## **Reassessing Arms Control Studies In Disarmament And Conflicts:**

Reassessing Arms Control David Carlton, Carlo Schaerf, 1985      **Russia and Arms Control** Stephen Blank, 2009 Russo American relations are generally acknowledged to be at an impasse Arms control issues feature prominently in that conflicted agenda Since the outbreak of the Russo Georgian war in August 2008 both Russia and the U S have further hardened positions and raised tensions apart from the war itself and Russia s quite evident refusal to abide by its own cease fire terms Nevertheless and for better or worse arms control and its agenda will remain at the heart of the bilateral Russo American relationship for a long time Arms control and disarmament issues are quintessentially political as well as military issues that are among the most critical components of the bilateral relationship and regional security in both Europe and Asia For these reasons neither the political nor the military aspect can be divorced from the other And for these same reasons we cannot refuse to participate in the bilateral effort to resolve those issues      **New Technologies and the Arms Race** Carlo Schaerf, Brian Holden Reid, David Carlton, 2016-01-07 This volume contains the proceedings of the International Conference on Technology Arms Race and Disarmament which took place at Castiglioncello Italy in September 1987 The papers examine strategic defence policies nuclear weapons proliferation and arms control among many other topics      **Arms Race in the Era of Star Wars** David Carlton, Carlo Schaerf, 1988-06-18      **The Nuclear Danger** Ishtiaq Ahmad, 1996      Space and Nuclear Weaponry in the 1990's Carlo Schaerf, Giuseppe Longo, David Carlton, 1992-06-18 A collection of papers that were the result of meetings held in Italy under the auspices of the International School on Disarmament and Research on Conflicts ISODAROC The primary aim of the meetings was to explore the prospects for space and nuclear weaponry in the coming decade      Biological Warfare and Disarmament Susan Wright, 2002 This book proposes fresh approaches and concrete proposals to overcome one of the most intractable security problems of the twenty first century Visit our website for sample chapters      **Bowker's Law Books and Serials in Print** , 1986      *Books in Print Supplement* , 1984      *Reevaluating Eisenhower* David Allan Mayers, 1988-01-15 These essays offer diverse opinions and provocative insights They are a welcome reflection of current scholarly assessments of Eisenhower Dulles foreign policies Journal of American History Probably the most balanced analysis of Eisenhower s handling of foreign and national security policy that has yet appeared this book deserves to be widely read Highly recommended Choice      RUSI and Brassey's Defence Yearbook Royal United Services Institute for Defence Studies, 1986      *Foreign Affairs* Archibald Cary Coolidge, Hamilton Fish Armstrong, 1984      The Writers Directory 2008 Michelle Kazensky, 2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography      *Books in Print* , 1987      The Search for Stability in Russia and the Former Soviet Bloc David Carlton, Paul Ingram, 2019-01-15 First published in 1997 this volume consists of chapters placed before a series of meetings organised by the Rome based international School on Disarmament and Research on

Conflicts ISODARCO which reviewed the prospects relating to the countries of the Former Soviet Union and of the other members of the Warsaw Treaty Organization The authors include Western experts as well as distinguished commentators from Russia itself Among the latter are Georgi Arbatov Ruslan Khasbulatov and Alexei Arbatov An earlier volume of chapters deriving from this same series of meetings was still in print at the time of original publication in 1997 namely **Rising Tension in Eastern Europe and the Former Soviet Union** Amos Lakos,2019-02-22

The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol Unesco Yearbook on Peace and Conflict Studies ,1988

**Humanitarian Military Intervention** Taylor B. Seybolt,2007 Military intervention in a conflict without a reasonable prospect of success is unjustifiable especially when it is done in the name of humanity Couched in the debate on the responsibility to protect civilians from violence and drawing on traditional just war principles the centralpremise of this book is that humanitarian military intervention can be justified as a policy option only if decision makers can be reasonably sure that intervention will do more good than harm This book asks Have past humanitarian military interventions been successful It defines success as saving lives and sets out a methodology for estimating the number of lives saved by a particular military intervention Analysis of 17 military operations in six conflict areas that were thedefining cases of the 1990s northern Iraq after the Gulf War Somalia Bosnia and Herzegovina Rwanda Kosovo and East Timor shows that the majority were successful by this measure In every conflict studied however some military interventions succeeded while others failed raising the question Why have some past interventions been more successful than others This book argues that the central factors determining whether a humanitarian intervention succeeds are theobjectives of the intervention and the military strategy employed by the intervening states Four types of humanitarian military intervention are offered helping to deliver emergency aid protecting aid operations saving the victims of violence and defeating the perpetrators of violence Thefocus on strategy within these four types allows an exploration of the political and military dimensions of humanitarian intervention and highlights the advantages and disadvantages of each of the four types Humanitarian military intervention is controversial Scepticism is always in order about the need to use military force because the consequences can be so dire Yet it has become equally controversial not to intervene when a government subjects its citizens to massive violation of their basic humanrights This book recognizes the limits of humanitarian intervention but does not shy away from suggesting how military force can save lives in extreme circumstances

**Rising Tension in Eastern Europe and the Former Soviet Union** David Carlton,Paul Ingram,Giancarlo Tenaglia,1996 The Rome Based International School of Disarmament and Research Conflict ISODARCO has recently organized a series of meetings to review the prospects for the countries of the Former Soviet Union and of the European members of the former Warsaw Treaty Organization This

volume consists of surveys placed before these ISODARCO meetings The authors include Western experts as well as distinguished scholars from the region under review Among the latter are well known Directors of Moscow Institutes namely Georgi Arbatov and Alexei Vasilyev Both domestic and international aspects of the increasing tension affecting the region are given close attention      **Arms Control Today** ,1986
