Reassessing Arms Control:

Reassessing Arms Control David Carlton, Carlo Schaerf, 1985 **Success and Failure in Arms Control Negotiations** April Carter, 1989 Governments have been negotiating about disarmament or more limited forms of arms control for forty years Despite these negotiations weapons of increasing deadliness and sophistication continue to be developed Through the use of case studies of particular negotiations Partial and Comprehensive Test Ban SALT I and II INF and START and MBFR CFE the book explores both the reasons for success and the obstacles leading to failure and assesses the importance of different types of explanation Dr Carter not only analyses the reasons why negotiations fail she also examines the conditions under which they are likely to succeed The result is a balanced comprehensive treatment of the problems and prospects for arms control

Reassessing Arms Control David Carlton, Carlo Schaerf, 1985 *Reassessing U.S. Nuclear Strategy* David W. Kearn, 2019 This book reassesses the nuclear strategy of the United States Despite the appearance of continuity in official policy statements views within the Obama and Trump administrations and across the larger defense policy community have diverged on the appropriate role of nuclear weapons in U S national security the optimal nuclear strategy for advancing U S interests force structure requirements and critical related issues This is an important book for security and strategic studies and should be of interest to both scholars and practitioners in political science and international relations especially in the field of nuclear weapons policy

Reassessing the Rogue Tory Janice Cavell, Ryan M. Touhey, 2018-11-15 The years when John Diefenbaker s Progressive Conservatives were in office were among the most tumultuous in Canadian history Coming to power on a surge of optimistic nationalism in 1957 the Rogue Tory had stirred up more controversy than any previous prime minister by the time he was defeated in 1963 This was nowhere more apparent than in his handling of international affairs This book reassesses foreign policy in the Diefenbaker era to determine whether its failures can be mainly attributed to the prime minister s personality traits particularly his indecisiveness or to broader shifts in world affairs Written by leading scholars who mine new sources of archival research the chapters examine the full range of international issues that confronted Diefenbaker and his ministers and probe the factors that led to success or failure decision or indecision on specific issues Rather than dismissing Diefenbaker as a Rogue Tory on the world stage this fascinating reconsideration of the Diefenbaker years challenges readers to push beyond the conventional and reassess his record with fresh eyes

Scrutiny of arms export controls (2012) Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2012-07-13 The Committees on Arms Export Controls CAEC believe that the Government should apply significantly more cautious judgements on the export of arms to authoritarian regimes which might be used for internal repression The Committees have scrutinised in unprecedented detail the Government s latest 2010 Annual Report on Strategic Export Controls HC 1402 session 2011 12 ISBN 9780102973662 the Government s quarterly information on individual export licence approvals and refusals and the Government s policies and performance on arms export controls and

on arms control generally The Committees conclude that the Government s review of its policies and practices on arms exports following the Arab Spring should not have been carried out merely as an internal review and should instead have been the subject of public consultation in accordance with the Government s stated policy of transparency on arms exports And whilst the Government s introduction of a new licence suspension mechanism is welcome this is not sufficient to ensure that arms exported are not used for internal repression overseas because in many cases the arms will have left the UK before suspension occurs The Government should extend its arms export policy review from countries in the Middle East and North Africa to authoritarian regimes and countries of human rights concern worldwide Annex 7 of the report gives selected arms export licence approvals by the Government to countries of human rights concern and the report also contains details of the extant UK Government approved arms export licences to Argentina Bahrain Egypt Libya Saudi Arabia Syria Tunisia and Yemen

Russia and Arms Control Stephen Blank, 2009 Russo American relations are generally acknowledged to be at an impasse Arms control issues feature prominently in that conflicted agenda Since the outbreak of the Russo Georgian war in August 2008 both Russia and the U S have further hardened positions and raised tensions apart from the war itself and Russia s quite evident refusal to abide by its own cease fire terms Nevertheless and for better or worse arms control and its agenda will remain at the heart of the bilateral Russo American relationship for a long time Arms control and disarmament issues are quintessentially political as well as military issues that are among the most critical components of the bilateral relationship and regional security in both Europe and Asia For these reasons neither the political nor the military aspect can be divorced from the other And for these same reasons we cannot refuse to participate in the bilateral effort to resolve those issues

Air University Review , 1986-07 **Cooperative Threat Reduction, Missile Defense and the Nuclear Future** M. Krepon, 2003-01-17 In this book Michael Krepon analyzes nuclear issues such as missile defenses space warfare and treaties and argues that the United States is on a dangerous course During the Cold War Mutual Assured Destruction or MAD facilitated strategic arms control Now that the Cold War has been replaced by asymmetric warfare treaties based on nuclear overkill and national vulnerability are outdated and must be adapted to a far different world A new strategic concept of Cooperative Threat Reduction is needed to replace MAD A balance is needed that combines military might with strengthened treaty regimes

Asian Security Reassessed Stephen Hoadley,Jurgen Ruland,2006 This book traces changes in the concept of security in Asia from realist to cooperative comprehensive and human security approaches and assesses a number of policy alternatives to management of both old and new security threats It surveys not only orthodox security threats such as tensions between regional powers or armed ethnic antagonists but also new sources of anxiety such as resource scarcity economic instability irregular migration community fragmentation and international terrorism Security policies of major powers such as China Japan and the United States and the moderating roles of regional organizations such as ASEAN ARF SCO and KEDO are evaluated in historical and contemporary perspectives Contributors proffer policy relevant insights where appropriate The book concludes that traditional security approaches remain valid but need to be adapted to the new challenges and offers suggestions for incorporating fresh Asian security perceptions into the agendas of policy makers analysts and scholars
