

A serene sunset scene over the ocean. The sky is a warm, golden-orange color, transitioning into a darker blue as it meets the horizon. The ocean is filled with gentle waves, their crests catching the low light of the setting sun. In the foreground, dark, silhouetted rocks or a shoreline are visible, with waves breaking against them, creating white foam. The overall mood is peaceful and contemplative.

Reason Is God:

Making Sense of God Timothy Keller, 2016-09-20 We live in an age of skepticism Our society places such faith in empirical reason historical progress and heartfelt emotion that it's easy to wonder Why should anyone believe in Christianity What role can faith and religion play in our modern lives In this thoughtful and inspiring new book pastor and New York Times bestselling author Timothy Keller invites skeptics to consider that Christianity is more relevant now than ever As human beings we cannot live without meaning satisfaction freedom identity justice and hope Christianity provides us with unsurpassed resources to meet these needs Written for both the ardent believer and the skeptic *Making Sense of God* shines a light on the profound value and importance of Christianity in our lives

Faith, Reason and the Existence of God Denys Turner, 2004-09-16 The proposition that the existence of God is demonstrable by rational argument is doubted by nearly all philosophical opinion today and is thought by most Christian theologians to be incompatible with Christian faith This book argues that on the contrary there are reasons of faith why in principle the existence of God should be thought rationally demonstrable and that it is worthwhile revisiting the theology of Thomas Aquinas to see why this is so The book further suggests that philosophical objections to proofs of God's existence rely upon an attenuated and impoverished conception of reason which theologians of all monotheistic traditions might wish to reject Denys Turner proposes that on a broader and deeper conception of it human rationality is open to the sacramental shape of creation as such and in its exercise of rational proof of God it in some way participates in that sacramentality of all things

God in the Age of Science? Herman Philipse, 2012-02-23 Herman Philipse puts forward a powerful new critique of belief in God He examines the strategies that have been used for the philosophical defence of religious belief and by careful reasoning casts doubt on the legitimacy of relying on faith instead of evidence and on probabilistic arguments for the existence of God

A Reason Open to God J. Steven Brown, 2013 With clarity and wisdom Pope Benedict XVI sets out his vision for Catholic higher education in this first and only collection of his major addresses on the topic What is the mission and identity of a Catholic university What are the responsibilities of administrators teachers and students in Catholic institutes of higher learning Where does the central theme of love of God and others fit into academia

God: The Evidence Patrick Glynn, 2010-06-09 In the modern age science has been winning its centuries old battle with religion for the mind of man The evidence has long seemed incontrovertible Life was merely a product of blind chance a cosmic roll of an infinite number of dice across an eternity of time Slowly methodically scientists supplied answers to mysteries insufficiently explained by theologians Reason pushed faith off into the shadows of mythology

and superstition while atheism became a badge of wisdom Our culture freed from moral obligation explored the frontiers of secularism God was dead Glynn s arguments for the existence of God put the burden of disproof on those intellectuals who think that the question has long since been settled Andrew M Greeley But now in the twilight of the twentieth century a startling transformation is taking place in Western scientific and intellectual thought At its heart is the dawning realization that the universe far from being a sea of chaos appears instead to be an intricately tuned mechanism whose every molecule whose every physical law seems to have been design from the very first nanosecond of the big bang toward a single end the creation of life This intellectually and spiritually riveting book asks a provocative question Is science the long time nemesis of the Deity uncovering the face of God Patrick Glynn lays out the astonishing new evidence that caused him to turn away from the atheism he acquired as a student at Harvard and Cambridge The facts are fascinating Physicists are discovering an unexplainable order to the cosmos medical researchers are reporting the extraordinary healing powers of prayer and are documenting credible accounts of near death experiences psychologists who once considered belief in God to be a sign of neurosis are finding instead that religious faith is a powerful elixir for mental health and sociologists are now acknowledging the destructive consequences of a value free society God The Evidence argues that faith today is not grounded in ignorance It is where reason has been leading us all along

Existential Reasons for Belief in God Clifford Williams,2011-02-23 In this book philosopher Clifford Williams argues that needs desires and emotions have a legitimate place in drawing people into faith Addressing the strongest objections to these types of reasons he shows how the personal and experiential aspects of belief play an important part in coming to faith and remaining a believing person

No Other Gospel Josh Moody,2011-01-05 As fallen human beings we are quick to deviate from the true gospel for as Pastor Josh Moody writes we tend toward human gospels Believers must constantly battle to maintain the purity and simplicity of the gospel Paul was acutely aware of this as he wrote his letter to the Galatians He was writing to an established church experienced believers who had started to slip in their gospel witness Moody finds in Galatians particular relevance and parallels to many churches today Stemming from a series of sermons delivered to his church he examines thirty one reasons Paul gives for this gospel Moody writes this book with a pastor s heart addressing important topics such as The Gospel Not Moralism and The Use of Gospel Freedom Paul s message is foundational to the Christian faith and thoughtful readers will benefit from Moody s exposition

[No Argument for God](#) John Wilkinson,2011-01-28 Seeking to get beyond the gridlock of apologetic arguments John Wilkinson argues that while Christianity is not unreasonable it is not merely reasonable either He calls Christians to

reserve for God's wisdom which often looks to the human brain like foolishness the role of vindicating and authenticating faith

God Is Not Great Christopher Hitchens, 2008-11-19 Christopher Hitchens described in the London Observer as one of the most prolific as well as brilliant journalists of our time takes on his biggest subject yet the increasingly dangerous role of religion in the world In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's bestseller *The End Of Faith* Christopher Hitchens makes the ultimate case against religion With a close and erudite reading of the major religious texts he documents the ways in which religion is a man made wish a cause of dangerous sexual repression and a distortion of our origins in the cosmos With eloquent clarity Hitchens frames the argument for a more secular life based on science and reason in which hell is replaced by the Hubble Telescope's awesome view of the universe and Moses and the burning bush give way to the beauty and symmetry of the double helix

The Language of God Francis Collins, 2008-09-04 Dr Francis S Collins head of the Human Genome Project is one of the world's leading scientists working at the cutting edge of the study of DNA the code of life Yet he is also a man of unshakable faith in God How does he reconcile the seemingly unreconcilable In *THE LANGUAGE OF GOD* he explains his own journey from atheism to faith and then takes the reader on a stunning tour of modern science to show that physics chemistry and biology indeed reason itself are not incompatible with belief His book is essential reading for anyone who wonders about the deepest questions of all why are we here How did we get here And what does life mean

Reasons for Faith (Foreword by Lee Strobel) Norman L. Geisler, Chad V. Meister, 2007-10-26 Many Christians want to witness for their faith but they are afraid they will not be able to answer questions that others may ask of them First Peter 3:15 reminds believers to always be prepared to make a defense to anyone who asks you for a reason for the hope that is in you Norman Geisler and Chad Meister realize the fear of facing questions about the Christian faith Their book *Reasons for Faith* gives believers grounded biblical apologetics to help them defend their faith By covering the importance of apologetics and then applying apologetics to popular culture and theological issues these authors give all Christians the tools they need to stand firm in their faith and to be able to share that faith in today's society
