Scanlon offers answers with a qualified defence of normative cognitivism the view that there are normative truths about reasons for action      Existential Reasons for Belief in God Clifford Williams,2011-02-23 In this book philosopher Clifford Williams argues that needs desires and emotions have a legitimate place in drawing people into faith Addressing the strongest objections to these types of reasons he shows how the personal and experiential aspects of belief play an important part in coming to faith and remaining a believing person
