Reason Before Identity Amartya Kumar Sen, 1999 In November of 1998 Amartya Sen winner of the 1998 Nobel Prize for Economics delivered the 1998 Romanes Lecture before the University of Oxford The subject was social identity and its role and implications

Reasons Without Persons Brian Hedden, 2015 Brian Hedden defends a radical view about rationality personal identity and time He argues that what it is rational to do should not depend on your past beliefs or actions which are not part of your current perspective on the world His impersonal approach holds that what rationality demands of you is solely determined by your evidence

Identity and Violence Amartya Sen, 2007-01-30 The violence of illusion Making sense of identity Civilizational confinement Religious affiliations and Muslim history West and anti west Culture and captivity Globalization and voice Multiculturalism and freedom Freedom to think

Before Identity Richard F. Calichman, 2021-02-01 Before Identity represents the first attempt to provide a comprehensive examination of the methodological ground of Japan studies At its most basic level the field presupposes the immediate empirical existence of an entity known as the Japanese people or Japanese culture from which it then carves out its various objects of inquiry Richard F Calichman attempts to show that this presupposition is itself ineluctably bound up with modern forms of knowledge formation thereby enlarging the scope of what is meant by modernity In this way he aims to bring about a heightened level of theoretical critical vigilance in the field Calichman explores the methodological commitments implied or expressed in the work of a range of writers and scholars Murakami Haruki Komori Y ichi Harry Harootunian Tomi Suzuki Alan Tansman and Dennis Washburn and how such commitments have shaped and limited the field If theoretical issues in Japan studies are not subjected to this sort of in depth scrutiny Calichman argues then the field will continue to remain ghettoized relative to other disciplines in the humanities and social sciences which have typically been more receptive to conceptual discourse By showing that scholarly inquiry must begin not at the level of the object but rather at the more fundamental level of methodology Calichman aims to introduce a greater degree of theoretical rigor to the discipline of Japan studies as a whole

Sources of the Self Charles Taylor, 1992-03-01 Taylor shows that the modern turn inward is not disastrous but is in fact the result of our long efforts to define and reach the good At the heart of this definition he finds the affirmation of ordinary life a value that has decisively if not completely replaced an older conception of reason as connected to a hierarchy based on birth and wealth

Not by Reason Alone Joshua Mitchell, 1996-10 Masterfully interweaving political religious and historical themes Not by Reason Alone creates a new interpretation of early modern political thought Where most accounts assume that modern thought followed a decisive break with Christianity Joshua Mitchell reveals that the line between the age of faith and that of reason is not quite so clear Instead he shows that the ideas of Luther Hobbes Locke and Rousseau draw on

history rather than reason alone for a sense of political authority This erudite and ambitious work crosses disciplinary boundaries to expose unsuspected connections between political theory religion and history In doing so it offers a view of modern political thought undistorted by conventional distinctions between the ancient and the modern and between the religious and the political Original A delight to read a political philosopher who takes the theologies of Hobbes and Locke seriously J M Porter Canadian Journal of History Mitchell s argument both illuminates and fascinates An arresting even stunning contribution to our study of modern political thought William R Stevenson Jr Christian Scholar s Review

Identity as Reasoned Choice Jonardon Ganeri,2012-02-02 In an increasingly multi religious and multi ethnic world identity has become something actively chosen rather than merely acquired at birth This book essentially analyzes the resources available to make such a choice Looking into the world of intellectual India this unique comparative survey focuses on the identity resources offered by India s traditions of reasoning and public debate Arguing that identity is a formation of reason it draws on Indian theory to claim that identities are constructed from exercises of reason as derivation from exemplary cases The book demonstrates that contemporary debates on global governance and cosmopolitan identities can benefit from these Indian resources which were developed within an intercultural pluralism context with an emphasis on consensual resolution of conflict This groundbreaking work builds on themes developed by Amartya Sen to provide a creative pursuit of Indian reasoning that will appeal to anyone studying politics philosophy and Asian political thought Leibniz's Principle of Identity of Indiscernibles Gonzalo Rodriguez-Pereyra,2014 Examines the place and role of the identity of indiscernibles which rules out numerically distinct but perfectly similar things in Leibniz s philosophy *Identity? Metaphysical Approach* Jure Zovko,2021-06-11 Identity is considered prima facie the most important philosophical principle in traditional logic and metaphysics The reflexive ability of the subject implies that he or she can relate to himself or herself and to others thus establishing the basis for the formation of individual and social identity The present essays which contains papers held at the conference of the Institut International de Philosophie at the University of Zadar in 2007 present a range of positions and arguments regarding the possibilities of philosophical interpretation of identity The Non-Identity Problem and the Ethics of Future People David Boonin,2014-10-16 David Boonin presents a new account of the non identity problem a puzzle about our obligations to people who do not yet exist Our actions sometimes have an effect not only on the quality of life that people will enjoy in the future but on which particular people will exist in the future to enjoy it In cases where this is so the combination of certain assumptions that most people seem to accept can yield conclusions that most people seem to reject The non identity problem has important implications both for ethical theory and for a number of topics in applied ethics including controversial issues in bioethics environmental ethics and disability ethics It has been the subject of a great deal of discussion for nearly four decades but this is the first book length study devoted exclusively to its examination Boonin begins by explaining what the problem is why the problem matters and what criteria a solution to the

problem must satisfy in order to count as a successful one He then provides a critical survey of the solutions to the problem that have thus far been proposed in the sizeable literature that the problem has generated and concludes by developing and defending an unorthodox alternative solution one that differs fundamentally from virtually every other available approach

White Identity Politics Ashley Jardina, 2019-02-28 Amidst discontent over America's growing diversity many white Americans now view the political world through the lens of a racial identity Whiteness was once thought to be invisible because of whites' dominant position and ability to claim the mainstream but today a large portion of whites actively identify with their racial group and support policies and candidates that they view as protecting whites' power and status In *White Identity Politics* Ashley Jardina offers a landmark analysis of emerging patterns of white identity and collective political behavior drawing on sweeping data Where past research on whites' racial attitudes emphasized out group hostility Jardina brings into focus the significance of in group identity and favoritism *White Identity Politics* shows that disaffected whites are not just found among the working class they make up a broad proportion of the American public with profound implications for political behavior and the future of racial conflict in America

Mistaken Identity Asad Haider, 2018-05-15 A powerful challenge to the way we understand the politics of race and the history of anti racist struggle Whether class or race is the more important factor in modern politics is a question right at the heart of recent history's most contentious debates Among groups who should readily find common ground there is little agreement To escape this deadlock Asad Haider turns to the rich legacies of the black freedom struggle Drawing on the words and deeds of black revolutionary theorists he argues that identity politics is not synonymous with anti racism but instead amounts to the neutralization of its movements It marks a retreat from the crucial passage of identity to solidarity and from individual recognition to the collective struggle against an oppressive social structure Weaving together autobiographical reflection historical analysis theoretical exegesis and protest reportage *Mistaken Identity* is a passionate call for a new practice of politics beyond colorblind chauvinism and the ideology of race

Identity and Violence: The Illusion of Destiny (Issues of Our Time) Amartya Sen, 2007-02-17 One of the few world intellectuals on whom we may rely to make sense out of our existential confusion Nadine Gordimer In this sweeping philosophical work Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred Challenging the reductionist division of people by race religion and class Sen presents an inspiring vision of a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war

Reasons and Persons Derek Parfit, 1984-04-12 This book challenges with several powerful arguments some of our deepest beliefs about rationality morality and personal identity The author claims that we have a false view of our own nature that it is often rational to act against our own best interests that most of us have moral views that are directly self defeating and that when we consider future generations the conclusions will often be disturbing He concludes that moral non religious moral philosophy is a young subject with a promising but unpredictable future
